BRITISH-FRENCH GAP REPORTED WIDENING

Works Assured In B.C. Says Premier On Fast Trip Home

Province Will Get Share of Federal Programme; Fifty-fifty Road Plan Being Worked Out; Pattullo Flies Back From East But Must Return to Ottawa This Week-end

Speeding across the continent by air after a sudden change in his plans, Premier Pattullo arrived in Victoria unexpectedly this morning when members of the government thought he was still in the east.

The Premier has been in Ottawa negotiating with Prime Minister Mackenzie King and Hon. Charles Dunning, Minister of Finance, regarding British Columbia's financial situation and a $3,500,000 loan maturity on which the province will need federal help in May.

The Premier declined to discuss these negotiations this morning, as they are not finished. He will return, by air, to Ottawa probably at the end of this week. There are many aspects to the discussions between himself and the federal government, he said, and as yet he is not prepared to make any statement about them.

FEDERAL WORK PLANS

Premier Pattullo expressed himself as pleased with federal plans to carry out public works this year. Several undertakings would be launched in British Columbia, he has been assured, but plans had not matured far enough for him to specify where the work would be done. This work, it is understood, is the provincial share of the $75,000,000 unemployment relief programme for Canada.

The Premier also indicated that the plan under which construction and improvement on main trunk highways will be undertaken by the federal and provincial governments on a fifty-fifty cost basis will be worked out satisfactorily.

Hon. P. M. MacPherson, Minister of Public Works, was in Ottawa last week in connection with this scheme. How much will be spent and what work will be done are details to be settled.

INVITES GOVERNOR-GENERAL

While in Ottawa Premier Pattullo accepted an invitation to meet the Governor-General, Lord Tweedsmuir, at Rideau Hall. In the course of his talk with Lord Tweedsmuir, the Premier asked him to visit the new

CHIEF JUSTICE BACK ON BENCH

Appeal Court Opens Here; Murder Cases Will Open Next Monday

Opening of the April sitting of the B.C. Court of Appeal here today was featured by the return of Chief Justice Macdonald after an absence of a year from the Bench through ill-health.

Ten appeals are listed to be argued at the present sitting, including the appeals of four men sentenced to be hanged for murder.

The court will start on the murder appeals next Monday when the case of the three George brothers, convicted of killing a police officer on a Fraser Valley Indian reserve, will be called. Stuart Henderson, who will argue the appeal for the Indians, was in court today and agreed to having Monday set for the launching of his argument. Alan Maclean, who represented Attorney-General Sloan today, agreed to this. The lawyers indicated that the appeal would probably run over a week and perhaps into two weeks.

SECOND MURDER CASE

Set to follow the Indians' appeal is that of the fourth man convicted of murder, Charles Russell, found guilty and sentenced to be hanged for the killing of William H. Hobbs, teller, in a Vancouver bank hold-up last winter. So far Russell has been

MAYOR IS SENT UP FOR TRIAL

Canadian Press

Edmonton, April 14.—Remanded on his own recognizance for trial in a higher court, Mayor Joseph Clarke of Edmonton entered no defence when he appeared in police court today in a preliminary inquiry into charges that he participated in a lottery by officiating at the drawing of a lucky ticket in an automobile raffle last September.

SCENE OF PLANE DISASTER IN PENNSYLVANIA

The above picture shows how the rear part of the big T.W.A. passenger plane which struck a mountain near Uniontown, Pa., a few days ago, looked. Eleven persons lost their lives. A woman and a man passenger and Hostess Nellie Granger (right) were the only survivors. Miss Granger was the heroine of the accident, pulling the man and woman survivors from the wreckage and then walking miles through forest to telephone the outside world.

Townsend Inquiry In California Is Attracting Crowds

Large Hall Chosen for U.S. Congressional Committee's Public Hearing Tomorrow; "Matter of Grave Importance" Dug Up at Secret Midnight Session

Associated Press

Los Angeles, April 14.—A secret midnight session of the congressional subcommittee investigating the Townsend old age pension movement received information on a "matter of grave importance," James R. Sullivan, the committee's counsel, said today.

Sullivan said witnesses began telling their stories shortly before midnight in the committee's hotel suite and the session did not break up until 2 o'clock this morning.

Public hearings will be held starting tomorrow or Thursday, Sullivan declared. Arrangements are being made to find a hall large enough for the crowds expected.

BRIEF REST TAKEN

So important was the testimony given at the night session that committeemen took only a few hours for sleep and then set out at 7 o'clock this morning for an unrevealed destination, Sullivan said.

The committeemen, Representative James Gavagan, Democrat, New York, and Samuel L. Collins, Republican, California, were accompanied by federal investigators when they left their hotel.

The committee has been holding hearings in Washington seeking information in financing methods of the old age pension movement, and recently decided to dispatch two of its members to Los Angeles to the Towsend headquarters.

HOPE FOR MEN IN MINE TRAP

Rescuers Opening Disused Shaft in Nova Scotia to Reach Three Victims

Canadian Press

Moose River, N.S., April 14.—A call for more men and additional mining equipment was issued today by J. P. Messervey, provincial mines inspector directing rescue work at the Moose River Mines, where three Toronto men are believed to be imprisoned 141 feet from the surface.

Twelve experienced men from the Waverly and Montague gold mining districts were proceeding to the scene in answer to the call. A compressor and other mining equipment needed in the rescue work was rushed to the mine. First aid supplies and a pulmoto were being sent from Halifax by representatives of the families of the imprisoned men.

The three, Dr. D. E. Robertson, Toronto surgeon, Herman R. Macgill, Toronto barrister, and Alfred Scadding, also of Toronto, have been trapped by a cave-in since Sunday evening.

Holding out hope they still live, miners are opening up a disused shaft to reach them, but progress has been slow.

Diver and Assistants Make Under-water Hunt in Massachusetts

Associated Press

Bristol, Mass., April 14.—Secret diving operations at Centre Pond by men who, state police said, claimed they were investigators for Governor Harold G. Hoffman of New Jersey, halted today as word of the activity spread throughout Massachusetts.

Dr. John F. (Jafsie) Condon visited the pond four years ago.

Men giving their names as Neil Keyes of New York and Ellsworth Cottrell of Highlands, N.J., a deep-sea diver, came here last Friday with a crew.

Cottrell has walked along the bottom of the lake for the last three days.

Paris Ministry Called On to Choose Britain Or Italy As Best Friend

As League Committee Prepares to Meet in Geneva Thursday Gravity of Situation Created for Europe by Italo-Ethiopian Contest and German Rhineland Crisis Becomes Plain; League Spokesman Attempts to Start Italian-Ethiopian Peace Talks

Associated Press

Geneva, April 14.—The League of Nations is attempting through direct negotiations to determine the immediate prospect for peace between Italy and Ethiopia.

Salvador de Madariaga of Spain, president of the League's Committee of Thirteen, discussed this prospect with an Ethiopian envoy while Italy's representative traveled from Rome

Whether the League would be able to bring any additional pressure on the belligerents for the establishment of peace perplexed European statesmen, in view of the grave rift which appeared to be developing between France and Great Britain.

The British sought to make settlement of the Italo-Ethiopian war the advance guard in a campaign for the establishment of a new European security system, while the French were equally determined to make settlement of the Rhineland crisis with Germany number one on the list of things which must be done in Europe.

Diplomatic sources in Paris said France has reached the point where she must choose either Italy or Great Britain as her best friend.

FRANCO-ITALIAN FRONT

Canadian Press from Havas

Paris, April 14.—The possibility of a closely knit Franco-Italian front developing when the powers reassemble at Geneva Thursday to resume discussions of the East African war was seen by observers here today.

While the French press, notably Le Temps, a conservative organ, was launching an attack on what it terms the inconsistency of British policy toward Italy and Germany, Premier Sarraut conferred for an hour with Ambassador Vittorio Cerruti of Italy.

Foreign Minister Flandin was expected back in the capital today from his electoral district in Yonne.

HEALTH LEVIES NOT TILL FALL

First Government Proclamation Will Set Up Insurance Machinery

British Columbia's health insurance scheme, which will be the first of its kind to go into effect on the North American continent, will be put into operation by two stages through government proclamation, it was explained at the Parliament Buildings this morning.

The first proclamation, expected within the next month or so, will give power to set up the health commission, advisory bodies and staff and generally prepare the machinery for operating the plan. It involves negotiations with doctors on fees, various investigations to determine forms of treatment, rates and hospitalization.

The second stage, which will bring into force the wage assessments of 2 per cent and payroll levies of 1 per cent and bring the plan to actual functioning, will be carried out in six or eight months it is expected.

Deductions from wage cheques will not start until that date. As yet, the government has not discussed proclamation of either part of the bill, it was learned, but it will probably come up when the full cabinet reassembles next week.

RIVERS RISE ON PRAIRIES

Number of Families at Brandon Forced From Homes by Assiniboine

Canadian Press

Winnipeg, April 14.—Steadily-rising waters of the Assiniboine River lapped at low-lying sections of central Manitoba today, bringing concern to city and rural residents in the vicinity of Brandon.

Water gauges at the wheat city registered a rise of twenty-five inches during the last twenty-four hours. Civic authorities were providing accommodation in unoccupied houses and building for a number of families forced to vacate their homes in the city's north side flats' area.

Acres of low-lying land east of the city were reported under water as residents moved to higher ground. The high-flowing Qu'Appelle River, in southern Saskatchewan, gave impetus to the flood menace. That stream empties into the Assiniboine.

RED RIVER RISES

At Winnipeg the waters of the Red River rose slowly. At Morris, forty miles south, the level was three feet above Sunday's high mark. A rise of five feet was recorded at Emerson on the United States boundary line.

Surface water poured into rivers and streams in Central Alberta and Saskatchewan, where first reports of damage told of broken dams and damaged bridges as huge ice floes made their way slowly downstream.

Canadian Press

Ottawa, April 14.—Finance Minister Dunning announced today tenders had been accepted for the full amount of $25,000,000 Dominion of Canada treasury bills due July 15. The average discount price of the accepted bids was $99.78138 and the average yield .879 per cent.

KIDNAPPINGS AT POLLING

Two Men Whisked Away As Illinois Primaries Are Held

Associated Press

Chicago, April 14.—Two kidnappings, with one election worker abducted under a policeman's fire, sent the Illinois primaries off to a turbulent start in Chicago today.

The violence came as a bumper Chicago registration began to pour into polling places.

The first abduction victim reported to police was Ludwig Piyaszynski, thirty, a Democratic precinct captain.

The other victim was Paul Witowsky, sixty, who, the police were told, was identified as a retired business man and a personal friend of Governor Horner.

Two election judges were removed after the police reported they had found seventeen marked ballots on the person of Philip Zimmerman, thirty-eight.

BITTER TONE

Bitterness engendered by one of the most hectic campaigns of the century prompted elaborate precautions at the polls, as national leaders watched the voting in the Republican presidential preference duel between Senator William E. Borah of Idaho and Col. Frank Knox, publisher of The Chicago Daily News.

It was the first man-to-man test of two ranking contenders for the G.O.P. nomination.

Last Rites Held at Christ Church Cathedral Today; Prominent Citizens Pay Final Tribute to Former Lieutenant-Governor

Citizens of Victoria and Vancouver, among whom he had lived for three-quarters of a century, paid their last tribute today to Sir Frank Stillman Barnard, K.C.M.G., British Columbia pioneer and former lieutenant-governor.

The impressive funeral services for Sir Frank, who died Saturday, were attended by approximately 600 people in Christ Church Cathedral at noon, including Lieutenant-Governor J. W. Fordham Johnson, Commander G. C. Jones, senior naval officer, who officially represented the Governor-General, Lord Tweedsmuir, and many other government and official dignitaries.

The funeral procession, in which were several cars of beautiful floral tributes, left the Barnard family home at Clovelly, 101 Sea Terrace, Esquimalt, at 11.30 o'clock. It reached the cathedral just at noon.

The grey casket, covered with a purple pall, was borne into the cathedral by the following active pallbearers: J. O'Reilly, E. Winslow, R. Swinerton, Gordon Farrell, Col. the Hon. F. G. Wood and A. W. Harvey. The honorary pallbearers were: George Kidd, A. T. Goward, Percy Criddle, F. W. Jones, Brian Drake and George Allen.

Rt. Rev. C. de V. Schofield, Bishop of Columbia; Rt. Rev. H. E. Sexton, Bishop Coadjutor, and the Very Rev. C. S. Quainton, Dean of Columbia, took part in the solemn Church of England service.

The boys' choir opened with the singing of the Twenty-third Psalm. Easter decorations of lilies lent a stately atmosphere.

Editor of Bogota, Columbia, Paper Refuses to Shoot When Adversary's Gun Jams

Associated Press

Bogota, Colombia, April 14.—Luis Cano, veteran editor of the capital's leading afternoon newspaper, El Espectador, refused to shoot in a duel today when his adversary's pistol missed fire.

Cano, former Colombian delegate to the Colombia-Peru peace conference at Rio de Janeiro, was called "a coward" in a newspaper controversy by Juan Lozano, the son of the former Colombian minister at Lima.

The newspaper editor challenged Lozano to a duel. After Lozano had pulled the trigger Cano tossed his pistol down and the two men embraced at the centre of the dueling field.

Canton, China, April 14.—Several hundred casualties were caused and thousands of persons were rendered homeless by a heavy earthquake in five counties of southwest Kwangtung province, April 2, it was learned today from postal advices, the only communications from the affected area.

Nearly half the houses in the region of the shock were destroyed or damaged badly. The earthquake was felt slightly in Canton.

Divorce Increase Disturbs Alberta

Attorney-General Appears Before Court and Asks New Rules Be Made

Canadian Press

Calgary, April 14. — Disturbed by the number of divorce applications before the Alberta courts, Hon. J. W. Hugill, Attorney-General, as the King's Proctor, whose duty it is to safeguard public morality, appeared before the justices of the appellate division of the Supreme Court here today.

The Attorney-General suggested the court lay down some principles or rules with regard to the case of a plaintiff in a divorce action who seeks a decree of divorce knowing he or she has committed adultery as well as the defendant in the action. Such acts of adultery, he suggested, should be brought to the attention of the trial judges.

Under present regulations, a plaintiff in an Alberta divorce action is granted a decree nisi of divorce after proof has been submitted the defendant committed adultery unless the King's Proctor intervenes on representations that there had been collusion.

Hundreds of divorce actions were heard in Alberta courts during the last year. Six or eight cases on the Supreme Court docket in Calgary this week involve divorce applications.

Employment Board Soon to Be Named

As Federal Government Prepares to Make Appointments Rumors Say A. B. Purvis of Montreal Will Be Chairman

Canadian Press

Ottawa, April 14.—Unemployment relief and means of getting the idle back to work will be paramount considerations of the government during the next few weeks, involving plans for the expenditure of some $75,000,000 by the Dominion alone.

Establishment of the National Employment Commission, plans for highways, public works and other forms of activity, farm labor assistance and agricultural rehabilitation and direct relief all enter into the picture.

CABINET MEETS

It is expected a cabinet meeting to be held next Saturday will be devoted mainly to deciding on the personnel of the National Employment Commission.

Considerable work has already been accomplished in this direction, but no intimation has come from official circles as to those who will serve on the commission and its advisory committee. Rumor has been in persistent circulation that Arthur B. Purvis of Montreal will be chairman. He is president and managing director of Canadian Industries Limited, presi-

PASTOR WILL CROSS BORDER

Rev. S. M. Hirtle, Refusing to Be U.S. Citizen, Goes to Edmonton

Associated Press

Hudson, Mass., April 14.—Rev. Spurgeon M. Hirtle, who resigned his pastorate at the Federated Church of this town rather than take an oath of citizenship, which would require him to bear arms, was scheduled to leave here today for Edmonton, Alberta, where he has accepted a call to the Strathcona Baptist Church to begin May 1.

Mr. Hirtle, a native of Nova Scotia but educated in the United States, offered his resignation when he said a minority of his church members suggested he become a United States citizen. He said he found he could not take the oath because it would require a mental reservation on the arms clause. He disavowed any pacifist tendencies, but said he preferred the judge whether of not any war into which he was mustered was justified.

Teachers Set New Convention Record

Annual Meeting of B.C. Federation in Vancouver Has 1,421 Delegates, Which Is 300 More Than Previous Mark

Canadian Press

Vancouver, April 14.—Curriculum revision was discussed in sectional meetings today by delegates attending the largest convention ever held of the British Columbia Teachers' Federation.

With 1,421 delegates already registered from all parts of the province the attendance is 300 greater than previous record, and will probably pass the 1,500 mark.

Formal business sessions started this afternoon.

Speaking before the elementary teachers' department, Major Harold B. King, curriculum adviser to the Department of Education, urged constructive criticism by teachers on tentative curriculum changes being prepared under his supervision. He said the tentative courses would be continuously revised over a period of years.

Belief that interest should be keynote of successful study rather than examination results, was expressed by H. E. Patterson, principal of Alexandra School, Vancouver, and chairman of the elementary social studies revision committee.

Other speakers before the elementary teachers' section were H. H. McKenzie, provincial inspector of schools, who dealt with revision of the reading course, and H. Creelman, principal of the Esquimalt elementary school, who gave the rural school viewpoint of curriculum revision.

KIDNAPPINGS AT POLLING

(Continued from Page 1)

New York, April 14.—Political eyes turned today to Illinois, where primary ballot-marking may either make or break Senator William Borah's bid for the Republican nomination for President of the United States.

The veteran Idaho Progessive faced Colonel Frank Knox, Chicago publisher and "favorite son" candidate. As the campaign drew to a close yesterday evening, after much concerted mud slinging, it appeared the party organization was behind the bustling publisher to a man.

In the words of The New York Herald-Tribune, if Borah should accomplish a one-man victory in the preferential primary in that key state "he would be in a position to dictate, or certainly to veto, the Republican nominee and platform planks" at the national convention in June.

If, however, he should make a sorry showing "it would portend the same fate for him in Ohio and other primaries east of Chicago," said this Republican newspaper. The same odds—the party machine—would apparently be against him throughout these states, forming the industrial belt of the east.

Borah charged a slush fund of $500,000 to $1,000,000 was placed at the disposal of his Illinois enemies.

ROOSEVELT'S SPEECH

Vying with the primary for political interest was the able address President Roosevelt delivered yesterday evening in a Baltimore armory, packed by 25,000 persons.

His plea that industry cut hours and raise wages as a means of decreasing unemployment and aiding the youth of the land seemed certain to strengthen his political hand among young voters at least. It seemed equally certain of increasing the opposition of big business to the New Deal.

Meantime, William Allen White, Kansas sage and newspaper publisher, was urging Governor Alf Landon to repudiate the support of Publisher William Randolph Hearst. White's advice to the Kansas Governor, presently leading the race for the Republican nomination, was based on the belief "that Hearst as an ally of any politician is a form of political suicide. Sooner or later Landon will feel Hearst's gun in his ribs."

Gray Hair

Best Remedy is Made At Home

You can now make at home a better gray hair remedy than you can buy by following this simple recipe: To half pint of water add one ounce bay rum, a small box of Orlex Compound and one-fourth ounce of glycerine. Any druggist can put this up or you can mix it yourself at very little cost. Apply to the hair twice a week until the desired shade is obtained.

Orlex imparts color to streaked, faded or gray hair, making it soft and glossy. It will not color the scalp, is not sticky or greasy and does not rub off.

POISON GAS PROTESTED

Geneva, April 14 (Associated Press).—The Ethiopian government asserted to the League of Nations today that the Italian forces in East Africa has used poison gas in attacks on thirteen Ethiopian cities.

Just as this protest was received, the Italian government informed the League that Premier Mussolini had decided to free all slaves in Ethiopia.

The two communications came to Geneva while Salvador de Madariaga, president of the League Council's committee of Thirteen, discussed the possibility for peace with Belaten Queta Wolde Mariam, Ethiopian delegate to the League.

Baron Pompeo Aloisi, the Italian delegate, will reach Geneva from Rome tomorrow.

Mariam told Chairman de Madariaga and Joseph Avenol, secretary-general of the League, that peace should be within the spirit of the League covenant.

Later, however, League officials said they were pessimistic as to possibilities for peace.

Senor de Madariaga decided to adhere to the original programme of convoking his committee—which includes every member of the Council except Italy—to meet at 4 p.m. Thursday. Such a schedule will yet give him the opportunity of talking to the Italian envoy.

DATES REPORTED

In its poison gas protest, the Ethiopian government listed the names of thirteen towns and the dates on which they were alleged to have been gassed.

CRITICAL PERIOD

Baron Aloisi, leaving Rome today, was expected by League sources to bring a definite statement by Premier Mussolini of the terms on which would make peace. With the end of the Easter holiday and the launching of these negotiations, informed sources said, the Italo-Ethiopian situation entered a critical period.

Senor de Madariaga has only until Thursday to achieve progress in his discussions before reporting back to the conciliation committee.

In the brief interval that will remain between the arrival of Baron Aloisi and the committee meeting Thursday, no one expects anything approaching satisfactory peace terms can be reached.

League officials said the sanctions Committee of Eighteen was ready to meet Friday if the Fascist terms should prove impossible of acceptance.

SANCTIONS DISCUSSION

Associated Press

London, April 14. — A League of Nations sanctions committee session, to consider stronger measures against Italy, was considered inevitable by authoritative sources today as the British Cabinet assembled to review the Italo-Ethiopian situation.

Despite the opening of peace negotiations at Geneva, authoritative British sources conceded readily a belief that Premier Mussolini would pay little heed to conciliation proposals while his armies were confident they would complete their conquest soon.

A decision, therefore, to impose more severe penalties on the adjudged Fascist aggressors could no longer be delayed, British sources indicated, if the integrity of Ethiopia, the principle of collective security and the prestige of the League of Nations were to be maintained.

Associated Press

Rome, April 14.—Fascist Italy tightened its military grip on Ethiopia today while preparing to enter conciliation negotiations under the auspices of the League of Nations.

Baron Pompeo Aloisi arranged to leave tonight for Geneva, informed sources said, probably to act as Premier Mussolini's envoy in peace talks initiated by the League Council's conciliation committee.

Amid the peace talk, Italian press

field headquarters of Emperor Haile Selassie, already reached by an advance guard of the army of Marshal Pietro Badoglio.

The occupation of Gallabat, customs point between northwestern Ethiopia and the Anglo-Egyptian Sudan, announced by Marshal Badoglio yesterday, was considered by the Italians as a major blow to Emperor Haile Selassie.

Ethiopia, Italian sources said, had been receiving supplies of arms and provisions from the Sudan through that point.

AT LAKE TANA

The raising of the Italian flag over the peninsula of Gorgora, in northern Lake Tana, also signified Italian control of that strategic body of water, fed by sixty odd rivers and pouring through a single outlet into the Blue Nile, source of Egypt's water supply.

BRITISH PRESS VIEWS

London, April 14 (Canadian Press from Havas).—Newspapers here today gave considerable space in their columns to stories on Italy's occupation of the Lake Tana area in Ethiopia.

Commenting on the war, The Daily Telegraph said it was now too late to talk of oil sanctions, contending the only possible means of accomplishing anything now were military sanctions. But, it added, if oil sanctions would disrupt the sanctionist front at Geneva, how much more so would any mention of military sanctions?

WORK ON RAILWAYS

Labor Minister Rogers, who hopes to have the camps for transient unemployed closed by midsummer, will endeavor to initiate at once a general movement to government-aided work on railways, highways and farms involving about 10,000 men.

The Labor Minister announced plans for this programme some months ago and the movement from the relief camps to gainful employment is expected to take on momentum as soon as the season advances sufficiently to permit a start on proposed works.

The Commons is scheduled to reassemble April 20, and the Senate on April 28.

Canadian Press

Ottawa, April 14.—The majority of the Cabinet ministers will extend their Easter holidays until the last of the week and unless something urgent arises Prime Minister King will not call a meeting of the government until Saturday next, it was learned today.

Opening of the royal commission inquiry into penitentiaries will probably be held up until the return from France of Justice Minister Ernest Lapointe. Judicial vacancies awaiting attention will be dealt with after his return.

Dean Quainton read the first part of the service, which was followed by the hymn "O God Our Help in Ages Past."

Bishop Schofield offered the prayers and the service ended with the singing of the Easter hymn, "Alleluia."

Many prominent citizens attended the service. Hon. John Hart, Minister of Finance, represented the B.C. Government. Brigadier D. J. McDonald attended from Work Point Barracks with Col. C. B. Russell, C.M.G. Mayor Leeming and several of the city aldermen were present.

Among the others attending were: Dr. S. F. Tolmie, W. Tolmie, F. B. Pemberton, J. Wise, A. D. King, S. J. Halls, J. W. Spencer, H. T. Matson, J. L. Tait, R. P. Taylor, G. H. Stevens, G. H. Topp, J. unable to raise the money necessary to engage a lawyer to argue for him, so will be brought over under a special police guard from Oakalla to attempt his own argument before the justices.

Sitting with Chief Justice Macdonald today were Mr. Justice Martin, who has been presiding as acting chief justice during the chief's absence, Mr. Justice M. A. Macdonald and Mr. Justice McQuarrie. The fifth member of the court, Mr. Justice McPhillips, who has been also absent from the bench through illness, did not sit today. It was intimated, however, he expected to return Monday for the hearing of the appeal of the Indians.

THREE JUDGMENTS DELIVERED

After the court assembled, the Chief Justice called upon Mr. Justice Martin to announce the judgments the court had completed. These were only three in number. They were:

Bank of Montreal vs. Morrow, appeal allowed and action dismissed.

Warren vs. Grinnell Co. of Canada, appeal allowed and new trial, with Mr. Justice McQuarrie dissenting.

Johnston et al vs. Lineker, appeal dismissed.

Concerning the lengthy Clayton estate case, Mr. Justice Martin announced the justices had not been able yet to complete their judgment. He said they would deliver it at the opening of the next sitting of the court in Vancouver. In this case the heirs of the Bella Coola pioneer have been suing the Victoria executors of the $200,000 estate for an accounting.

Mr. Justice Martin said judgment in the appeal in the case of Gibson vs. B. C. Telegraphs would be handed down here on Friday. This appeal of Robertson et al vs. Batchelor will also be delivered later.

Mr. Justice Martin said that in the case of the Attorney-General vs. Royal Bank, the justices desired to hear further argument, especially in view of the decision in the Russian Bank case by the House of Lords last month.

The justice said this decision shed light on bona vacantia at issue in the local case, which has to do with a disbanded Victoria theatre syndicate which some years ago left a sum of money forgotten in a local bank. The bank account had been taken over by the provincial authorities after the company had allowed its charter to lapse.

FIRST APPEAL OPENED

The first appeal was that brought by R. L. Maitland, K.C., counsel for Angus Bersea and Beatty Bros. (defendants-appellants), against whom Chief Justice Morrison of the Supreme Court had awarded $4,000 general damages and $821 special damages in favor of Salvatore Peele.

Peele suffered a "low-back" injury, which, it was claimed, had affected his spine. He had been sitting in an automobile at Kingsway and Miller Street, Vancouver, when the defendants' car struck him and caused the damages.

It was argued that the defendants had neglected to obey the stop sign, halting traffic flowing from Miller Street into Kingsway.

Representing Mr. Peele here and arguing for the sustaining of the Supreme Court judgment is Lorne H. Jackson.

W. E. Burns, K.C., is also in the case, as counsel for the Zachs Cleaners & Dyers Ltd., named as third parties and respondents.

The argument is continuing.

Jafsie's Camp Lake Searched

(Continued from Page 1)

Keyes declined to say for what he was searching.

Dr. Condon spent several days at a camp owned by W. C. Goodwin of New York City during the last week in May, 1932.

The diver's search, observers noted, covered the area from the Goodwin camp to a camp owned by Selectman Arthur J. Thompson.

STRANGE THEORY

Associated Press

Trenton, N.J., April 14.—A witness with a new and strange theory of the Lindbergh baby kidnap-murder came before the Mercer County grand jury today as it proceeded slowly with its reopened investigation of Paul H. Wendel's repudiated confession he committed the crime.

The grand jury's course and purpose left Wendel's attorney, John H. Kafes, "at sea."

"I think the whole murder charge is a —— joke," Kafes said. Referring to the formal charge made against Wendel, "I'm not taking it seriously. It was my understanding the grand jury had already investigated this case thoroughly. I don't know what they are going into now."

Almost as he spoke, Sergeant Borden, Newark machinery dealer, emerged from the jury room to expound a theory that the kidnapping was the scheme of a group of munition manufacturers to precipitate war between the United States and Japan. He said the murder of Mrs. Charles A. Lindbergh was part of the plan.

MAGISTRATE IN MADRID SLAIN

Madrid, April 14. — Magistrate Manuel Pedregal Leje, who presided over a tribunal which last week sentenced to imprisonment three Fascists who attempted to assassinate Prof. Luiz Jiminez Asua, was shot and killed yesterday evening by youths who fired on him as he was entering his home.

Wiesbaden, Germany, April 14.—The criminal court in a theft case ruled that just because a woman tried on one hat after another for nine hours, she was not necessarily insane.

END STRIKE AT OAKALLA

Disturbance Which Started Over Beef Diet Quelled; Leaders Disciplined

Canadian Press

Vancouver, April 14.—All was quiet at the Oakalla Prison Farm today and the prisoners were back at work after authorities had quelled a hunger strike by disciplining a number of the leaders.

About thirty-five men began the disturbance Good Friday when they refused to eat a roast beef dinner with vegetables. Other men took up the strike and began shouting "too much beef."

Later they refused to eat another meal when they were given meat pie. No violence occurred.

PLAGIARIST LOSES PRIZE

L. Lewis Admits He Copied Article, So He Does Not Get Cantor's $5,000

Associated Press

New York, April 14.—Eighteen-year-old Lloyd Lewis of Plattsburg, Mo., has seen his dream of a college education swept away because he did not understand the meaning of plagiarism.

Lloyd, announced as the winner of a $5,000 prize essay contest sponsored by Eddie Cantor, the comedian, seemed nothing but bewildered as he sat in a Manhattan skyscraper office yesterday evening and Cantor's agent told him he was disqualified to the prize because he had plagiarized, word for word, part of an article written several months ago by Dr. Frank Kingdon, president of Newark University, for a magazine.

Cantor's contest was for a peace essay, and Dr. Kingdon's article had been on the same subject.

ADMITTED COPYING

Wide-eyed, the farm youth turned to the questioners.

"What is plagiarism?" he asked. "I don't know what it means."

Informed, he readily admitted copying Dr. Kingdon's article and submitting it as his own in the contest which he entered as a junior in the Plattsburg high school.

"Sure, I copied the article," he told his astounded audience. "I don't see anything wrong in that."

UNITED ARABIA PLAN RUMORED

French Paper Declares Britain Is Planning Union As Bar to Italy

Associated Press

Paris, April 14.—A proposal for a "United States of Arabia," Nationalist sources said today, is being promoted by Britain.

The dream of an Arabian empire, composed of most of the kingdoms, mandated territories and protectorates forming the Arabian Peninsula, was believed by many Nationalists to be moving rapidly toward fulfillment.

The Paris newspaper Le Journal, asking what was behind the movement for Arab unity, said:

"The idea comes naturally that England, after taking advantage of division of Arabs in the past, deems it opportune to unite them at a time when Italy has shown itself stronger than London believed.

"It is certain that if the Italians complete their triumph in Ethiopia, their activity in the Red Sea will expand."

The proposed United States of Arabia would have a population of almost 10,000,000, and an area of more than 1,000,000 square miles, about half of it desert, on the peninsula across the Red Sea from East Africa, scene of Italy's campaign of conquest.

Joyce Shaw Is Nanaimo Queen

Former Victoria Girl to Preside Over May 24 Celebrations

Nanaimo, April 14.—Joyce Shaw, thirteen-year-old daughter of Mrs. Herbert C. Shaw, of this city, and the late Herbert C. Shaw of Victoria, was elected by popularity vote in the public schools here as May Queen to preside over the Empire Day celebrations here on May 24.

Her maids-of-honor will be elected from Harewood and Brechin Schools. The queen-elect is granddaughter of John Shaw, veteran school trustee of Nanaimo and well-known educationist in British Columbia. Joyce formerly attended the Girls' Central School in Victoria.

SOVIET DENIES TOKIO CHARGE

Moscow Terms Rumor of Plot to Break Off Part of Manchukuo "Ridiculous"

Associated Press

Moscow, April 14.—An alleged Japanese charge the Soviet Union is involved in a plot to separate Hsingan Province from Manchukuo and join it to Outer Mongolia was termed "a ridiculous fancy" by an official source today.

Hsingan Province constitutes about one-quarter of Manchukuo and skirts Outer Mongolia from the Soviet border to the south beyond the Lake Bur region, where clashes have been occurring between Mongolian and Manchukuan forces.

NUMBER IN CUSTODY

The discovery of the alleged plot led to the arrest in Manchukuo of numerous persons, including Ling Sheng, governor of north Hsingan; Fu Lin, commander of the Hsingan army; Gun Dai, chief of the Hsingan police, and Hu Lin Tai, secretary to the provincial governor.

(First reports of the arrests, coming from Tokio yesterday, said the alleged co-plotters with Ling Sheng were all Mongolians.)

According to Russian sources, the Japanese army staff in Manchukuo announced the plotters' intention was to create a greater Outer Mongolia "under the control and support of the Soviet Union."

HUNTERS GIVEN AID BY POLICE

Canadian Press

Nanaimo, April 14.—W. Switzer and Arthur Plantz of White Rock, B.C., were given food and shelter by police here today after they had lost their provisions when their boat capsized in Cowichan River.

The two men told police they were starting on a cougar hunt, but had to turn back when they lost everything but their blankets and rifle in the river. They received food from the police at Duncan before continuing on to Nanaimo.

HENRI CHERON DIES IN FRANCE

Lesieux, France, April 14.—Henri Cheron, sixty-nine former Finance Minister of France, died today of peritonitis following an operation for appendicitis.

MOTHER HEARD AT SON'S TRIAL

Canadian Press

Vancouver, April 14.—The widowed mother of twenty-six-year-old James Lawler, today took the witness stand before an assize court jury to defend her son from charges that he took part in the $3,000 armed robbery of a Royal Bank branch here last December.

Mrs. Laura Lawler accused Mrs. Helen Booth, crown witness, of having told her she would "get even with Jimmy" after he married Sally McCarthy.

The mother said Mrs. Booth told her in January that she was with child and that she was writing to "Jimmy," then in Chicago, to send for her. "She didn't want Jimmy to have Sally," Mrs. Lawler testified.

Mrs. Lawler said she had told Mrs. Booth to stay with her husband and leave "Jimmy" alone.

Recalled to the witness stand, Mrs. Booth admitted she had written to Lawler on her wedding day—signing the letter "Your Loving Sis, Helen—" but had never said she was pregnant.

HUNT SLAYER OF WOMAN

New York Police Follow Clues in Mrs. Nancy Titterton Case

New York, April 14.—Detectives investigating the bathtub slaying of Mrs. Nancy Evans Titterton shrouded with secrecy their interest today in a man held on a charge of illegally possessing a pistol.

He was booked as Herman W. Horstmann, twenty-six, an artist and real estate operator. Detectives said he had been questioned "in a routine manner," but claimed they had found nothing to implicate him in the Titterton case.

Mrs. Titterton, author of magazine stories and the wife of a national Broadcasting Company executive, was assaulted and strangled last Friday in the Titterton's fashionable Beekman Place apartment.

MUD EXAMINED

Under powerful miscroscopes, police chemists compared three lumps of mud found on the bed with mud from the shoes of an unnamed man employed in the apartment building.

The New York American, in a copyrighted story, said laboratory investigation by police had disclosed three strands of sandy-colored hair on the counterpane of a bed.

Their presence on the counterpane, The American said, had caused authorities to redouble their efforts in the search for a tall, sandy-haired man whose actions in the Beekman Place neighborhood had aroused suspicions.

Wise, N.C., April 14.—Five young people were fatally burned and a sixth critically injured when their automobile collided with a fruit truck north of here early today.

Four of the five died in the flames which enveloped the automobile and truck after they had crashed on a curve. The fifth victim died of burns at a hospital.

The sixth occupant of the car, a young woman, was pulled from the front seat of the blazing car by the driver of the truck and taken to a hospital. Attendants there said there was "no hope" for her recovery. She is the mother of two small children.

BRITISH REDUCE MOTOR DEATHS

1,000 Lives a Year Saved As Result of New Traffic Regulations

London, April 14.—Thanks to the speed limit and the pedestrian crossings, the government are already saving at least 1,000 lives a year in Britain.

This was demonstrated by an analysis made at the Ministry of Transport of the accident figures which have now been issued weekly for exactly two years.

The analysis shows that road users are undoubtedly crossing the roads more carefully; looking "both ways" before crossing, and driving motor cars with greater caution in "built up" areas.

But it also shows that in country places where there is no thirty miles an hour limit motorists are apt to drive more carelessly than before!

Broadly, the analysis shows that in London and twenty-one representative cities and towns, 656 fewer people were killed in 1935-36 than in 1934-35.

It is estimated that several hundred other lives have been "saved" like this in the smaller places.

In London and the twenty-one centres, 2,505 people were killed in the first year and 1,849 in 1935-36. There has been a correspondingly gratifying decrease in the injured.

But some curious paradoxes are revealed in the ministry's figures.

Only three of the twenty-one centres show an increase in fatal accidents in the last year—but one of those is Plymouth, which is really the constituency (Devonport) of Mr. Hore-Belisha, the Minister of Transport, and author of the "safety-first" measures.

Mr. Hore-Belisha is faced with the ironical fact that in Plymouth deaths in the last year were nearly 100 per cent more than the previous year. In the first year Plymouth recorded seven deaths, but in the last year the number was thirteen. There was a decrease in the injured, however, from 619 to 425.

TOWNS BEST

The decrease in accidents has been twice as great in the towns as in the country districts.

Which centres have made the best "safety" first" progress? There are a number of remarkable improvements, but London and Birmingham are perhaps outstanding on account of their immense size.

London's deaths fell from 1,554 to 1,066—an approximate saving of one life in every three. The injuries were reduced from 60,086 to 55,460.

Birmingham, where the population exceeds a million, has reduced its killed and injured by nearly 20 per cent in the year. In 1934-35 the number killed was 149, with 6,612 injured, but in the last year 135 died and 5,371 were injured.

This is considered a great tribute to the pedestrian crossing places.

"There are just under a thousand pedestrian crossing places in Birmingham—that is the largest number in any provincial city," said a Ministry of Transport official.

Here is another paradox. In Northampton there has been a big decrease in deaths—from twenty to seven—but in the county of Northamptonshire deaths increased from forty to forty-seven.

This problem of a county town decreasing but the county as a whole increasing occurs several times. Why?

"It is very significant," said the ministry official, "that the reduction in fatal accidents is twice as great in the towns and cities where the speed limit is in operation, as in the county areas where the limit does not generally opply.

"The reductions in accidents are also largely due to the pedestrian crossings which, of course, are also mainly in the towns."

New York City has 619 miles of subways, of which 3[illegible] miles are actually underground.

French Forecast Leftist Victory

Campaign For Elections in Two Weeks' Time Not Yet Fully Under Way; Rhineland Crisis Is Factor

Canadian Press Havas

Paris, April 14.—With the general election two days less than two weeks off, the French political campaign still has not yet reached its stride. Forecasts continue, however, to predict a substantial if not overwhelming victory for the left.

Communists, Socialists, Radical Socialists, Republicans, Conservatives and Independents, not to mention the Royalists, were beginning to show signs today of the intensive struggle yet to come.

The Communists this year are supporting the army and repudiating pacifist theories. The Socialists are the ones now demanding nationalization of banks and heavy industries, and a closer friendship with Germany.

Leon Blum, the Socialist leader, has demanded that France shall not reject Chancellor Hitler's proposals for settlement of the Rhineland crisis. On the other hand, the Communists appear to be lining up with the Radical Socialist leader, Edouard Herriot, and the present government of Premier Albert Sarraut, in opposition to Germany.

Such a position already has shaken the Popular Front, embracing the Socialists and Communists. With the political broadsides just beginning, it is hard to say whether the real struggle will be waged between the National and Popular Fronts, or whether the issues will be decided within those political groups.

DOUBLE BALLOT

The question of technique is a factor dominating the elections, in which the voting will be conducted in two separate appeals to the electorate on two successive Sundays. The first balloting on April 26 will, in many quarters, constitute merely an elimination vote.

Informed observers here say that on the second Sunday the strongest of the leftist candidates will stand against the best of the right. In many electoral districts there will be from ten to fifteen—even as high as twenty—candidates running for the same office in the first ballot.

RIVER LOW AND LOGGERS DELAYED

Canadian Press

Harrison Mills, B.C., April 14.—Unusually low water in the Harrison River has prevented several logging companies from resuming operations this season.

From 300 to 400 men are affected and more than 100 log booms are stranded along the Harrison River. A rise of water sufficient to float them to the mills at Vancouver and other points is not expected until about the middle of May.

Weaver Lake, which is generally free from ice at the end of February, is still frozen over, while Morris Lake is crowded with logs but is so shallow that the logs are grounded. Many tugboats in the river are tied up.

CALLES AIDE IS HELD IN MEXICO

Associated Press

Mexico City, April 14.—Gen. Jose Maria Tapia, former ally of former President Plutarco Elias Calles, sent into exile last Friday, was arrested by secret police yesterday, and other followers of the one-time "strong man" were reported to have gone into hiding to escape capture.

China Students' Union Disbanded

Hankow, China, April 14.—The National government yesterday ordered disbandment of the Hupeh Provincial Students' Union.

The union is one of the largest of such groups in China, composed of students in the cities of Hankow, Wuchang and Hanyang.

The government issued proclamations saying student demonstrations, most of them directed against Japan, would not be tolerated.

REFUNDING TO BRING SAVINGS

Provincial Treasurer Says Alberta Will Proceed With Bond Plan

Canadian Press

Calgary, April 14.—Proposed refunding of Alberta's debt will go forward at once, according to a statement by Hon. Charles Cockroft, Provincial Treatsurer. In an interview here yesterday he stressed the importance to the province of the plan to issue $80,000,000 in perpetual securities, that amount representing half the province's debt.

As interest dates on Alberta's various bond issues fall due, Mr. Cockroft declared, the suggestion will be made that the perpetual bonds be accepted in exchange at an interest rate of 3 per cent. This perpetual issue will not be redeemable in less than thirty-five years.

By having $80,000,000 of the province's debt in the perpetual issue, the Provincial Secretary added, Alberta will avoid the recurring charges made necessary by ten or fifteen-year issues, which when they expire make necessary further operations on the part of the companies handling them and consequent expense to the province.

SAVINGS ESTIMATED

Mr. Cockroft said that in addition to the reduced interest rate which will be effective, the province in forty years will save $4,000,000 in administration charges on the $80,000,000 issue when compared with the expenses which would be incurred through handling ten-year issues.

The Provincial Treasurer estimated the annual saving to be realized by obtaining the 3 per cent interest rate would be $2,500,000 on the province's total debt of $160,000,000.

Russians Train Many Air Pilots

Youth League Told 8,000 Fliers Must Be Added to Strength in 1936

Associated Press

Moscow, April 14.—A. V. Kosaroff, secretary-general of the Communist Youth League, told the organization's congress yesterday it must train 8,000 new air pilots in 1936.

He declared the League already had more than 1,000,000 members who were experienced rifle shots.

Kosareff asserted a secret anti-Soviet military agreement existed between Germany and Japan, adding Poland was in "very close relation" to this agreement.

The youth leader accused the Japanese of provoking clashes on the Soviet frontiers over a period of three years and said: "If the imperialists were not obliged to consider our growing strength they would long ago have attacked us.

"In case they do attack, victory will be decided by our planes and tanks, plus the interference of Japanese, German and Polish workers."

CHINESE GET READY TO FIGHT

Associated Press

Denver, April 14.—Chow Sou-yu, Canton editor and executive director of the Kwangtung Province union of editors in China, predicted today that within a year "China will resist Japanese incursion with force."

"The Chinese are a peace-loving people, like the Americans, but they will fight Japan within a year," he said.

"They were unprepared to fight when Japan moved into Manchuria in 1932, but now, with T. V. Soong, former Finance Minister, building highways and railroads, we are in a stronger position."

Execution Method To Be Studied

Canadian Press

Toronto, April 14. — While official nature of their business could not be determined, it was learned today that Charles P. Plaxton, K.C., senior counsel of Department of Justice, Ottawa, and his brother, Hugh Plaxton, M.P. for Trinity-Toronto, are on their way to Nevada, where they will study the lethal gas method of execution.

The brothers will continue their trip to San Francisco and will return by way of Vancouver.

Abolition of hanging as the method of capital punishment was proposed in the House of Commons by Dr. J. K. Blair, Liberal, Wellington North, Ont., who suggested substituting the Nevada gas chamber method.

Payments Soon to Prairie Farmers

Canadian Press

Moose Jaw, April 14.—Hon. J. G. Gardiner, federal Minister of Agriculture, told a farmers' rally here yesterday evening that wheat pool farmers of the prairies shortly would receive cheques totaling $6,509,000 as an equalization payment on wheat and coarse grains pooled in 1930.

Cheques were made out and were ready for delivery, Mr. Gardiner said.

Tomb Gives Light On China's History

Canadian Press

Shanghai, April 14. — Obscure points in China's history are expected to be cleared up as a result of the finding of a huge, unknown tomb near Hsuchow, in the northern section of the province.

The tomb dates from about the year 900 A.D., and is made up of so many big vaulted underground chambers that it is described as "big enough!" for a house for the living rather than one for the dead."

NO WORD FROM BEYOND GRAVE

Mrs. Houdini, Commenting on H. Thurston's Death Reports No Spirit Messages

Associated Press

Hollywood, Calif., April 14.—Mrs. Harry Houdini, widow of the famous magician, received news of the death of Howard Thurston yesterday with sadness.

"He has joined Houdini now," she said. "No doubt they are up there telling each other a lot of tricks."

Thurston was one of the men with whom Houdini had an agreement to attempt communication after the death. Others were Sir Arthur Conan Doyle, the late British spiritualist and writer, and Charles Carter, who died recently in Bombay, India.

Only Mrs. Houdini knows the secret code specified in the agreements.

"There has as yet been no authentic communication with me from beyond the grave," she said, "but I am still hoping."

THREE DEATHS INVESTIGATED

Man Held at Montreal for Questioning on Namur, Que., Fire

Canadian Press

Montreal, April 14.—Omer Girard, self-described as an itinerant lumber camp worker, is being detained here by provincial police for questioning regarding the deaths of two aged men and the disappearance of a woman at Namur, Que.

Girard, sought by police since discovery of the tragedy last Tuesday, was taken into custody yesterday evening, it was revealed today. He was discovered in the eastern section of the city, where officers had been waiting for him.

All highways and bridges leading to the Island of Montreal had been guarded since neighbors discovered the charred remains of "Papa" Leon Leclair, eighty-four-year-old eccentric, and his friend Alfred Dudevoir, seventy-two, in the burned ruins of the former's strangely-built cottage. Searchers are still combing the debris for trace of Dudevoir's wife, believed to have perished with the two men.

GRAVEDIGGERS HAVE SURPRISE

Man Thought Dead Found Sitting in Grave Dug for Another

Canadian Press

Edmonton, April 14.—Volunteer gravediggers preparing for the burial of the late W. W. Brown here had a hair-raising experience.

They heard that John Hibbeln, another old-timer of the district, had died that day, but when the gravediggers went to lunch, Hibbeln, who, contrary to reports, was in the best of health, arrived during their absence, to assist with the digging.

Returning to their task, the men were astounded to find "Old John" sitting calmly in the grave smoking his pipe as he rested for a spell.

The gravediggers recovered their composure when they heard "Old John's" voice, but it is said they are still a little jittery.

H. B. COLLINS IS AWARDED PRIZE

Associated Press

Washington, April 14.—Archaeological research which established the origins of culture of the Eskimos earned for Henry B. Collins Sr. of the Smithsonian Institution yesterday the gold medal and 1,000 kroner prize of the Royal Danish Academy of Sciences and Letters.

Mr. Collins's work lent added weight to the belief now generally accepted that the Eskimos of North America came originally from Asia over a land or ice bridge across Bering Strait, the Smithsonian Institution declared.

Big Crowds in Dublin Fight

Communist Meeting Broken Up by Shouting Throng

Associated Press

Dublin, April 14.—A shouting crowd broke up a Communist meeting in downtown Dublin yesterday evening and then stormed Communist headquarters, smashing windows and furniture.

Another clash occurred in the middle of Abbey Street before police dispersed the crowd.

H. S. McKELLAR DIES

Toronto, April 14 (Canadian Press) —Educational circles today mourned the death of H. S. McKellar, sixty-three, associate professor of French at the University of Toronto and a member of the teaching staff at University College for nearly twenty years. He passed away yesterday.

FIVE KILLED IN CRASH

Moscow, April 14 (Associated Press) —Five members of the crew were killed and several injured yesterday when a freight train was derailed while speeding around a curve on the middle Asia railroad near Tashkent. The engineer was arrested on a charge of drunkenness.

FORCE OF BAD EXAMPLE

TURKEY'S REQUEST TO THE OTHER signatories of the Treaty of Lausanne for a revision of the terms by which she was prohibited from fortifying the Dardanelles, accompanied by the polite intimation that if circumstances called for it she would proceed with this work in any case, is quite in line with the Great War treaty-busting which has been going on for years. It is, in fact, the immediate sequel to the German march into the Rhineland, and the ultimate sequel to similar treaty violations which began farther back, and to which all of the covenanting powers in more or less degree were parties.

In one interesting respect, however, Turkey is different from most of the other nations which solemnly engaged themselves to observe the terms of the various treaties. Instead of fortifying the Dardanelles secretly and then openly repudiating her pledge not to do so, she has formally notified the other parties to the agreement of her desire, and has asked for their consent.

More than that, Turkey has at least as good a case as the best of them have presented, and better than that of most of them. If the other signatories deem it necessary to scatter their various engagements to the four winds of heaven, set up systems of secret military alliances behind the back of the League of Nations which was created expressly to prevent such combinations, arm and fortify their frontiers to an unprecedented extent, loot the territories of weaker countries, why should she not protect herself by fortifying the Dardanelles?

The Treaty of Lausanne was agreed to in 1923 and became operative in the following year. With the conventions attached to it, it provided for the demilitarization of zones adjoining the European frontier, the Dardanelles and the Bosphorous, subject to the right to maintain a garrison at Constantinople. It also demilitarized certain islands in the Mediterranean and, with one exception, in the Sea of Marmora. There is no reason to suspect that Turkey has not loyally observed all of her undertakings.

The course of treaty breaking during the last fifteen years presents an instructive illustration of the force of bad example among nations, and the wholesale retribution which has followed it. Either secretly or openly, directly or by implication, virtually all of the European signatories of the numerous documents which were tooted as laying the foundation for perpetual peace, following a war fought "to end war" and "to make the world safe for democracy", were involved in the game.

Germany armed, at first secretly and afterwards openly, and every other power knew it. France formed special alliances. Japan smashed a whole handful of covenants in the Far East, incidentally violating her obligations to the League of Nations. Italy went to war with Ethiopia without regard to the Geneva covenant or her treaty of arbitration with the East African state. Even little Lithuania and some of the Balkan nations got into the fashion, while Great Britain entered into a naval agreement with Germany which expressly violated the Treaty of Versailles. And the whole concert was committed to a policy of disarmament and ignored that undertaking. It was to prevent all this that the League of Nations was formed. There was to be no need of back-door military alliances, because the League was to hold the consciences of its members and, as the medium of collective security, discipline those who broke their engagements.

A fine opportunity for an effective application of collective security was lost when the League was hamstrung in regard to Japan's aggression against China, and the way opened for a war in the Far East. The refusal of the dominant powers of the Geneva organization at that time to enforce the terms of the covenant, for underground reasons, gave Italy her cue. If Japan could loot Manchuria from China and get away with it, why should Italy not do the same thing in Ethiopia? France was agreeable and specifically gave Mussolini her blessing. For a time Great Britain expressed no greater objection to the Italian venture in Africa than she did to Japan's excursion into Manchuria. With such conspicuous examples Germany was bound to go the limit, and her march into the Rhineland is merely the first stage in her programme of treaty violation and war provocation and France is now filling the air with imprecations!

If the great powers had given more than lip service to the idea of collective security in the first place, if they had shown that they were really interested in setting up the reign of international law and order by the imposition of drastic sanctions against the initial aggressors, they would not now be in the mess in which they find themselves—with another great war and a consequent revolution which may sweep the whole of Europe and perhaps a part of Asia as an imminent probability.

VITALITY AND VITAMINS

THE LITTLE GIRL IN NEWFOUNDland who, after subsisting on a diet of snow in the wilderness for twelve days is now quickly recovering from her ordeal, is something of a puzzle to physicians who are wondering how she managed to survive without the requisite supply of vitamins.

One explanation is that she carried within herself a large enough arsenal of these vital ingredients to meet all of the battalions of hunger, fear, exposure and other privations. Perhaps there is an undiscovered vitamin in snow itself. The Rockefeller Foundation might look into this.

Human vitality, however, is something which is not expressed in terms of vitamins or other chemical accessories. It is one of the intangibles of life, and accounts for many miracles which baffle the scientific mind. It is found in the most unexpected places, in persons who, according to most physical indications, are comparatively weak and should succumb to a relatively slight shock. We doubt if Joe Louis, who must be plumb full of vitamins, could undergo the experience of the little Newfoundland girl and recover so promptly. There are more things in heaven and earth than are dreamed of in the materia medica.

EGGS AND EGGS

THE SUBJECT OF EGGS DURING THE last few days has been an absorbing one with the little ones; but these eggs have been of the colored sweetstuff variety and we have no estimate of how many of them have been consumed. Yesterday, however, came a dispatch from Ottawa dealing with the common or garden variety—the product of one of our feathered friends, and it told us that the per capita consumption of eggs in Canada is nearly 400 a year, or more than one a day per person. The Dominion Bureau of Statistics put the total consumption for 1935 at 222,266,100 dozen, and that the total for the year produced was 223,250,000 dozen.

It is asked how it is that Canadians eat so many eggs. Part of the answer surely is to be found in the fact that there are more than 25,000,000 laying hens on the farms from coast to coast, and, as the dispatch mentions, even when the depression started mischief back in 1929, the queen of the farmyard not only kept on the job, but raised her average production of eggs from 95 in that year to 112 in 1933, and kept on aiming at a higher score. Another reason is that Canada is the only country in the world with a system of grading controlled and supervised by a government department of agriculture from producer to consumer.

Under the Dominion system only good eggs are allowed to present themselves to the consumer as fit companions for the bacon or ham or in the thousand and one ways in which eggs are used in cooking. All of us, of course, have heard many stories about the age of eggs we have encountered from time to time, and there always will be those who will doubt; but government experts insist that it is now almost impossible for the consumer to be served with a really bad egg. So if you get one now and then that seems "a bit off" do not blame the government officials; put it down to having been "mislaid" in the store.

A MARATHON THEATRICAL SHOW

THE SUDDEN DEATH IN ENGLAND recently of Oscar Asche, the distinguished British actor, well remembered in eastern Canada and in the United States, calls to mind the origin of that war-time production, "Chu Chin Chow," a play which made theatrical history.

In company with his talented wife, whose stage name is Lily Brayton and who appeared in many parts with her husband, Mr. Asche was fulfilling a week's engagement in Manchester in 1915 when it rained incessantly all the time. Even the golf courses, so the story goes, were too sodden to furnish recreation. So Mr. Asche between his work at the theatre began to while away his time by writing a new pantomime version of Ali Baba and the Forty Thieves.

At His Majesty's Theatre in London—where Sir Herbert Beerbohm Tree produced many dramatic classics—Mr. Asche's "show" was accepted on the one condition that both he and his wife would consent to appear in it. "I am an actor and I do not play in pantomime," said Asche by way of a virtual ultimatum. "There is always a chance to rise," was the retort; he relented, and thus was "Chu Chin Chow" launched at the beautiful theatre in the Haymarket on August 31, 1916.

"Chu Chin Chow" ran nightly, and with four matinees a week, until July 22, 1921—five years all but a few weeks. Never has there been anything like it in the history of the theatre. The man who started this marathon "run" twenty years ago has taken his last "curtain."

Whenever some Occidental commentator says anything about the deplorable conditions of China, the mind of the average reader turns irresistibly to Europe, the home of Occidental civilization, where everything is so serene that we wonder why backward peoples elsewhere do not take proper light and leading from it.

ALWAYS ON THE JOB
London Free Press

Anyone who is familiar with the precincts of Parliament at Ottawa could point out a dozen or more professional lobbyists in the corridors on almost any day that the House is sitting. They are lobbyists by profession, some of them, prepared to work for either side of a question for which they may be paid.

NOT QUITE SO EASY
The Hamilton Spectator

Canadians who served overseas during the Great War will find it difficult to accept as fact the statement of Major Gerald French, son of the late Lord French, that when the latter handed command of the British army in France over to Earl Haig the new commander-in-chief inherited a comfortable legacy with victory only a matter of time.

NOT SHORT AND SIMPLE
The Edmonton Journal

Scientific writers sometimes have a good argument for the use of jaw-breakers; such words often have only one meaning and the scientist wishes to express that precise meaning. But many of them seem to love their many-syllabled words. Perhaps they even talk that way. If so, at least we may be thnkful we do not hear them.

PROFESSOR LEACOCK'S FUTURE
Canada's Weekly (London)

There has been much speculation in Canada during the past few weeks as to the future of Professor Stephen Leacock. As our readers are aware, the genial humorist is retiring from his post as Professor of Political Economy at McGill University, an inexorable regulation compelling retirement at the age of sixty-five.

The professor, of course, is anything but feeble, either physically or intellectually, and his numerous admirers deplore that his active association with McGill is thus about to be severed. Meantime, it is rumored that other institutions, including universities in the United States, are eager to secure his services. He did say at a recent McGill gathering—whether seriously or humorously, no one seemed to know—that he did not intend to speak in public again, and that if he were placed on the shelf he would remain on the shelf.

WARNING!

The Times urges its correspondents to restrict their contributions to 600 words.

Henceforth it positively will not print communications which exceed that length.

These letters must be plainly written on one side of the paper only, and must be accompanied by the name and addresses of the writers, not necessarily for publication but as a guarantee of good faith.

Letters will not be re-written for publication. If they are not legible no attempt will be made to read them.

Letters not used will not be returned to the writers.

Letters containing offensive personal reflections will not be printed.

These rules, which henceforth will be carried out absolutely, are designed as much for the protection of our patient readers as for that of The Times.

CAUTION!

The Times will not assume responsibility for the return to the writers of articles sent for publication in the Correspondence Column or anywhere else in this newspaper, whether they are published or not, unless they have been specially solicited.

CANADA'S DEFENCE

To the Editor:—I would like to reply to a letter, answering mine of April 2, signed "Young Canadian."

I am very glad to know that he thinks we should at least do something about the question of Canada's defence. I must say, however, that I entirely object to his solution, because, for example, were our police forces in Canada to fail (which I admit is extremely unlikely) the logical thing for us to do then would be to ask for police protection from the U.S.A.

I also note that he offers no suggestion as to whether we remain in the empire or secede. Remember that our markets are now protected by the British Navy and that we are morally bound to go to the empire's assistance, if required.

He also assumes that we cannot build up adequate defence forces both naval and military, to take care of our coast line. Approximately twelve million dollars were voted this year for defence, while at the same time fifty million dollars were voted for unemployment relief. If these figures were reversed, in twenty-four months we could obtain adequate defence of Canada's shores and be able to maintain neutrality, if we so desired.

This would absorb may of the unemployed, and would also provide $12,000,000 as a residue for the irreclaimables. In all events this $63,000,000 is to be spent and no one can deny that were the $50,000,000 to be received as salaries by thousands of men who would be able to return to their trades, regain their self-respect, enjoy gainful and useful employment, in the drydocks, machine works, steel mills and other stimulated enterprises; or in the navy, air force or militia, it would be infinitely preferable to have that money circulated in such a manner than to have it passed through so many hands, thus causing a considerable shrinkage before it reached the unemployed.

This would be attained at the uncertain sacrifice of those who even with this stimulus to employment would still remain unemployable, and should be taken care of, as permanent wards of the state. These men have become unemployable largely because of the handling they have received, in that when in camp they have had no future to which to look.

Remember, too, that back in the days of Laurier, Canada considered herself to have reached the status of nationhood in the British Commonwealth of Nations, as a result of her having fought in the South African war, and took steps to create a Canadian Navy. Had it not been for the gross negligence of the incoming administration Canada's navy might have been of some consequence by 1914. Not that I am for a moment criticizing the personnel of our navy. It is the ships, equipment and numbers that are needed to bring it up to a first-class navy—if not in size, at least in efficiency. Be it noted here that our navy, in competition with the West Atlantic Squadron of the British Navy, have won the Destroyers' Competition on several occasions.

I may be out of tune with our times but when I said that "Many Canadians would feel that life was too short" I meant that there comes a time in any nation's life when individual sacrifice becomes necessary to maintain national existence.

It is for the leaders of the nation—and not the people alone who elected them—to decide whether our country should go to war or otherwise, because it must be remembered that a plebiscite would take time, and would thereby lower Canada's value as a participant.

C.C.F.

To the Editor:—I was greatly interested to read of the women's party being formed by the C.C.F. ladies, but I find "Consistent" had his facts all wrong. The C.C.F. W.A. tells me they have not actually nominated anyone, but were merely discussing possible candidates, and in any case they do not intend to nominate four ladies, but only two, leaving the men to nominate two. If the men refuse to give the ladies fifty-fifty representation and nominate more than two candidates in the provincial election, it is they who will be opposing the C.C.F.

"Curious" asks: "Is it possible that discrimination is used against women by the C.C.F.?

It is, indeed. In the last provincial election not a single woman's name was put up for nomination and the only one suggested by any club was Mrs. Grace McInnes, whose husband and father (Mr. Woodsworth) are already in the federal house. That surely is enough representation for one family. The C.C.F. refuses to nominate any local woman because, they say, the people of Victoria would not vote for a woman. So then, in view of their antiquated line of thought, what is there for the ladies to do but form their own party? Even then some old-fashioned women prefer to simply dance attendance on the men and allow just a few men to have all the say. I feel sure all progressive women in Victoria will support this woman's party.

SWALLOWS AND ST. JOSEPH'S DAY

To the Editor:—I read in today's paper that two swallows had been seen on Richardson Street. This announcement is apparently long overdue for swallows in large numbers have been arriving at Elk Lake district since the first day of March. On Wednesday last over a thousand were perched on the electric wires of Brookleigh Road. This is no exaggeration, but is rather a conservative estimate.

Last year it was not until April 1 that the first group of these happy little birds arrived. They had at that time some of their friends, the barn-swallow, with them. To date only the white-breasted birds have come to this district. They seem to arrive in groups and this locality is apparently a distributing centre. In the fall they gather in large numbers and disappear overnight. This is rather interesting and seems proof that they have a definite system of careful distribution, and that they reassemble with the same precision.

Perhaps I am presuming too much, but I think it is just a coincidence that they are seen occasionally on St. Joseph's Day for the first time. I think that they "get going" as soon as Mother Nature tells them that the weather is settled.

EAGLE EYE.

EXTRATERRITORIALITY IN CHINA

To the Editor:—Referring to the address given at the Rotary Club by Harry Hastings, the account of which I read in your issue of April 11, Mr. Hastings says that "the question is a sore and a sore that might lead to anything." Exactly, and it is through foreigners in China having extraterritorial rights that nothing more serious has happened, for only dating back to the Boxer rebellion in 1900 to the present day, China has been in a state of chaos, and if it was not for extraterritorial rights, one would not like to say what would happen to foreigners living in China.

It is through these rights that Great Britain, France and the United States have been responsible for turning a mud flat into the fine big shipping port of Shanghai, and through the policy that China has adopted in the past, that she now finds herself a back number. China is still in an unfit state and cannot look after herself, although I am glad to say she has improved in the last five years.

By the statements made by Mr. Hastings in his address, I am under the impression that he has not lived in China any length of time. They are most misleading to anyone not familiar with the situation in China.

SWALLOWS

To the Editor:—I read in your paper about dead swallows being found at Kemp Lake and district. About ten days ago a neighbor found here some swallows frozen and one dying, and a few days after we found two dead. I think they had been frozen, as the weather was very cold when they came here about three weeks ago.

ANNUAL SHOW ON SATURDAY

Kennel Club to Present Children's and Parlor Shows at Shrine Hall

Featuring children's and parlor shows, the annual Spring Dog Show of the Victoria City Kennel Club will be staged Saturday afternoon and evening in the Shrine Auditorium on View Street, at 3 o'clock and 7.30 o'clock.

Judging from inquiries, particularly from the juniors, the show will draw very heavy entries. The children's show will present a gala appearance, with the youngsters dressed according to the country of origin of the different dogs and also their avocation.

There will be hunters, rat catchers and poachers. Almost every kind of sport and work in which the dog is used will be represented, including the old-fashioned Punch and Judy.

The trick dog class will no doubt be very interesting, as will be those representing advertisements. The committee in charge of this show has a wonderful display of prizes to be awarded the winners of the thirteen classes, as well as the runners up, and all competitors will receive a gift of some nature.

EVENING SHOW

The evening show will draw representatives from practically every kennel in Great Victoria. When Miss Hickling commences to pick the best she will no doubt be greeted with a bumper entry. This show affords the last opportunity of schooling puppies before the public for the annual licensed show, which will take place on June 13 at the Main Building at the Willows Exhibition Grounds.

The programme for the evening show follows: Junior puppy, over three and under six months; senior puppy, six months and under twelve months; novice for those never having won a first prize and open for all ages. Several special prizes are offered, as well as the best puppy and best of each of the five groups.

Entries for the children's show will be taken at the door from 2 to 3 o'clock, and from the parlor show from 6.30 to 7.30 o'clock.

Copies of the programme for the children's show may be obtained from MacFarlane Drug Co., or from Mrs. F. D. Davidson by telephoning G 4978 or from F. Dodsworth, telephone G 6370.

CHILDREN'S PROGRAMME

The programme for the children's show follows:

Best appropriately dressed boy or girl to any variety of terrier, sporting, non-sporting, working, toy dog. Children up to sixteen years.

Best appropriately dressed boy or girl to any breed of dog. Up to eight years.

Best appropriately dressed boy or girl to any breed of dog. Over eight years and not over sixteen.

Most originally dressed boy or girl. Any age up to sixteen.

Representing some advertisement. Any boy or girl up to sixteen.

Best boy or girl dressed to origin of dog's country. Any boy or girl up to the age of sixteen.

Best trick dog, not necessarily fancy dress, boy or girl. Up to the age of sixteen.

Best puppy of any breed shown by either boy or girl. Up to sixteen years

Best dog of any breed shown by either boy or girl. Up to sixteen years of age.

TWO FOOTBALL GAMES BILLED

Hudson's Bay Will Meet Kresges at Athletic Park in Main Tussle Tomorrow

Two soccer fixtures are billed for tomorrow afternoon in the Wednesday Soccer League, one of which will take place at the Athletic Park and the other at Heywood Avenue, at 2.30 o'clock.

The feature tussle of the day will bring together Kresge's and Hudson's Bay at the enclosure with McMillan handling the whistle. James Bay Wanderers will take on the Recreational Centre at Heywood Avenue, Percy Shrimpton will referee.

Kresge's line-up follows: McMillan, McKenzie, Coates, Jack, White, McBride, Stokes, A. Murray, Newell, J. Murray, Duncan, Alcock, Hall, McLellan and Hill. The above players are asked to be at the grounds at 2 o'clock.

MILLIONS USED FOR LOBBYING

Power Trust Spent Up to $20,000,000 to Defeat Utilities Bill

Washington, D.C., April 14.—Did the "power trust" spend $20,000,000 in lobbying last year in an attempt to beat the Wheeler-Rayburn Public Utilities Holding Company Act?

Chairman John O'Connor (New York), chairman of the House lobby committee, says it did. O'Connor led the investigation into alleged lobbying by government officials for the bill.

He blocked a roll call vote on the "death sentence," sought by the administration.

"It may fairly be said that the stupendous sum of $20,000,000 was spent, and, of course, as usual, with no effect," said O'Connor in support of the Smith anti-lobbying bill, and went on to disclose lobbyist tactics.

"Members had difficulty getting into the chamber when the Utility Bill was being considered on the floor of this House. One fellow from Ohio kept calling out the members through the east door and there were lobbyists clogging the entrance to the Speaker's lobby.

"If this bill has no more effect than to keep these leeches away from us so that we may walk through the corridors of the capitol, it is well worth passing.

"There is such a thing around here as 'universal lobbyists'. The utilities called in all the standing lobbyists and put them to work, no matter what organizations they represented. They did not miss many lobby representatives of these other organizations.

"Even the lobbyists for charitable organizations were put on the payroll of the utilities. Now, that situation, of course, is at least an annoyance."

SAANICHTON

Saanichton Badminton Club will hold a May dance in the Agricultural Hall on May 15. Tickets are now on sale and can be had from members of the club.

On Tuesday evening, April 21, the South Saanich Catholic ladies will hold their thirteenth annual military five hundred and bridge party in the Agricultural Hall, Saanichton. Prizes will be awarded to the five tables with highest scores, with four specials, and first and second bridge prizes will be offered. A number of tombolas will be drawn for and refreshments and dancing will conclude the entertainment.

MAKES APPEAL FOR TREKKERS

Rev. S. B. East Appears Here in Interests of Men on Trial Today

An appeal for funds to defend the "On-to-Ottawa" trekkers at their trial in Regina, which opens today, was made in the Chamber of Commerce yesterday evening by Rev. Samuel B. East, United Church minister of Regina, who is conducting the western appeal.

Mr. East was one of four men arrested near Regina when he accompanied a group of trekkers to test the validity of provincial government permits prohibiting truck owners from carrying "passengers" over provincial highways.

The speaker reviewed the developments of the trek from its start in British Columbia last June to the Dominion Day riots in Market Square, Regina, where an attempt was made to hold a public meeting.

A royal commission investigation followed the riots, and today twenty-one of the 156 trekkers will go before a court for hearing.

Mr. East said he had supported the trek after seeing a group of trekkers come into Regina on the top of box cars.

"They were samples of forgotten youth," he said. The Saskatchewan Government had left them in camps, where Mr. East thought they would have lost their manhood and love of home. They had done a noble thing for Canada in coming out on strike, he said.

Rev. G. J. Switzer acted as chairman in the absence of Rev. Robert Connell, M.P.P., who sent a letter expressing regret at his inability to attend. In his letter Mr. Connell referred to the riots as an affair which had been badly handled, and he suggested the release of the men now in custody to end the whole matter.

The Citizens' Defence Committee sponsored the meeting.

Miss Mildred Comley of Ladysmith is spending the vacation at the home of her aunt, Mrs. B. Hodgson, Delmar Avenue.

Under the auspices of the women's auxiliary of the Wilkinson Road United Church a silver tea will be held at the church on Wednesday afternoon commencing at 3 o'clock. A programme of music and entertainment is being prepared.

Tells Growth Of Personality

Prof. Jessie W. Pilcher Sees Adult Education As Only Cultural Force Left

More than half the persons in mental homes today need not be there, Professor Jessie Wyman Pilcher of the University of British Columbia, told an audience of 100 who heard her speak at Girls' Central School last night under the auspices of the University Extension Society on "The Development of Personality."

These mental cases were there, she said, simply because their personalities had not been given the chance to develop properly, because they had never become adjusted to the conditions of the modern world. They had had no chance to integrate their personalities.

Dr. Pilcher traced the development of personality from the new-born baby to the adult.

HEREDITY, ENVIRONMENT

It was a slow, gradual process, lasting throughout life. It depended on two factors, the hereditary and the environmental. It was impossible to say which was the greater of the two. They were interdependent.

"Heredity sets the limits beyond which you cannot go; but you will never reach those limits without the proper environment.

The sense organs, the physical structure of the body, the general motor functions, the ability to use the body, the functioning of the glands, and the type of nervous system—this last the most important from the psychological point of view—were hereditary.

The new-born child was born with an inherited nervous pathway; a loud noise caused an immediate fear reaction. The nerves from the sense organ conveyed the stimulus to the nerve centre, the spinal cord and lower brain, and other nerves sent the natural impulse out into the body.

The infant had to learn to hear, to see, to taste and to use all the others of its eleven—not five—senses. Later it began to recognize, to have perception, feeling and emotions.

As each impulse passed through the nerves it left a stronger or a weaker track, according to the retentiveness or otherwise of the nervous system.

ATTITUDES

Later impulses would be influenced by these earlier tracks, which were the mental sets, the attitudes.

Out of these attitudes the intellect, temperament, skill and morality, the elements of character, were built. It was hard, said Professor Pilcher, to change attitudes, harder to change these characteristics, and almost impossible to change personality, the sum total of character.

"If you want personality to develop properly, you have got to begin at birth," she said.

As a background for her remarks on personality, a subject on which she will give a further lecture at a later date, Professor Pilcher spoke at length on adult education, psychology and pseudo-psychology.

ADULT EDUCATION

Adult education she termed "the only cultural force we have left as far as the modern era is concerned."

With the artistic, religious and political progress of the Renaissance, the Reformation and the eighteenth century, education had not kept step. By the end of the eighteenth century it was just beginning to get in line.

Then the machine age came, for which the world was not ready. It substituted a new aim, wealth, for the old ideals. The old village life, not perfect, but giving happiness, security, development of creative ability and the integration of personality, was swept away.

Today a home was a place where a man ate and slept. In Canada 20 per cent of all persons in professions and industry were maladjusted. Parents now had not grown up themselves. They looked for thrills, not for development.

"It is a ghastly hour for adolescence today, if it is not to be allowed to grow up," said Professor Pilcher.

The only hope for youth today was in adult education.

PROOF IN DENMARK

That this was no dream was demonstrated by the case of one single country, where alone there was prosperity, happiness, intellect, creative work and economic soundness. That country was Denmark, where a system of adult education available to everyone, without textbooks or examinations but intended for those who wished to develop themselves, had been in operation for 100 years.

England for the last forty years had done a great deal in this direction and was doing more. The United States and other countries had tried to follow. Canada was far behind.

"We have never been educated for democracy," said Professor Pilcher.

PSYCHOLOGY

Turning to psychology, Professor Pilcher said it was not something new "from across the border." People had always been interested in themselves.

The reason for the present interest and popularity of psychology was that it was only in this century that it had been applied to the individual.

Philosophers from the time of Aristotle had been interested in the science of the mind. But it was only in the nineteenth century that German scientists began to study it mathematically. They, the Functionalists, confined themselves to the general analysis of the sensations from a mechanical point of view, not in the study of individuals.

Later other scientists began to look at psychology from the individual aspect, and later still in connection with the development of the individual. It was only in very recent years that the mind of the child and the growth of its character had been considered.

Psychology was now an exact science. Data had been collected so that it was possible to know the forces working in the development of personality, and how to control that development.

CHARLATANS PROFIT

It was unfortunate that charlatans had been quick to see the commercial advantage of this new popularity of psychology, claiming to be able to change personality in adults.

This chicanery flourished no further from Victoria than Vancouver. In the same class Professor Pilcher placed the Freudian school of psychoanalysis.

The subject of her next address will be "Problems of Personality."

Suffered Torments —Pain and Gas

Now rid of all pain Can eat anything thanks to FRUIT-A-TIVES

"For months I suffered from indigestion. I could not eat or drink without pain and gas. After trying many remedies without success, I started Fruit-a-tives. In a few short weeks I was completely rid of all pain. Now I can eat anything and feel fine all the time," says Mr. A. Andrews, St. Catharines.

Fruit-a-tives, the discovery of a famous doctor, is the largest selling remedy of its kind in Canada because it has helped thousands to good health like it did Mr. Andrews. The greatest proof of Fruit-a-tives effectiveness is the remedy itself. A fair trial will convince you.

STORIES IN STAMPS

By I. S. Klein

Carrying a herald's staff, fleet Iris appears on the two-drachmae stamp of Greece's new mythological series, flying along the rainbow, of which she is goddess. Iris, in Greek, signifies rainbow.

People of ancient times regarded the rainbow as a messenger of peace, and so Iris became the messenger of the gods, especially Hera and Zeus, in Greek lore. She it was who cut the thread of life which held back the souls of dying persons, and she, according to tradition, conducted the female shades of Hades, while Hermes led in those of the men.

The great Greek poet, Homer, represents Iris as a virgin goddess, daughter of Thaumas, the Wonderer. But later poets have her married to Zephyrus and mother of Eros, or Cupid.

Young Artists Appear Tonight

Victoria music lovers will be interested in the recital of John Ware, baritone, and Helen Ockenden, pianist. Mr. Ware hopes to study opera under La Forge in New York. He will sing "The Toreador's Song," "Star of Eve," "Myself When Young," "Endearing Young Charms," "Sylvia," "Edward," "None But the Lonely Heart," "Water Boy," "Lindy Lou," "Glory Road," which will be sung in costume and dramatized. Helen Ockenden will play two groups, one Chopin and one modern. The recital will be held at the Empress Hotel this evening.

Col. A. E. Snell Inspects Units

Col. A. E. Snell of Ottawa, director-general of the St. John Ambulance Association, is making his first visit to Victoria since he succeeded Col J. T. Clarke to the post.

Col. Snell yesterday evening examined the first aid team of the Oak Bay Rovers, competing for tyro and provincial honors, and the Canadian Scottish team, contesting for Dominion militia honors and the Marv Otter trophy.

This afternoon the director-general is conferring with G. H. Stevens, vice-president of the B.C. branch of the association.

This evening he will witness demonstrations by the St. John Ambulance Association, Victoria Brigade, No. 64.

He will leave for up-island points on Thursday.

LABOR STRUGGLE GROWING TENSE

Political Activity of Workers on Rise; Repressive Preparations Made

Washington, April 14.—Several developments on the labor front point to intensification of the long struggle between employers and employees n industry.

These include unprecedented political activity by labor groups, evidence of repressive tactics of a sensational nature, the rise of labor organizations to demand a voice in new fields, and likelihood of a Senate investigation of industrial practices inimical to labor organization.

The old-fashioned conception of the employer as a benevolent personage with the welfare of his workers at heart, though it still must apply in many cases, has taken a severe jolt with the revelation reported to have been made in a Senate probe that major industries were secretly buying stores of machine guns, tear gas, revolvers, and ammunition, in anticipation of labor strikes.

The evidence was found by the Senate Munitions Committee in the files of Federal Laboratories Inc. of Pittsburgh, dealers in tear and nauseating gas, who handle pistols and machine guns on the side.

Correspondence was reported to show that purchases had been made by employers with great secrecy. Among Federal's customers, the committee evidence is said to reveal, have been the Weirton Steel Company, Cudahy Packing Company, H. C. Frick Coke Company, Southern Natural Gas Company and Bethlehem Steel.

WILL PROBE LABOR SPIES

These revelations are being used as a talking point by President John L. Lewis of the United Mine Workers, head of the new industrial union movement, and will be followed up by the La Follette subcommittee in its preliminary hearings which will be used to base a request for full investigation of violations of civil rights.

The National Labor Relations Board has a vast store of evidence as to industrial espionage which is being placed before the subcommittee and which has a direct bearing on enforcement of the Wagner Labor Disputes Act—probably the most commonly flouted law in the country today.

It has been common practice, this evidence indicates, for large corporations to employ "stool pigeons" to join labor unions, make reports on the unions' affairs and memberships and to obstruct or nullify their work from the inside. Activities of labor spies would be first on the investigation's agenda.

It is also proposed that the committee cover the whole field of civil liberties violations.

Obviously, the exposure and denunciation of these alleged tactics—with recommendation for legislation in some cases—would aid militant labor organizers. It would also accrue to the benefit of the Roosevelt administration, which will have the support of organized labor and pose as its champion while its opposition has the support of the American Liberty League, chiefly representative of anti-union employers.

Organization of Labor's Non-Partizan League by George Berry of the pressmen, Lewis of the miners, and Sidney Hillman of the clothing workers is important because it will be difficult for the other A. F. of L. leaders to avoid playing along with them.

With Berry at its head, the movement cannot be branded by William Green and conservative leaders as a mere offshoot of the Lewis-Hillman Committee for Industrial Organization.

The league's support of Roosevelt means that 160,000 miners and 40,000 garment workers in Pennsylvania, and 236,000 needle trades workers in New York, probably will be delivered to the national Democratic ticket in November.

IMPERIAL FAMILY INCOME POLICY

IF AN ordinary policy for say $10,000 becomes a claim, the income from the money, if invested safely at 3½ to 4%, or fortunately even at 5%, would be only $350 to $500 a year.

Under a $10,000 Family Income Policy, however, the Imperial Life would guarantee to pay 12% of the face value of the Policy, or $1,200 a year, and this income would be paid every year until your youngest child was grown up. Then the full face value of the Policy, $10,000, would be paid in cash.

Think what a difference this extra $700 or $800 per annum—it might be for many years—would make to your family while the children were growing up. And then—$10,000 to start them in life or to take care of your widow's declining years!

If you survive, the policy will provide you with a very welcome cash fund, or a guaranteed monthly income for the time you will wish to retire.

In planning an estate to protect your family you cannot do better for them, or for yourself, than to investigate the Imperial Family Income Policy.

"Oh! New Mexico"

The above is from a photograph of Robt. G. Jackson, M.D., taken in his 77th year.

DECEMBER 30th. I awoke in the desert of New Mexico to behold golden sand, golden grass, green-gold sage brush, golden wastes, vast, craggy, creviced, cliff-sided buttes rising turret-like, a wide domain bounded by purple mountains and unpaintable blue sky. "A terrifying desert," says one. "A vast domain, sun gilded, crisp, ozone-laden air, where a super race might breed," says another.

And what a lesson! Everything could grow here for building a super race, yet only buffalo grass and sage brush grow. Why? No water. The lesson? Everything needs balance.

Man is the highest expression of life. Balance is more important to him than to other species, to enable him to manifest his potential perfection. Food is his most important factor, for his body can be only as perfect as the foods that build it. Man has overlooked this factor and the tragedy of omnipresent disease stalks the race.

Only 2 per cent. of his foods are natural, vital and richly mineralized, while 80 per cent. should be.

I have rebuilt my body to be so vital at 78 that I defy disease, colds, aches or pains. If you do nothing else, use Roman Meal and Kofy-Sub freely for one month and note the freedom of bowel action and the improved sense of well being. Then I shall not need to urge their constant use. If you desire my free literature, write me. Address Robt. G. Jackson, M.D., 577 Vine Ave., Toronto.

INTERMEDIATES NAME OFFICERS

The Intermediate Branch of the Musical Art Society held their annual concert at the Victoria Truth Centre on Saturday evening. A very attractive programme, arranged by Miss Margaret George, included Rae and Marian Millar in piano duet, "Barcarolle" (by Bowen); Leslie Clark, elocutionist, in "As Red Men Die" (Pauline Johnson); Catherine Denison, group of contralto solos; Albert Vey, violin solo; "Rose Petals" (Laurson); Illace Roskelley, novelty act, "Polly Wolly Doodle," in which she sang and danced; Elsie George sang sweetly "Rose of Tralee"; "Valse Romantique," by Debussy, was rendered by Alex Ord, pianist; a graceful ballet dance was given by Hilda Jacques; D'Albert LeMarquand, gifted violinist, and winner in the recent Musical Festival, contributed "Romance" (Wieniawski) and "Serenade" (Schubert), accompanied by Miss Sheila Conway; Dorothy Davies's recitation brought the programme to a close.

Mrs. W. B. McMicking, convener of the society, expressed her appreciation to the artists for their contributions to the programme. Guests from the senior society included Dr and Mrs. C. S. Beals, Miss Gwen Harper and Mr. E. Holloway.

Following the serving of refreshments, the election of officers was held. Tom McMartin was elected president; Albert Vey, vice-president; Margaret Scoular and Alice Bleathman were returned by acclamation to the offices of secretary and treasurer respectively; John Ramsay was elected programme convener.

The retiring president, Alex Ord, in his report, thanked the members for their assistance during the season and wished the newly-elected officers success. The secretary's report was read and accepted and the treasurer's report shows a balance on hand of $33. On closing, the convener thanked the past officers for their co-operation and wished the new executive every success.

Adorable "Bunnies" Attend Children's Easter Ball

Charming Costumes at Commodore Broughton Chapter I.O.D.E. Dance Last Night; Tiny John Hugh Bankes Wins Special Prize

Two-year-old Hugh John Bankes, as a sportive little "Brier Rabbit" complete with frisky white tail and clutching a carrot, carried off the honors yesterday evening at the "Bunny Ball," not only as the baby of the party but also as winner of the special cash prize for the best bunny costume at the ball, which was sponsored by the Commodore Broughton Chapter I.O.D.E.

As with all the children's affairs in Victoria, the occasion brought together some of its most adorable specimens of childhood. Tiny Easter "bunnies," with chicks just emerging from their shells, danced and played games with pirates and little girls in dainty party frocks, enjoying themselves with the happy abandon which belongs to tender years. Mr. Frank J. Sehl, as a mature grey bunny, complete with white tail and upstanding ears, and a huge bow of purple cellophane around his neck, was a popular figure, distributing tiny Easter chicks as favors to the little guests.

OTHER PRIZE WINNERS

Mrs. Chas. E. Wilson, Miss Vivienne Combe and Capt. T. L. Thorpe-Doubble acted as judges, reviewing the grand march as the children paraded around the ballroom before going in to supper. In addition to the prize awarded to little Hugh J. Bankes, other prizes were awarded as follows: Best national costume for girls was won by Helen Macdonald, as a French peasant; boys, Alan Millar, Dutch boy; most original costume, girls, Maureen Yates, pirate; comic costume, girls, Verna de Macedo, hen; special prize, O'Dare Donald and Shirley Day as newly-hatched chicks.

Mrs. Wm. Ellis, regent of the Municipal Chapter, formally presented the attractive prizes to the little winners amid the applause of the spectators.

NOVEL PROGRAMME

Musical games were arranged for the entertainment of the very small guests by Mrs. Dorothy Wilson, assisted by Miss Wynne Shaw, Miss Doreen Wilson, Miss Phyllis Addison, the children entering with enthusiasm into "London Bridge is Falling Down," "The Farmer's In the Dell" and musical chairs.

Five tiny Easter "bunnies," little Betty McNiven, Lorena Smith, Joan McKenzie, Patsy Sinnott and June Day performed a fascinating dance, much to the delight of the onlookers.

An amusing barnyard dance included a black Minorca rooster, impersonated by C. de Macedo, while a little black hen, impersonated by Verna de Macedo, sat on her nest of straw. In the centre of the ballroom a huge egg had been placed, and after excited crowing and clucking, the rooster and hen managed to peck the shell of the egg and out came a baby chick, Betty Joan Elworthy, who did a tap dance, followed by a dainty barefoot dance.

A troup of tumblers from the Y.M.C.A., Walter Graham, Bob Anderson, Don Smith and Westall Clarke, under the direction of Vivian Shoemaker, gave a clever exhibition, their antics evoking much laughter and applause.

Mrs. Styles Sehl was general convener, and her committee included Mrs. A. W. Millar and Mrs. A. D. Straith. On the reception committee were Miss Ethel Bale, the regent of the chapter; Mrs. Sehl, Mrs. Millar, Mrs Straith, Miss Lora Blake, Miss Helen Winn, Mrs. O. Mrs. Norris Harwood, the former Netta Parfitt, who was married on Saturday evening at Emmanuel Baptist Church.

Mrs. J. Hebden Gillespie, "Windyhaugh," Fairfield Road, will be hostess at the bursary tea to be given on Saturday afternoon, April 18, at her home from 3 to 6 o'clock, under the auspices of L'Alliance Francaise. A delightful musical programme has been arranged, with other amusements for the pleasure of the guests. Those interested in the success of Victoria College students could find no more agreeable way of contributing to the annual fund for their encouragement and advancement in the study of French than by patronizing this spring-time fete. Tickets may be had from members of L'Alliance Francaise or at the door.

NORRIS—CODD

Vancouver, April 14. — Vancouver lost another of its attractive daughters to Victoria's growing colony of younger marrieds from the mainland when Mary Dorothea, second daughter of Mr. Selby A. Codd and the late Mrs. Codd, became the bride of Mr. Frederick Elford Norris of Victoria, only son of Mr. and Mrs. F. J. Norris of Victoria, at a quiet ceremony Saturday afternoon at 4 o'clock in St. Paul's Anglican Church, Rev. Canon H. G. King officiating.

Miss Elizabeth Codd was her sister's only attendant, the groom being supported by his father.

Mr. Codd gave his daughter in marriage, the pretty bride the epitome of springtime chic in a navy taffeta tailleur, the coat that opened to show a ruffled white organdie blouse, having wide revers outlined in knife-pleating. A single white gardenia was posed at the front of the shallow-crowned wide-brimmed navy hat that dipped slightly forward, and orchids and lilies of the valley were her flowers.

Also smartly informal was Miss Elizabeth's Dresden blue silk crepe ensemble with which she wore a navy sailor dotted across the front band of the crown with the minutest white French flowers. Her accessories were in navy and her flowers, pink roses.

The couple left on their wedding trip immediately following the ceremony and will take up residence in Victoria on their return.

WHILES—TORRY

Of interest to many friends on Vancouver Island was the wedding of Edith, eldest daughter of Mr. and Mrs. J. L. Torry of Vancouver, who became the bride of Mr. William Ogilvy Whiles, of the teaching staff of Port Alberni High School, only son of Mr. and Mrs. W. H. Whiles of Vancouver. The ceremony was performed by Rev. W. J. Minto Swan at 4 p.m., St. Mark's Anglican Church, Vancouver, artistically decorated with profusions of daffodils and Easter lilies for the occasion. Mr. Hector Stewart of Port Alberni, supported the bridegroom.

Given in marriage by her father, the bride was graceful in her wedding gown of forget-me-not blue silk net, and jacquette of suede lace, with circular train relieved with touches of coral velvet. She wore a transparent hat of mohair in the blue tones, trimmed with tiny coral band and coral velvet flowers. Her shower bouquet was of Ophelia roses, and forget-me-nots. Mrs. Esmond Taylor was matron of honor, gowned in rose colored suede lace with delphinium blue velvet. She wore a large net hat in rose shade, with velvet ribbon and blossoms in the blue tones. Her bouquet was of blue iris and snapdragons.

Mrs. Robert Quinn sang "All Joy Be Thine."

Following the service, a reception was held at the residence of the bride's aunot, Mrs. R. D. Pollock. Mrs. J. L. Torry, mother of the bride, and Mrs. W. H. Whiles, mother of the bridegroom, received the guests with the young couple. Mrs. Torry wore a gown of brown taffetta and georgette, and Mrs. Whiles wore royal blue with silver fox fur.

Later in the day, Mr. and Mrs. Whiles left for Victoria and the Pacific northwest, the bride traveling in a swagger suit of Scotch heather tweed, with smart brown toque, accessories in brown and corsage of gardenias. On their return they will reside at Lower Crescent Port Alberni.

GAY CROWD AT CLUB'S DANCE

Daffodils in profusion lent a spring-like air to the Royal Victoria Yacht Club on Saturday evening when a large number of members and friends attended the weekly dance, the growing popularity of these informal affairs being attested to by the increasing attendance.

All the latest dance hits were played by Al Reynolds and his Yacht Club orchestra, and encores were frequently demanded and generously given. Among the many dancers were: Mr. and Mrs. Arthur Bishop, Mr. and Mrs. L. Wagstaff, Mr. and Mrs. T. M. Colby, Mr. and Mrs. H. M. Young, Mr. and Mrs. Cliff Adams, Miss Aileen Osborne-Smith, Miss Sybel Fraser, Miss Muriel Barnett, Miss Janet Gray, Miss Alizon Mitchell, Miss Vera Attwood, Miss Lois Dixon, Miss Barbara Lloyd-Young, Miss M. Mr. and Mrs. W. A. Evans Celebrate Silver Wedding Anniversary

The A.O.F. Hall was the scene of a happy gathering yesterday evening when Mr. and Mrs. W. A. Evans, 1498 Fairfield Road, celebrated their silver wedding. Mr. and Mrs. Evans were married at Colwyn Bay, North Wales, and left the same day for Victoria, where they have since been resident.

Easter lilies and other spring flowers were used in profusion throughout the hall, Mrs. E. Woodward having charge of the decorating. Assisting the host and hostess in receiving were Mrs. R. Jones and Mrs. T. H. Griffith of Seattle, the latter singing a Welsh solo during the programme. Mr. S. James was chairman of the evening.

Vocal numbers were also contributed by Miss Winnie Applegate, accompanied by her sister, Miss Jessie Applegate; Miss Evans, accompanied by Miss G. Evans; Mr. Frank Partridge, Mrs. M. Thomas, Mrs. E. Woodward, Mrs. William Jones, Mrs. Cadwgan Williams, who was accompanied by Mrs. R. Mason; violin solos by Mr. Bransdon, accompanied by Mrs. Mason; piano solos by Miss Jessie Jones, and recitations by Miss Celia Lewis, Mrs. Malcolm and Mr. Robert Thomas.

Rev. E. F. Church spoke briefly, congratulating Mr. and Mrs. Evans and wishing them many more years of happiness, and, on behalf of their friends, presented them with a handsome silver tea service, Mr. Evans accepting the gift on behalf of his wife and himself.

Supper was served in the dining-room, the tables bright with daffodils and greenery, and dancing was enjoyed later, with community singing to bring the evening to a close.

Among those invited were Rev. E. F. and Mrs. Church, Mr. and Mrs. Langford, Mr. and Mrs. R. Jones, Mr. and Mrs. Eric Jones, Mr. and Mrs. Winters, Mr. and Mrs. Burnett, Mr. and Mrs. Applegate, Mr. and Mrs. McKenzie, Mr. and Mrs. Edmund Woodward, Mr. and Mrs. Walker, Mr. and Mrs. Malcolm, Mr. and Mrs. E. Your Baby And Mine

By MYRTLE MEYER ELDRED

Mothers who live in the neighborhood of nursery schools are in the ideal position to learn about nutrition for children. The directors of such schools are always pleased to give the results of their research to mothers. Mrs. J. E. C. seems to have no such source of help, he writes: "Can you help me find some information on nutrition particularly for pre-school children? I am chairman of a group of pre-school mothers and am finding it difficult to get adequate material.

"THINNING THE BLOOD"

"Also, is there any authoritative foundation for the belief that a child's blood is thick in spring (the sulphur and molasses idea) and if so what foods would best 'thin' it out?"

Here are some books which should solve the nutrition problems for you: "Food for the Young Child," by Miriam Lowenberg; "Feeding the Child from Two to Six," by Mary Frances Barnes; "Food for Children and How to Cook It," by Marion Flexner, and for a more academic discussion, "Foundations of Nutrition," by Mary Rose. You may have our leaflet called "Diet from Two to Four," for a self-addressed and three-cent stamped envelope sent to Myrtle Meyer Eldred of the Your Baby and Mine department of this newspaper.

VITAMIN DEFICIENCIES

I doubt the idea of "thick blood." Past generations suffered from vitamin deficiencies. Lack of vitamin D, due to cold winters, which necessitated thick clothing and, of course, inadequate sunshine. Lack of vitamin C, due to a preponderance of cooked foods, with no compensating fresh ones. . . . Vitamin A because of lack of green vegetables and perhaps too little butter and cream and cheese.

Then, as today, one's blood was improved by green vegetables, fresh fruits and sunshine—which spring, not sulphur and molasses, provided in abundance.

Mrs. Carrie B. Lent and her daughter, Miss Geneva Lent, are visitors from Calgary, spending a few weeks at the Empress Hotel. Both mother and daughter excel in several branches of art. Mrs. Lent as a musician, composer and artist, interested in porcelains and minatures. Miss Geneva Lent, as an artist, specializes in Indian masks and floral studies, and at present an exhibition of sixty-four of her pictures is being held at Stanford University. She has done considerable research in the British Columbia archives, and is interested in the subject of native dyes and Indian arts and crafts, and the history of Indian civilization as revealed in the masks. Some of her floral paintings have been hung by the Ontario Society of Artists. Under the names of Gene Dorante and Vagna Lorde, Miss Lent also writes both poetry and prose, and many of her poems have musical settings by her mother. As a singer Miss Lent sang for the Radio Commission in the "Prairie Pastoral" programme for eighteen months; she will be the soloist at the Empress Hotel on Saturday afternoon. Some of her mother's songs may be included in the programme.

D. H. Fotheringham Dies in the Yukon

Vancouver, April 14.—Word was received here yesterday of the death in the Yukon of David Hetherington Fotheringham, a former member of the Royal Canadian Mounted Police and a veteran of the South African War and the World War. He had lived in the north for thirty-five years.

He was born in Grenfell, Sask., and joined the police force there. He served with the Canadian Mounted Rifles in South Africa and rejoined the police force on his return to Canada, being stationed at Dawson. He volunteered with the Yukon machine gun company and served during the Great War.

The widow, one sister and three brothers survive him.

DECREE NISI IS SET ASIDE

Winnipeg Action in Jones vs. Jones Case Legal Precedent for Canada

Canadian Press

Winnipeg, April 14.—The setting aside by Mr. Justice P. J. Montague of the Court of King's Bench here of an absolute decree of divorce granted to Mrs. Agnes Jones from Thomas J. Jones, was believed today to have established a legal precedent for Canada.

The reason for setting aside the decree, granted September 6, 1933, was that Jones was never served with the divorce petition.

Mrs. Jones filed suit December 22, 1932, and Arthur Parker, an investigator, swore on December 30, 1932, that he had made personal service of the petition on Jones. In February, 1934, Parker admitted he had served the wrong man, although at the time of service the man served admitted he was the husband of the petitioner and the respondent named.

The undefended case was tried before Mr. Justice Montague February 7, 1933, when a decree nisi was granted. This was made absolute September 6, 1933.

Later Jones learned of his wife's divorce action through relief authorities. The couple, although separated, had been in receipt of married relief.

On February 19, 1934, Jones filed a counter petition asking to have the decree set aside on the ground the proceedings had been illegal. On hearing Parker's admission of improper service, Mr. Justice Montague set aside the decree, leaving the petitioner and his wife still wed.

Mrs. Bartholomew In Los Angeles

Canadian Press

Los Angeles, April 14. — Freddie Bartholomew's mother, traveling under an assumed name, reached Los Angeles last night and immediately contacted attorneys, preparing to open the legal fight for custody of her famous son.

Her sister-in-law, Miss Millicent Bartholomew, was made legal guardian of the twelve-year-old movie actor nearly six months ago by a Los Angeles court order.

Attorney Leonard J. Meyberg, who said he would represent Mrs. Bartholomew in the struggle, announced she would file a petition in Superior Court, contesting the guardianship. It will be on record before April 23, the legal "deadline" set when Freddie became a ward of his aunt, Meyberg said.

Regarding the confusion surrounding Mrs. Bartholomew's departure from New York, Meyberg said she explained to him:

"I retained Phillip A. Levery of New York to represent me before I left England. But I did not see him in New York.

"I didn't want any publication in this fight. I felt the place for me to wage my fight was right here in California. I took an assumed name, bought a ticket on the plane and came to Los Angeles."

Mrs. J. M. Letson Died on Sunday

Vancouver, April 14.—Mrs. Mary B. Letson, a resident of Vancouver for forty-two years, and widow of J. M. K. Letson, is dead here.

Mrs. Letson was born in Chatham, N.B., the daughter of the late Angus McIntosh.

Mrs. Beverley Baxter of London, wife of the British journalist, is a daughter. Two sons, Gordon and Harry, and another daughter, Mrs. Clark Ashworth, all of Vancouver, also survive.

Death occurred Sunday, and the funeral was held today with burial in Mountain View Cemetery.

Ministering Circle—The Minister-Circle of the King's Daughters will meet on Thursday at the home of Mrs. R. R. Watson, 828 Hampshire Road.

Gorgeous

BY LAURA LOU BROCKMAN © 1936 NEA Service, Inc.

He went into an involved, technical explanation, interrupted when Miss Collins reappeared. Then, for twenty minutes more, Toby stood before the lights and watched, apparently registering rapt delight over the array of beauty preparations before her.

At last Marty Hiatt announced triumphantly, "Got it!" and signified that the posing was at an end.

Toby slipped out of the coat with the heavy mink collar and the expensive hat. She said, "Is that all, Miss Collins?"

The older woman nodded. "Yes. I'll tell Miss Burrows you were a great help."

"I hope she won't think I've been gone too long."

"Don't worry." Miss Collins smiled. "I'll take care of that. Perhaps we can use you again some day—"

* * *

Toby slipped away. She wasn't interested in being "used" again. She hoped fervently that Miss Burrows would not be annoyed because she had been away from the department so long.

Apparently Miss Burrows was not. Gladys Sorenson, when the opportunity came, plied Toby with questions about what it was like to pose for an advertisement, what the new "Beauty Bar" looked like, when they were going to see the pictures, etc.

Toby said, "Maybe they won't use them at all. I wouldn't be surprised if they didn't. I felt foolish, and I'll bet I looked that way, too."

"I'll bet you looked swell," Gladys insisted loyally. She went on, "But, say—Maurine's sore as a boil because they asked you to be in those pictures instead of her. She looked mad enough to bite nails after you left."

"But I didn't have anything to do with it—!"

"I know. Just the same, she's sore. Better stay out of her way—that's my advice."

Toby said, "If she really cares, I'm sorry I did it."

"Well, I'm not!" Gladys nodded emphatically. "Does me good to see that dame get taken down a peg once in a while!" Gladys was called away then to wait on a gangling, high-school-age girl who wanted to buy an enormous rhinestone bracelet.

A minute later Toby was busy with a customer, and the rest of the day went in brisk routine. Toby forgot the fourth floor "Beauty Bar" and the glaring lights and how awkward she had felt before the camera. She forgot Glady's warning that Maurine was "sore.' Lunch hour came and went, the afternoon brought a new stream of shoppers. By 5 o'clock, when the first closing gong sounded, Toby sighed gratefully.

In the milling crowd in the locker room she got into her last season's brown coat, managed to catch a fleeting glimpse of herself in a mirror, and adjusted the little green hat. Then she was in the elevator, descending to the street.

She stepped out into the February dusk, raised her head involuntarily, and drew a deep breath. The good, cold, fresh air smote her cheeks. To left and right, lights gleamed in the already darkened streets. Newsboys were crying the day's headlines in their indistinguishable jargon.

Toby stood for a moment, taking it all in—the lights and noise and pushing crowd. It was all familiar; nevertheless, it was impressive. Then Toby tugged at her hat brim, settling it more firmly on her head, and set off down the street.

* * *

At the same time Tim Jamieson, leaning against a bar in the east fifties, helped himself to a cigarette from the package his companion held. Tim touched a match to the cigarette, watched the fragile ribbon of smoke rise from its tip. Then he said, "I saw a girl today—"

"Remarkable!" The other's tone was good-naturedly jeering. "How do you account for it?"

Tim Jamieson did not seem to hear. "She has blue eyes," he went on, reflectively—"at least I think they're blue. They're big and sort of—well, swell. And she's got the cutest little nose. She had on a green hat—"

The other man raised his glass. "I've seen girls myself—one or two of them. They've all got eyes and noses and ears and arms and legs and—er, and so forth. Lots of 'em have green hats, too. I can find you a dozen—"

"This one," Tim interrupted, "is special. I've got to find her."

"Find her? Is she lost?"

"I mean," Tim explained, "that I saw her this morning on the street. Ran into her—no, that's not right—she ran into me. On corner. She almost bumped into my arms and she looked so surprised and cute and—"

"Oh, forget it! Nuts about a dame you don't even know! Of all the crack-brained, crazy idiots!"

Jamieson shook his head. "No," he said. "I don't know her name or where she lives or her telephone number. I don't know anything about her—except that I've got to find her."

The other snorted. "Be yourself, Tim!" he said, impatiently. "Are you going to go through all that again? Don't you ever learn anything at all? What about Natalie? And Sally? And that red-head—what's her name—Maribelle? What about—?"

But Tim Jamieson was not listening. "I've got to find her, he said abruptly, once more. "And I will. What's more, I'll bet you that within twenty-four hours I have a date with her!"

CHAPTER III

It was a side street down which Toby Ryan made her way—a street brightly enough lighted, but away from the noise and glare of the avenue. She walked quickly. Halfway down the block there was a drug store; Toby turned and went inside.

The boy behind the soda counter looked up at her, but Toby passed him without a glance. She went to the rear of the store and entered a telephone booth.

There was a thick directory, with battered pages, open on the shelf. Toby turned the pages until she found the one she was looking for. At the top, in small black letters, was the name, Pinklewitz, L."

NUDIST SHOCKS CONGREGATION

Amazing Scene By Girl in St. Paul's Cathedral, London

London, April 14.—The London Daily Mail said today an amazing scene occurred during an Easter service Sunday evening at St. Paul's Cathedral, when a young woman, flinging off her cloak, stood unclothed before the congregation.

The woman—a brunette about twenty-five years old—stepped from her pew as the choir was leaving the chancel, the newspaper stated, and walked more than fifty yards to the altar steps before dropping the cloak and sinking slowly to her knees, with her arms outstretched in a gesture of supplication.

About 1,000 Easter night worshippers watched as officials rushed her to one side, draped the cloak over her shoulders and hurried her into the vestry, The Daily Mail reported.

Later, the paper said, the woman was removed by police for a medical inquiry.

Socialite Seeks Tally-ho Record

Mrs. Dibble to Drive Team of Big Trotters and Coach to Atlantic City

New York, April 14.—When the officer at the New Jersey end of the Holland Tunnel spies a tally-ho coach and four come galloping out of the gasoline laden gloom on the morning of May 12, he is going to sit down and swear off the hard stuff for the rest of his natural life.

But let him and other stupefied spectators who witness this prancing phenomenon rest assured, they will not be seeing things. It is only Mrs. Florence Dibble going for a ride.

Mrs. Dibble—of the Boston Back Bay Dibbles, if you please—is all in a dither over the twelve-hour record run for a coach and four between New York and Atlantic City set some thirty-five years ago by Paul Sorg, tobacco millionaire. She says she can beat it—traffic lights, Jersey drivers, motorcycle police, detours, and parades, notwithstanding.

It is Mrs. Dibble's contention that the big trotting horses of today, of which she owns a baker's dozen on her farm in Massachusetts, are more suited to coaching than the half-hackney type popular in the heyday of the tally-ho. With these trotters she hopes to smash this record, which the coaching experts tell me is one of America's greatest horse and buggy exploits.

The Dibble expedition will start from the Waldorf-Astoria, following a "coach breakfast," and end in the Municipal Auditorium in Atlantic City, where the Atlantic City Horse Show will be in progress. Whether Mrs. Dibble's twentieth century, streamlined stallions break the record or not, her entrance should be as dramatic as the afternoon Ben-Hur whipped the crowds at the Coliseum into a fine frenzy.

So they can be in on the excitement, a number of noted New York horse folk and society satellites are are bidding to be among the passengers. While Mrs. Dibble will do the majority of the driving, she is taking along three of the most accomplished coachmen of America, England and France to help her—or the horses—over the rough spots.

$50,000 FARE

This patrician buggy ride is going to cost $50,000. Twelve horses will be used and "stages" will be made every twenty miles. The team taken from the shafts of the coach will be put in a van, passengers en route, and sent ahead for a rest. Heaven help the van driver who gets a flat tire with a cargo of Mrs. Dibble's prized and perspiring trotters! The total mileage of the trip is 134 miles. When Sorg made the run sixty-four horses were required.

The coach, atop which Mrs. Dibble and her co-coachmen will tally-ho at stubborn motorists and perplexed pedestrians, is the cream and red-colored "Valiant" built especially for the late William Tiffany, a great coaching enthusiast of years ago. It was owned for a time by the late John McEntee Bowman, and then sold to Mrs. Dibble. The coach itself is worth many thousand dollars.

"Big trotters," says Mrs. Dibble's chief trainer, "have stamina as well as speed and we should have little trouble breaking that record." That gentleman is an optimist. Maybe he never braved the fruit trucks, Philadelphia busses or maniacal motorists on that New York to Atlantic City highway on a bright morning in the month of May!

The Truth About Diet

By DR. MORRIS FISHBEIN

Many people have a feeling that fish is not really as valuable for building human tissue and preserving human flesh as is the meat of animals. Still there are nations which live almost wholly on fish and seem to do very well at it.

Dr. M. Fishbein

The flesh of most fish commonly used in the diet, such as halibut, codfish, whitefish, salmon, trout, pickerel and perch, will average from 15 to 18 per cent protein, as compared with approximately 21 per cent protein for meat and poultry.

The flesh of fish provides protein, fat, mineral salts, particularly iodine and phosphorus, as well vitamins. More than 80,000,000 pounds of fresh, frozen and smoked fish were produced in the United States in 1930.

Fish flesh is digestible according to the amount of fat that it contains. This varies greatly in different species.

Salmon, which is rather rich in fat, is not digested as easily as oysters, trout, bass and bluefish. Mackerel, pompano and shad come between salmon and codfish in their content of fat.

Herring is so widely eaten by all races, types and classes of people that it is perhaps the most important of all fish in the diet. The herring family includes not only the true herring, but also such fish as whitebait, sprats and sardine.

Herring contains a good protein with a relatively high amount of phosphorus.

There are some strange superstitions about fish. One is the idea that fish is a brain food. I have pointed out repeatedly that this superstition depends on the high content of phosphorus in the flesh of the fish.

Another superstition is that the eating of fish tends to produce melancholia. The only explanation offered for this notion is that certain religious groups permit fish on days when meat is not permitted.

You should remember, however, that many of the northern races which eat heavily of fish, such as the Eskimos and the Scandinavians, are of the more stoic and less effervescent type.

TODAY'S HEALTH QUESTION

Q.—Is there a cure for catarrh and is it possible to regain hearing which was lost due to catarrh?

A.—The word "catarrh" has been scrapped by the medical profession. It indicates an infection or an inflammation. There are few infections which cannot be brought under control by modern medical care.

When hearing is lost, there has been damage to the tissues involved in hearing. The extent to which it can be regained depends on the extent of permanent damage. This must be determined by a competent doctor after a careful examination.

Deer Takes Refuge In Duluth House

Associated Press

Duluth, Minn., April 14.—The latch string's always out at Frank Murphy's home—even to wild animals.

Murphy heard noises in the kitchen of his home, located in a well-settled residential district of this city of 100,000 population. Investigating, he found a two-year-old buck deer, trembling with fright.

It had taken refuge from a pack of dogs.

Future Veterans Calling for Bonus

Associated Press

Princeton, N.J., April 14.—Veterans of Future Wars were called on yesterday to write representatives and senators at Washington to urge immediate payment of a $1,000 bonus per member, plus 3 per cent interest compounded annually from 1965 back to 1935. National headquarters reported 22,700 future veterans in 251 posts throughout the country.

Store Advertising In U.S. Increases

Associated Press

Chicago, April 14.—Retail advertising in newspapers of sixty-six cities of the United States, The Publication Advertising Age reported yesterday totaled 19,291,587 lines in the first fourteen weeks of 1936, compared with 18,847,327 lines during the corresponding period of 1935, an increase of 1.8 per cent.

During the first fourteen weeks of 1936, 216,210,843 lines were placed in these same publications, compared with 211,654,209 for the same period a year ago.

Dominoes Dying Rally Wins Opening Basketball Game 32 to 28

THE SPORTS MIRROR

THE DOMINOES may not be superstitious, but the boys eschewed the dining table on the boat going to Vancouver when they found their number totaled thirteen, according to mailed reports from Perigrinating Pete Sallaway. On the other hand—though it's an unworthy thought—the Raymond boys, on their last trip to the Coast, ate a lunch put up by the ladies of their hometown before they left. There's more ways than one of saving the simoleons.

* * *

It's probably just a passing sidelight, but there will probably be a lot of acid conversation over the fact that Alf Perrin, Vancouver referee, joined the troupe when Ralph Thomas, who got the original call, was unable to make the trip owing to school teaching engagements.

* * *

The Lethbridge Herald did the Victorians proud in its layout on Saturday. In addition to four pictures of the players, the sports sheet carried a major story on the enthusiasm in the small Mormon settlement of Raymond, special stories on the Union Jacks, wire arrangement data and other comment.

* * *

The local boys will probably rate as "prima donnas" after the Raymond series. They are playing to packed houses in the Opera House. Incidentally, the seating capacity has been increased to take care of the spectator demand there.

Major Austin C. Taylor has somewhat of a reputation for doing the right thing—or is it just luck?—in both business and horses. His major stroke appears to be the purchase of this horse Indian Broom which galloped to a new world's record at Tanforan on Saturday and conquered such speedsters as Top Row and Azucar.

* * *

The gallant major, who has done more for horse racing in British Columbia than any one man in the last decade, is reported to have paid only $4,000 for the chestnut son of Broom. If so, he is already declaring big dividends, for the Marchbank purse on Saturday was worth a cool ten grand and it was his third win. Rumor says the horse will now be pointed for the Kentucky Derby.

* * *

The addition of Indian Broom to the classy ACT stable moves major Taylor up among the top-rank owners on the continent. For some years Taylor has completely dominated the scene on British Columbia tracks by either training or acquiring most of the champion runners in sight. His ventures afield were not so profitable, however, and when he campaigned southward the Taylor colors appeared among the also-rans more often than not.

* * *

The present winter has been more fortunate. Special Agent is another smart runner added to his string, and has picked him up several purses.

* * *

B.C. racing fans will be all agog to know whether Taylor intends bringing his record holder north for the summer season. As an attraction, Indian Broom would outshine anything that has raced around here for many a year. Incidentally, with this being Vancouver's Jubilee year, it might be a good time to revive the project of putting on a big stake race in British Columbia.

* * *

There will not be much up here for a horse like Indian Broom to run against and unless a good purse is posted the local fans are not likely to see him in action. Since Longacres made such a success of its $10,000 mile, a similar event in British Columbia has been much discussed by the turf fans. This would ensure some competition. As a jubilee purse it would have a special attraction. A little co-operation between the solons of the Vancouver and Longacres tracks would make it possible for the classy runners coming north for the Renton event to take part in both.

STEELE TO FIGHT SOON

Seattle, April 14 (Associated Press).—Freddie Steele, Tacoma middleweight, signed with Promoter Nate Druxman yesterday for a bout with any available opponent here April 28.

Druxman said he hoped to get one of three good middleweights, Tony Fisher, Newark, N.J.; Young Terry, Trenton, N.J., or Tait Littman, Minneapolis, to meet Steele, who punched out a convincing decision over Eddie "Babe" Risko, world middleweight champion, here recently.

Chapman Brothers Score Late Goals To Break Up Tie

Fighting Spirit Carries Victoria Hoopsters Through in Pinch

Play Is Rugged Throughout Game

By PETE SALLAWAY
Sports Editor of The Times

Raymond, Alta., April 14.—Displaying the same fighting spirit that carried them to the British Columbia championship, Victoria Dominoes were today a game up on Raymond Union Jacks in the western semi-finals of the Canadian basketball playdowns. In a game that for sheer fighting eclipsed any exhibition the Victoria club has engaged in so far this season, the defending Canadian champions turned back the Alberta representatives here yesterday evening 32 to 28.

Playing on a strange floor and before a strange crowd that made the Opera House echo with its wild cheering, the boys from the Capital City of the Coast province pulled the first gam of the two out of three series out of the fire in the dying minutes.

With four minutes and thirty seconds to go, the Raymond boys, putting up the scrap of their lives, got onto even terms for the first time at 28 to 28. The Dominoes, calling on the courage that has featured their many great battles this season, put on the comeback, with those two originals of the 1932 to 33 championship club, Art and Chuck Chapman, driving through for the winning baskets.

Art dribbled the length of the floor to drop through a spectacular shot over his shoulder to give Victoria the lead and Chuck put the game in the bag with a perfect effort from in front.

DOMINOES OFF

Dominoes did not hit their real stride all evening, but it must be said that they were up against a club that was determined to stay in the fight all the way. The Jacks played a stiff man-to-man checking game, clinging to their men like leeches, never letting them get set. The Dominoes were only able to pull one of their block plays all night and on that occasion Porky Andrews missed from right under the basket.

In speed and fast breaks the Jacks equalled anything the Dominoes were able to put over! The calibre of basketball was poor, the players checking too close to permit much combination. It was a case of individual plays.

The first half was nothing more or less than a rugby game, with the players sprawling all over the floor at times.

As a result, thirty-one fouls were called, sixteen on the Dominoes and fifteen on the Jacks.

The clubs settled down somewhat in the last half with ten personals, six on the Jacks and four on the Victoria club.

USELESS THROUGH INJURY

Red Martin, who suffered a sprained ankle in the workout at Calgary Sunday, was useless to the team. He was on the floor for about ten minutes, but his injury slowed

Electrocuted Watching Bout

Canadian Press

Georgetown, British Guiana, April 14.—Samuel King, twenty-two-year-old carpenter who climbed an electric light pole yesterday evening to see the Kid Tanner-Kid Singh featherweight boxing bout, was electrocuted when his head grazed a high tension cable during the exciting ninth round. Bystanders said King bet his last cent on Tanner, British Guiana featherweight champion, and had not enough money to pay admission fee to the grounds.

Tanner won the bout.

KING PATRON OF RIFLEMEN

Duke of Gloucester to Take Over Presidency of National Association

By THOMAS T. CHAMPION
Canadian Press

London, April 14.—The King has consented to become patron of the National Rifle Association, and the Duke of Gloucester its president. King Edward will continue the donation of £250 for the King's Prize.

There could be no doubt, Lord Cottesloe said at the N.R.A. general meeting, that the most prominent factor in making the association and its meetings the centre of the rifle shooting for the empire was the fame and reputation which the King's Prize had.

The Duke of Gloucester, as a soldier, was the right man for the office of president, which the King had held as Prince of Wales. He would continue the contribution which the King, as Prince of Wales, used to give for the Prince of Wales's prize. Its title would now be changed to "The Duke of Gloucester's Prize."

A Reuter dispatch from Johannesburg states that in reply to a request that the government should grant £1,000 towards sending a South African rifle team to Bisley, Major S. R. Lawrenson, secretary of the South African National Rifle Association, was informed that no such grant was possible. It will cost approximately £2,500 to send a team over, and in view of the government's refusal to make a grant towards the cost, a decision has not yet been taken whether it will be possible to compete or not.

GRADS AGAIN HOOP VICTORS

Down Des Moines Girls in Second Straight to Keep Underwood Trophy

Canadian Press

Edmonton, April 14.—Another successful defence of the International senior women's basketball championship and the Underwood Trophy was completed here yesterday by Edmonton Grads when the Alberta outfit defeated Des Moines girls 43 to 37. Grads took the two-of-three series in two straight, having won the first game Saturday 54 to 40.

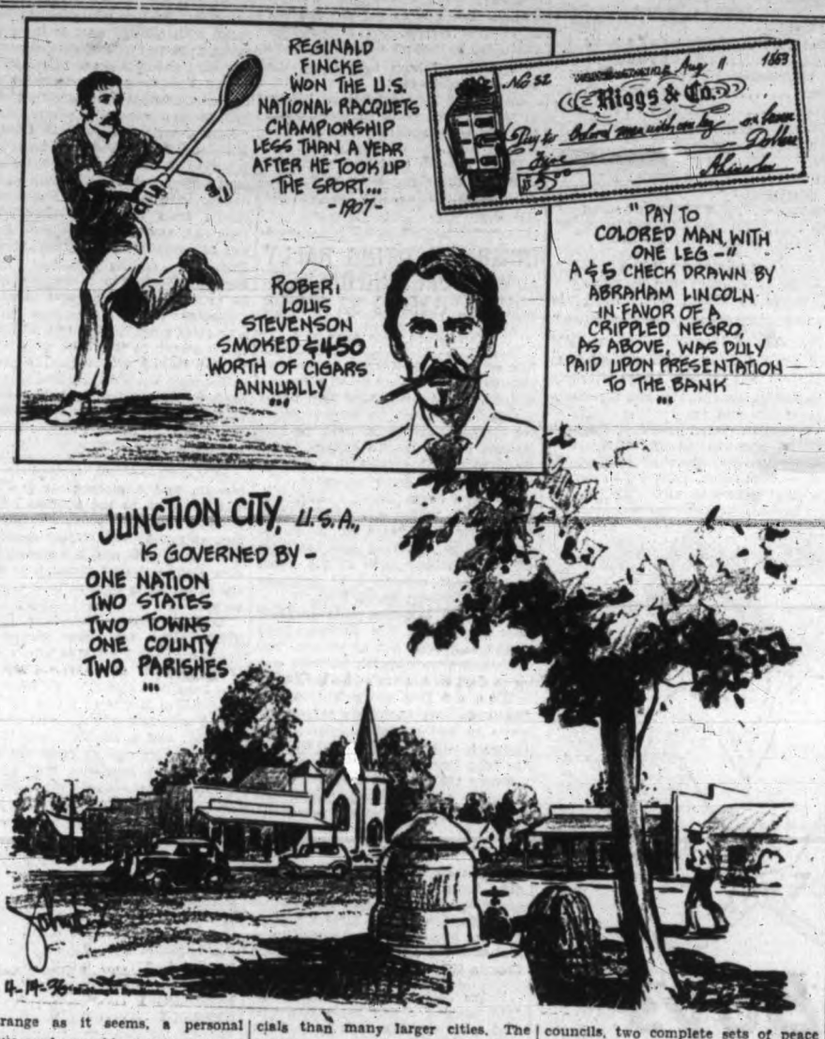
Grads started with a rush and led 14 to 4 at the end of the first quarter, but the United States girls rallied to cut down the margin to 18 to 16 by half time. In the third quarter the Edmonton girls outscored the United States challengers again to make the score 32 to 19. The world champions withstood a concerted Des Moines attack in the final quarter long enough to win 43 to 37.

TO GO TO GAMES

Grads will meet Tulsa Stenos in a three-of-five game series for the international crown, starting April 21, and then, after a month's layoff, they will play their final spring series against El Dorado, Ark., Lion Oilers. Following this last series the Edmonton girls will go overseas for the Olympic Games in Berlin.

STRANGE AS IT SEEMS

—By John Hix



Strange as it seems, a personal cheque made payable simply to "Colored Man, with One Leg" was written by President Lincoln and presented to the crippled man described on the cheque.

The President encountered the man as he walked through a park on his way to the White House on a late summer day in 1863. He listened to the man's story, then drew the strange cheque for $5 in his favor.

Junction City, in Arkansas and Louisiana, is a small town but it operates under once laws and officials than many larger cities. The little town is divided by the Arkansas-Louisiana State line. The part of it in Arkansas is in Union County of that state. The part of it in Louisiana is further divided by the parish line between Union Parish and Clairborne Parish, and is subject in part to the laws of those parishes. Of course Junction City has its own city government, but here again it is divided because of the state line. The part that is in Arkansas has a different government than the part in Louisiana.

There are two mayors, two city councils, two complete sets of peace officers in the city government. Two sets of state laws, two sets of parish laws and a set of county laws also govern parts of Junction City. The only set of laws that really governs the whole place uniformly are the Federal laws. The post office is located on the Arkansas side of the town, hence according to the Federal government, the city is officially Junttion City, Ark., but the government is broad-minded about it and will deliver mail addressed to Junction City, La., or Junction City, Ark.-La.

Tomorrow: Navigation by Parachute.

Great Crowds Assured As Major Leagues Start Play

Associated Press

Chicago, April 14.—A dynamite-charged American League race got the starting gun today.

Eight clubs were scheduled to get away on a gruelling, 154-game stretch which looms as one of the most interesting flag chases in years. Packed with possibilities and questions to be answered, the 1936 junior circuit campaign may provide a hot battle in which pennant hopes, which bloomed so prettily this spring, may be blasted sky high before the halfway post is reached.

Eighty thousand fans were expected to attend the four openers if the weather was favorable.

Detroit was drawn against the Indians at Cleveland, with Schoolboy Rowe the Tigers' pitching selection and Mel Harder on the mound for the tribe. St. Louis, with Knott or Andrews serving them up, was billed to oppose the White Sox in Chicago, with John Whitehead the Sox opening mound choice. Lefty Gomez was slated to go for New York as the Yanks met the Senators in Washington. His twirling opponent will be Buck Newsom. At Boston Dietrich will be on the hill for Philadelphia against Wes Ferrell of the Red Sox.

FEATURE GAME

Interest was centring on the St. Louis game not only because these two teams are favored to win the pennant, but because the Cubs won the 1935 pennant by beating the Cards in the last series of the season, and Warneke, pitching one of the greatest games of his career, played an important part in that series.

With approximately 26,000 reserved seats sold days before the game, the Cincinnati club estimated their crowd at 30,000. The Phillies-Bees were thought to be good for about a crowd of 10,000 and the Cards-Cubs battle for about twice that many.

In the Associated Press poll of sports editors and baseball writers, the clubs were picked to finish as follows: Cards, Cubs, Giants, Pirates, Dodgers, Reds, Phillies and Bees.

Diamond Briefs

By PAUL MICKELSON
Associated Press

New York, April 14.—Notes from baseball's band wagon as it starts rolling along today:

The saddest note of all once was the noisiest. Babe Ruth is missing from the opening day line-up for the first time in twenty-two years. The big fellow, bulging at the hips again despite a winter of golf, planned to watch the Giants and Dodgers inaugurate their campaigns at the Polo Grounds.

Dolly Stark, the first and probably the last of the umpire holdouts, also will be among the missing. Dolly will be on deck, however, as a radio announcer at the Boston Bee-Phillie game.

Connie Mack is liable to get all mixed up and cheer for the wrong man. His shattered Athletics meet the gold-plated Red Sox at Fenway Park. From force of habit, Connie's liable to wave his score card at one of his old hands, stand up and smile if Jimmie Foxx belts over the left field fence, or call on Eric McNair for a rally.

Five new umps will be on hand. Cal Hubbard, Steve Basil and Charlie Johnston for the American League; Lee Ballinfant and Larry Goetz for the Nationals. And they better not get funny with Hubbard. The star lineman for the Green Bay Packers of the national professional football game now is the biggest, toughest guy—when he's mad—in the game.

If tradition means anything, the Cubs should whip the Cardinals and then go on to win the National League flag for the second successive year. It's the league's sixtieth anniversary. The Cubs won the first pennant.

Associated Press

New York, April 14.—The hilarious days of preparation at an end, the National League baseball teams start playing for keeps today.

Fair weather predictions in all cities were expected to boost the attendance at the four games to around 115,000.

The schedule:

Boston at Philadelphia, Pittsburgh at Cincinnati, Chicago at St. Louis, and Brooklyn at New York.

Though the Brooklyn-New York game at the Polo Grounds was attracting the greatest crowd, 55,000, the pitcher's battle between Lonnie Warneke and Dizzy Dean in St. Louis was the league's most exciting game.

Casey Stengel refused to change his early decision to pitch Big George Earnshaw instead of Van Lingle Mungo against the Giants, while Manager Bill Terry stuck to Hal Schumacher as his choice.

In the other game, the Phillies were counting on Curt Davis, their ace, to outpitch the veteran Danny MacFayden of the Boston Bees.

HIGH-PRICED TALENT

The fans will see an array of high-priced talent. Detroit, seeking a third straight flag, presents Al Simmons in centerfield. If the $75,000 outfielder hits, the Tigers may make the race a breeze. If he doesn't star at the plate he is still capable of playing great defensive ball.

The big question is whether Tom Shawkey's cheque-book paved the way for a pennant for his Red Sox. The club with the $300,000 payroll stacks up on paper as a potentially great outfit. Some of the stars, however, may not click in their first year together. Then again, Wes Ferrell and Lefty Grove may not repeat their forty-five games performance of last season, and if they should fall down it isn't likely Boston will threaten.

Nationals Win Junior Hockey

WESLEYS GAIN WIDE ACCLAIM

Memorial Cup Series Losers Get Big Hand for Splendid Fight

Canadian Press

Toronto, April 14.—Coach Hobb Wilson and his courageous bunch of Saskatoon youngsters prepared for their homeward journey today without the coveted Memorial Cup, but they will carry with them the plaudits of Toronto hockey fans as one of the "fightingest" bands of juniors ever to come out of the west.

Wilson promised the youths a trip to Chicago, just as something in return for the battle they gave West Toronto Nationals before dropping a 4 to 2 decision in the junior hockey final yesterday evening, a defeat that handed the Toronto team the only major hockey crown to land in the Queen City this season.

that told," were Wilson's farewell words. They had the finish around words. "The yhad the finish around the nets, something our boys lacked, and they also had the advantage of viewing the pros in action."

WELL SUPPORTED

The support that came from Toronto fans for Wesleys gave Wilson and his crew a real thrill. "And it also was a great help," the coach declared.

He gave his little crew a happy word when they returned to the dressing room, a silent one compared to the boisterous folk in the Toronto showers. Wilson regretted the age limit and professional inroads would leave only Pettinger on the Wesley roster next season.

Pete Leswick, the tricky skating centre, has had a berth with New York Americans of the National Hockey League dangling before his eyes for some time, and the chunky little pivot player is expected to make the jump. The others will be marching into senior amateur company Wilson expects.

West Toronto Squad Downs Saskatoon Wesleys 4 to 2 for Second Straight Win and Takes Memorial Cup Series

Associated Press

Toronto, April 14.—The Memorial Cup, the Dominion's grandest award to the No. 1 junior amateur hockey team, moved on to the trophy shelf of West Toronto Nationals' clubrooms today. It was the climax of a brilliant season for the Toronto youngsters.

When Nationals downed Saskatoon Wesleys 4 to 2 here yesterday evening for a second straight triumph in the final series, they brought Toronto its first major hockey triumph of the season. Where the professionals and senior amateurs failed, West Toronto were successful.

They came out on top of a fighting band of westerners that didn't know the meaning of the word quit. Wesleys, possessing everything for hockey greatness except finish around the opponents' nets, dropped to the acclaim of the eastern crowd.

Nationals won the first game last Friday 5 to 1 and they were warm favorites to end the series in two straight. They did the expected, but only after a rousing struggle that saw them outskate and outplay Wesleys.

West Toronto took advantage of the few opportunities they had and their ability to finish plays inside the Saskatoon defence zone was the main difference in the two teams. They fought from behind, wiped out a one-goal deficit midway through the second period and moved ahead early in the final frame.

WESLEYS SCORE FIRST

One of the smallest crowds ever to witness a Dominion final—3,500—roared joyfully when Frank Dotten punched a goal past Red Hall in the Nationals' net less than four minutes after the start of the game. They had cheered the westerners in the first game and stuck with them despite the hometown victory.

Johnny Crawford fired the tying goal and they went into the third period at 1 to 1. A four-man ganging attack left the Saskatoon defence weak and Red Robertson and Bobby Laurent broke away. Laurent made the goal. Johnny O'Flaherty made it 3 to 1 at 10:28 and the western team was lost.

The tireless Dotten got O'Flaherty's goal back but it meant little as Roy Conacher barged through to pick up Crawford's rebound for the final tally.

B. JAMES WINS GOLF TOURNEY

Turning in a fine net score of 70, B. James yesterday afternoon captured the Painter Cup, symbolic of the annual Easter golf tourney staged by the Army and Navy Veterans in Canada, local Unit No. 12, at Macaulay Point.

Other winners were: Runner-up, Horace McClung; tombstone, Harry Hume; best on the sixth, R. Darcus; longest putt, L. L. Phillips, and longest drive, A. H. Cowlishaw. A special prize was awarded K. G. Peddon.

Prizes were presented the winners at a dinner held in the clubrooms, Wharf Street, by President J. S. Scarfe. Following the dinner a smoker was held at which the following entertained: H. Rochon, W. Draper, J. C. Rivers, C. Butler, Reg Saunders, A. Gerrard, Al McKinnon, J. Day and Buster Brown.

WILL FORM DOG FANCIERS CLUB

Organization of New Group to Take Place at Meeting on April 22

With the idea of promoting more point shows on the island, the organization of the Vancouver Island Dog Fanciers' Association will be carried out at a meeting to be held in The Colonist boardroom on Wednesday evening, April 22, at 8 o'clock.

With the organization of the new body, many long-felt wants of local and island breeders and fanciers will be fulfilled. The plans will call for two shows annually, in addition to those staged by the Victoria City Kennel Club.

Officers will be elected at the meeting. An invitation is extended to all dog fanciers on Vancouver Island to attend.

Other information may be obtained from Mrs. C. Bloomfield, acting secretary, telephone G 4788.

An enjoyable dinner was held on Saturday evening last in the Empress Hotel, when it was decided to form the organization. Up-island guests were present. J. R. H. Irving, director of the Canadian Kennel Club for British Columbia, of Vancouver, was the honored guest.

THREE SOCCER GAMES BILLED

One First and Two Second Division Matches Slated for Saturday

Victoria City and Victoria West, first division soccer elevens, will play in the Jackson Cup soccer series, at the Athletic Park, Saturday afternoon at 2.30 o'clock. Dave Swan will handle the fixture. It will be a semi-final.

In case the two teams finish deadlocked after the ninety minutes of play, there will be overtime.

With the league championship at stake, Esquimalt and Victoria West, second division soccer squads, will meet at Bullen Park. These teams are deadlocked in first place, and a win for either will give it the pennant. Al McKinnon will referee.

Another second division fixture will bring together Saanich Thistles and Victoria City at Heywood Avenue, with T. M. Robb in charge.

N. STAPLES WINS DUNCAN GOLF

Duncan, April 14.—Nat Saples was the winner of the men's monthly medal competition played on the links at Duncan on Sunday with a net score of 67, handicap 24, gross 91. Clayton Wright, handicap 16, and J. L. Maitland, handicap 17, tied for second place with net 69's.

Others taking part were J. A. Prevost, R. E. Bales, N. J. Martin, F. Leeming, E. W. Carr Hilton, R. C. Mainguy, T. E. M. Medley, D. Crane, R. W. Whidden, J. Martin, N. R. Craig, H. R. Punnett, C. C. Wright and Dr. V. W. Tarlton.

Next Sunday the qualifying round of the club championship will be played. Entries must be in by Friday.

Jimmy Todd Beats Bob Morrison and Retains City Golf Title

PLAYS STEADY GOLF ON LAST NINE FOR WIN

Morrison Slips After Rally and Defending Titlist Scores 3 to 1 Victory

Brynjolfson Wins First Flight Prize

Carrying a two-hole lead on the first eighteen into the afternoon round, Jimmy Todd of the Victoria Golf Club, defending title-holder, played steady golf at the Uplands yesterday to beat Bob Morrison, Uplands, 3 and 1 in the thirty-six-hole city championship final. Todd came back on the home stretch after losing two holes to make the turn on the second eighteen all-square.

He went one up on the twenty-ninth again, halved the thirtieth and thirty-first, took a two-hole lead on the thirty-second, when Morrison ran into grief, carding a six to Todd's four, halved the thirty-third and thirty-fourth, and ended the match on the thirty-fifth with a four to Morrison's five.

The play climaxed an exceptionally keen tourney. The entry was small but select, and the standard of competition exceptionally high as the finalists came through tough opposition to meet in the last bracket.

Harold Brynjolfson, Uplands, beat Walter Newcome, Gorge Vale, 4 and 3, for the first flight honors. Brynjolfson's victory in the flight came after a string of hard luck which deprived him of medal honors in the extra nine-hole play-off with Harold Pretty, and saw him slip from the championship flight, the victim of Sandy Marling.

Morrison played exceptionally good golf, going out in the afternoon. He cut Todd's two-hole lead to one on the nineteenth with a three and the pair halved the twentieth and twenty-first with fives and fours, respectively. Morrison squared the match on the twenty-second with a three to Todd's four, and they finished the outgoing holes all even, and divided the twenty-eighth.

TODD'S MATCH

From that point on it was Todd's match.

W. H. Mearns, vice-president of the club, presented prizes to the winners at the close of the championship round.

A large gallery followed the finalists and saw some pretty shot-making, particularly in the morning round when Todd completed the first eighteen in par.

LONGSHOT WINS

Havre de Grace, Md., April 14 (Associated Press).—Howard Bruce's Jay Jay, a longshot, beat a field of more favored rivals yesterday to capture the $5,000 Added Harbord Handicap, six furlongs test for three-years-olds and up.

Although linked with J. E. Hughes's Silent Shot in an entry, Jay Jay, three-year-old chestnut gelding by Wise Counsellor, paid $29.70 for $2 mutuel tickets to win.

Hafey Abandons Comeback Hopes

Victim of Sinus Affliction, Former Toast of National League, Staying Home

Associated Press

Walnut Creek, Calif., April 14.—Five years ago Chick Hafey was the toast of the National League.

Today, while the major baseball circuits were celebrating the opening of another season, the bespectacled outfielder somewhat dejectedly, said:

"I guess I'll have to give up the idea of a comeback."

He led the National League hitters in 1931 as a St. Louis Cardinal. Early last spring he suddenly left the Cincinnati Reds.

Hafey believes he is the victim of a sinus affliction. Four operations have brought relief, but not permanent correction.

DOMINOES DYING RALLY WINS OPENING BASKETBALL GAMES 32 TO 28

(Continued from Page 9)

him down to a walk while he was unable to take a chance going after rebounds. Goldsmith, who held down his position, must be congratulated for coming through in such an important clash. Martin expects to be ready to take his place as a regular for the second game tomorrow.

Raymond Jacks looked a much improved club to the one which played in Victoria three years ago. No doubt this is the result of the coaching of Brule Robison, one of the finest players ever developed at Brigham Young University, Provo, Utah.

The Jacks lost the game on their poor shooting of free throws. They scored only four out of sixteen. The Raymond boys dropped through one more field basket than the Dominoes.

With the first game history, the Dominoes still figure on taking the series in two straight games. They realize it will be no walkover to whip the boys from the sugar beet country.

Today the Victoria players are enjoying a rest and were the guests of the Raymond officials on sightseeing trips.

PLAY TOMORROW

The teams will meet in the second game tomorrow night and a third, if necessary, will be played here Saturday. The winner will meet Winnipeg Toilers, Manitoba champions, in a best-of-three series for the Western Canada title.

Union Jacks, Alberta titlists since 1920, playing a new style this year that tends to make their game faster, were weak around the basket and their poor shooting probably cost them the game. The Vancouver Island experts never led by more than seven points.

At the end of the first ten minutes, Dominoes were ahead 14 to 9, and kept pace with the Albertans the remainder of the first half, which ended 18 to 13. Victoria still had a five-point advantage—24 to 19—after ten minutes of the second half. Jacks outscored the coast outfit during the remainder of the game, but only by one point and Dominoes walked off the floor with a 32 to 28 victory.

George "Porky" Andrews, Victoria right forward, was high scorer in the game, getting nine points. Other top marksmen for Dominoes were Art Chapman, centre, with eight, and Doug Peden, left guard, with seven.

For Raymond, Wilfred Van Orman, left forward, rattled the basket for eight points, Ken Hague, right guard, six, and Fred Turner, right forward, five.

All players played well and neither team boasted an individual star.

Turner of Raymond and Peden of Victoria retired from the game in the second half after each had been guilty of four personal fouls.

VICTORIA OPENS SCORING

Victoria took the initial tip and Rolfson fouled Doug Peden the first basket shot. A moment later Turner fouled Andrews and the Victoria forward opened the scoring, sinking both attempts. Turner was fouled and notched the first Raymond marker. Victoria tore through Jacks' defence and Andrews scored the first field basket, following it up with a foul point. Peden snapped another goal through the hoop to make it 7 to 1 for Dominoes. Turner got Raymond's first field goal with a clean shot from the side.

Andrews and Goldsmith collected a foul point for the British Columbia champions and the count was 9 to 3. Nalder replaced Fred Turner at left forward for Jacks. Van Orman counted a gratis heave for Raymond and Peden counted via the same route for Victoria. Goldsmith whipped another goal through for Dominoes and the Coast team substituted McKeachie for "Chuck" Chapman. Andrews counted a field goal for Victoria and Jacks fought back with a foul point by Nilsson and goals by Ken Hague and Van Orman to make the score 14 to 9 at the ten-minute mark.

PERSONALS PILE UP

Jacks substituted Turner for Ken Hague. Rolfson and Art Chapman missed free tosses. The two Chapman boys had three fouls apiece as the teams continued to play a rough and rugged style of game. Rolfson, Jacks guard, also had three personals against him. Raymond were playing a stronger floor game, but they were missing set-ups around the hoop. Art Chapman notched a foul for Dominoes and both teams subbed, "Chuck" Chapman for Art, and Ab Hague for Nalder. Turner tossed in one from the corner and "Chuck" Chapman came back for Dominoes. Martin replaced Goldsmith, Victoria forward.

Nilsson sank a rebound and Peden ended the first half scoring by tossing a one-handed heave through the circle from ten feet out to make the count 18 to 13 for Dominoes.

RAYMOND FIGHTS BACK

Dominoes subbed Art Chapman for McKeachie and Jacks replaced Nalder with Ken Hague. Fred Turner collected his fourth personal for rearguarding Peden and Doug opened the scoring with a gratis toss to make the count 19 to 13. Ken Hague scored the prettiest basket of the game thus far when he whipped the ball through on a break-away play by three Raymond players. Peden scored a foul point, but Rolfson answered for Raymond with another goal to bring the count to 20 to 17. Jacks were making a grand fight of it against the highly-touted Victoria outfit, stemming the British Columbia attacks with a close man-to-man checking game.

Van Orman fought one through from under the hoop to bring the count to 20 to 19, but big Art Chapman pulled the Victoria club out of danger with a foul toss and a neat basket from the side. Jacks called time out, and as play resumed Rolfson collected his third personal with Dominoes adding another point through Martin to make the score 24 to 19 with ten minutes to go.

Andrews and Art Chapman hooped a brace of goals for Victoria, but Raymond stayed in the fight with tallies by Van Orman and Nadler. Dominoes called time out with thirteen minutes elapsed. Resuming play, Rolfson tossed a beauty for Jacks to bring the count to 28 to 25.

SCORE TIED

Dominoes subbed Goldsmith for Martin, and a moment later Peden was thumbed to the showers for his fourth foul, McKeachie replacing him at guard. Van Orman made his free heave good and a moment later Ken Hague flashed through to knot the count 28 to 28 with four minutes to go.

Desperate, the Victorians fought grimly. Art Chapman picked off brother Chuck's rebound and worked it through on an overhead shot to put Dominoes two up. Ab Hague replaced Ken Hague at guard for Raymond with one and one-half minutes to play, and a moment later Chuck Chapman let one go from the sidelines to put Dominoes four up and the champions stalled for the remaining moments of play to end the game, ladling 32 to 28.

GUIANA CHAMP BEATS SINGH

Georgetown, British Guiana, April 14.—Kid Tanner, featherweight champion of British Guiana, hammered out a ten-round victory over Kid Singh, much-traveled lightweight, in a gruelling bout here yesterday evening before 5,000 spectators.

There were no knockdowns, but Singh was groggy when the final gong sounded. He weighed 130½ pounds, Tanner tipped the scales at 120 pounds.

San Francisco, April 14. — Eddie Booker, San Jose negro welterweight, came out of an enforced retirement yesterday evening and christened the new Sport Palace here by knocking out Mickey Barker of Seattle in four rounds. The match was scheduled for six.

Other fights reported by the Associated Press yesterday evening follow:

New York — Billy Celebron, 146, Rockford, Ill., stopped Cleto Locatelli, 143½, New York (10).

Chicago—Edwin Waling, 127, Detroit, outpointed Nick Scalba, 126, Chicago (8).

Washington—Al Delaney, 178, Buffalo, N.Y., outpointed Charles Massera, 183, New York (8).

Pittsburgh—Al Quaill, 160½, Pittsburgh, outpointed Gene Dundee, 157½, Brooklyn (10).

Miami Beach, Fla.—Joe Knight, 169, Daytona Beach, Fla., outpointed Max Marek, 184½, Chicago (10).

All Is Peace on Calgary Sunday

Dominoes Find Alberta's Leading City Tomblike; Red Martin's Injury Explained

By PETE SALLAWAY
(By Mail)

Calgary (enroute with Dominoes to Raymond).—Victorians who think their town is quiet on a Sunday want to visit Calgary. It is a criminal offence here to sell a package of cigarettes on the Sabbath. Visited a restaurant to buy a package and the proprietor handed them to me as if they were smuggled jewels.

* * *

Misfortune hit the club at the workout when Red Martin, clever forward of the first string, turned his ankle when he tripped over a ball. He was immediately rushed off the floor and Manager Dave Nicol and Secretary Frank Elliott went to work on the injured member. Although it started to swell it was not thought to be serious. On the way to Lethbridge Martin planned to keep his foot in an ice pack so as to relieve the swelling.

* * *

The boys had no difficulty in keeping going at top speed at this high altitude. They said they found no trouble with their wind, and felt just as good as when they play on the Coast. They are in such splendid condition the thin air is not expected to cause them any noticeable discomfort.

* * *

Although going through the Rockies at night the players saw quite a bit of the scenery. The famous spiral tunnel was reached just at dusk, and this marvelous piece of engineering was a revelation to most of them. It was a very clear night, and the grandeur and beauty of the massive peaks was not lost entirely. With the majority of the players going "over the hill" for the first time, their comments on the spectacle were interesting.

* * *

Arriving at Field the boys had a good stretch, and the two basketballs and softball were in great demand. When the conductor announced Banf as the next stop all the Victoria party piled out of the train in a rush for the telegraph office to find out the result of the hockey games.

When it was learned Kimberley Dynamiters had won the Allan Cup a cheer went up.

The victory of the Detroit Red Wings over Toronto to end the Stanley Cup series brought divided enthusiasm.

Calgary was reached at 12.30 o'clock Sunday morning, and the private car of the team was left at the station. Without the train motion to trouble them the boys made up for lost time, and nobody stirred out of the sleeper until 10.30 o'clock.

* * *

This Alberta city greeted its visitors with brilliant sunshine and the temperature was quite high. The Dominoes seem to be packing the fine weather with them from Victoria and so far on the trip they have been favored with ideal conditions. Two days before the team reached here there was still snow on the ground but today it had vanished except for a few traces on the outskirts of the city.

Calgarians are still talking about the terrible winter they experienced.

* * *

After breakfast the party split up and went on sightseeing trips. One of the guides was Andy Naismith, a cousin of the famous Canadian Dr. James Naismith, who invented the game of basketball. Andy is well known in Victoria where his parents have a home on Rockland Avenue.

* * *

Seen on the automobile ride were the Crescents Heights High School, where Premier Aberhart taught school before he took over the leadership of the provincial government, and the Bible Institute Building, where he delivered his first speeches on the now famous Social Credit.

Another interesting sight was the exhibition grounds where the Calgary Stampede is staged every year. Lloyd Turner's new ice arena and the massive Calgary Stadium, home of the Calgary Bronks rugby football team, were visited.

* * *

The boys were taken out to look over the beautiful links of the Calgary Golf and Country Club and to see the massive new barracks under construction. The latter, when completed, will be one of the finest in the Dominion. Three big stucco buildings have been erected while the parade grounds are ready. Leveling work has been started on the big flying field.

* * *

The Victoria boys saw the sight of their lives when they were taken on a tour of inspection of the C.P.R. shops at Ogden. Occupying six acres and all under a single roof the plant employs 1,000 men. It is the most modern plant of its kind in Canada and has an eight hour payroll of $17,000.

* * *

Just learned that Joe Louis our negro porter has put through a request to accompany the team on its entire trip. Since leaving Vancouver he has become a real pal to the players and nothing is too much trouble for him. Manager Nicol and other officials of the Dominoes intend to make every effort to keep Joe with us. They figure he represents Good Luck. Joe is a native of Calgary and even if he doesn't remain on our car he says he is going to see the games in Raymond, so the Dominoes are certain of one good supporter.

Doug Grant Tops Badminton Lists

Dick Birch, Vancouver, second in Canadian Rankings; Margaret Taylor, Kelowna, Loses Top-Spot Among Women to Mrs. W. R. Walton

Montreal, April 14.—Douglas Grant of Winnipeg, chunky youth who came out of Halifax three years ago to establish himself as Canada's best badminton player, tops the men's rankings for 1936, announced in the April issue of Lawn Tennis and Badminton by Robert D. Forster.

In retirement a year because of illness, Grant climaxed a fine comeback last month by winning the Canadian singles title at the Canadian championships in Winnipeg. Rod Phelan of Toronto, 1935 champion who headed Forster's rankings a year ago, dropped to third place behind Grant and Dick Birch of Vancouver.

Mrs. W. R. Walton of Toronto went to the top of the women's list by virtue of her victory in the National championships, replacing Margaret Taylor, Kelowna, B.C., southpaw.

THE RANKINGS

Men—1, Douglas Grant, Winnipeg; 2, Dick Birch, Vancouver; 3, Rod Phelan, Toronto; 4, Jack Storey, Toronto; 5, Jack Sibbald, Woodstock; 6, Johnny Samis, Vancouver; 7, Jack Underhill, Vancouver; 8, Joe Zaharko, Toronto; 9, Bev Mitchell, Ottawa; 10, Eric Leney, Duncan, B.C.

Women—1, Mrs. W. R. Walton, Toronto; 2, Margaret Taylor, Kelowna, B.C.; 3, Mrs. Anna Kier Patrick, Vancouver; 4, Mrs. G. G. Pirt, Winnipeg; 5, Ruth Robertson, Ottawa; 6, Margaret Robertson, Ottawa; 7, Vess O'Shea, Vancouver; 8, Elizabeth Kennedy, Montreal, and Barbara Mitchell, Edmonton; 10, Virginia Whitehead, Winnipeg.

GOLDEN MILLER BEATEN AGAIN

Cardiff, Wales, April 14.—Mrs. F. Ambrose Clark's Sorley Boy today won the Welsh Grand National steeplechase at 3½ miles, 50 yards. Quoted at 8 to 1 Sorley Boy was a length ahead of Free Wheeler, owned and ridden by Louis E. Stoddard Jr. of New York.

Dorothy Paget's Golden Miller, odds-on favorite at 4 to 6 ran third, trailing Free Wheeler by three lengths. Eleven ran.

BOBBY KIRK IS TOP MARKSMAN

New Haven, April 14 (Canadian Press).—Wee Bobby Kirk of Winnipeg and Vancouver appears destined to advance further along the trail to hockey prominence next season. The fleet little wingman of Philadelphia Ramblers won the scoring honors in the Canadian-American League, the final official statistics revealed yesterday.

Kirk notched twenty-two goals and was credited with twenty-nine assists for a fifty-one-point total.

Manager Lester Patrick of New York Rangers has been greatly pleased with Kirk's playing on the blueshirts' farm club, which won the league championship after leading from start to finish. Kirk will be given a tryout with the senior club next season.

WINS GRAND PRIX

Monte Carlo, April 14 (Associated Press).—The Grand Prix, Europe's auto racing classic, was won yesterday by Rudolf Caracciola, a German driver, who covered the 318 kilometres through city streets in 3 hours 33 minutes 15 seconds.

200,000 Boys Ride C·C·M·Bicycles To School Every Day

BOYS know what to look for in a bicycle and they know in a couple of days' riding whether or not they have got "it".

That is why on every school day over 200,000 boys gaily mount their C.C.M. Bikes and ride easily and swiftly off to school. They got what they expected in their C.C.M.'s and they told their pals.

When you go to buy a bicycle look for the things that over 200,000 boys have found in their C.C.M. Bicycles.

The "straight-line drive" is the final proof of C.C.M.'s precision methods of manufacture. You will find that the perfectly straight alignment of the two sprockets under all riding conditions causes the chain to run smoothly and with a minimum of friction. Ride the bicycle and you will see that the back wheel tracks in a perfectly straight line behind the front one. These are the things that make for smooth, effortless riding.

Check the pedals and crank hanger and note the easy-running qualities of C.C.M. bearings. Look for a real coaster brake that is free-running yet quick and smooth-acting as a brake. C.C.M.'s Hercules coaster brake is everything a brake should be. Look at the wheels and see that the spokes are rustless and that the tires are the famous Dunlops. Look the entire bicycle over completely for every detail of what you think a bicycle should be.

If you look for all these things, and remember also that 200,000 other boys have done the same thing and then bought a C.C.M., you too will buy a C.C.M. Bicycle.

BOMBS START MADRID PANIC

One Killed and Several Hurt in Rush Started by Harmless Petards

Associated Press

Madrid, April 14.—One police lieutenant was killed, another was seriously wounded, and a number of civilians were trampled and beaten in the capital today during a celebration of the fifth anniversary of the founding of the republic.

The disorders began when a series of bombs were exploded behind the President's reviewing stand as a military parade was passing through the centre of the city.

The blasts, which hurt no one, created panic among the spectators, with many injuries resulting from the crush.

The explosions echoed through the streets of the capital like machine gun fire, but actually the effect was produced by a series of petards.

QUICK POLICE ACTION

Police and assault guards rushed to the scene and soon brought the crowd under control.

The explosions occurred near the box where diplomats and their guests were viewing the parade, but none was injured.

The threatened panic was placed under control quickly, and the parade continued without interruption.

Spain celebrated the fifth anniversary with jubilant observances by Republicans throughout the country.

Police expressed the belief Fascists were behind the bomb incident as a demonstration against the republic. They arrested Isidro Estefania, a forty-three-year-old cook, as having set off the fireworks. The police claimed he was intoxicated and took him to a hospital.

Robert Guy, K.C., Is Visiting Here

Robert D. Guy, K.C., general counsel for the Winnipeg Electric Company and prominent barrister of Manitoba, is at the Empress Hotel on a holiday visit.

Mrs. Guy is a daughter of Rev. F. B. Duval, pioneer Canadian divine, of Winnipeg.

Mr. Guy has long been identified with the Manitoba Bar, being a former president, also a bencher of the Law Society of Manitoba. He is a member of the council of the Canadian Bar Association.

Mr. Guy is a member of a large Winnipeg group now visiting the city, including Major Charles Newcombe, of the Workmen's Compensation Board of Manitoba, and L. J. Reycraft, C.P.R. solicitor.

ANGLING NOTES

There were many boats in the Cowichan River at Riverside over the holidays and fishing conditions were spoiled considerably. There were not many good catches. A number of anglers, however, had some luck dry fly fishing. This spot of late has become one of the most favorite for local fishermen.

* * *

Cutthroat are rising plentifully in Prospect Lake at the present time, and fly fishing seems to be the most successful. They have just begun to rise there and should improve daily.

* * *

Trout are also rising well in Thetis Lake now and are being caught chiefly by trolling. It is possible to get some on a fly.

* * *

Cecil Heaton, well-known local angler, reported today that a goodly number of fish were taken from the Sooke River over the week-end.

* * *

Stan Williams announced this morning that grilse fishing in the Saanich Arm is falling off and catches are on the small side. He says the only spot in the arm that seems to produce many grilse is the Goldstream end. The time is getting near now for the small springs to show themselves in the arm and fishers will be getting ready for them next.

* * *

Excellent sea fishing is to be had now off the breakwater. One angler reported that in half an hour with a spinner outfit and a plug he landed three good-sized ling cod. They weighed between four and five pounds each. Other spots in the straits are said to be quite well stocked with cod and a few springs are in evidence.

* * *

If the present weather keeps up it is certain to help trout fishing, as it will bring out many good hatches of flies, and then the fly fishermen will be able to step in.

* * *

A number of fishermen motored to Shawnigan Lake over the holidays. The fishing was fair, several getting good bags, but it is expected to improve rapidly with the warmer weather. The fish caught were all of good size and were taken on the fly.

PENDER ISLAND WANTS FERRY

Pender Island, April 14.—At a joint meeting of the Farmers' and Women's Institutes held April 9 in Hope Bay Hall, it was unanimously decided to urge that the ferry Cy Peck call at Pender Island each Wednesday during the summer months to give much-needed additional connection with Victoria.

J. S. Stigings, president of the Farmers' Institute, presided.

The meeting also took up the matter of the resignation of Dr. T. R. Roberts, district health officer.

Dr. Roberts, who succeeded the late Dr. West a little more than a year ago, finds himself faced with a difficult problem in the matter of transportation, and it was felt than an urgent situation had arisen. The meeting, after discussing the matter, appointed A. H. Menzies and Spencer Percival to interview the Minister of Health.

VARIETY IN ISLAND ROADS

Excellent Piece of Construction Leading to Alberni

Motorists who took time off over the Easter week-end for a trip up-island were reporting stretches of the Island Highway that can be classed as good, bad and indifferent.

One motorist said that the Island Highway around Sproat Lake was in very bad condition, and still showed signs of having been hard hit by winter frosts and in sore need of repairing.

Other up-island travelers explained that there is an excellent piece of reconstruction work on the Alberni Mountain Road, which reaches from Alberni to Cameron Lake. The road there has been built on the same standard as that stretch recently completed at Goldstream. It is banked well on the curves and has a fine foundation that permits one to ride over it with decided comfort.

Many bad spots were encountered, but motorists were glad to see a number of gangs doing repair work on the highway yesterday.

TO PRODUCE PLAY FOR MILK FUND

In the production of "Tons of Money," which the Victoria Little Theatre Association will present at the Empire Theatre on April 21 and 22 in aid of the Rotary Club Milk Fund, one of the most important roles will be in the hands of Mrs. Betty Hetherington. Mrs. Hetherington, who has been president of the Little Theatre Association during the current season, is one of the most charming and talented amateur actresses in Victoria.

In "Tons of Money" she plays the part of Louise Allington, whose bright ideas inspire the whole action of the play. Every time Louise has an idea, Aubrey, her husband, gets into trouble. Much of the humorous dialogue and fast action of the play depends on Louise, and the director has been fortunate in obtaining the services of this talented actress.

Other members of the cast are: H. J. S. Reynolds, Mrs. A. E. Harris, Miss Peggy Josephs, H. J. Davis, Natalie Long, Arthur Long, Chas. Gibbard, Leo Marsden and Art Dawe.

SETS SOCCER SCORING MARK

Canadian Press Cable

Luton, April 14.—Scoring ten goals in Luton Town's 12 to 0 victory over Bristol Rovers in a Third Division, Southern Section, English Football League match here, J. Payne set a new league record yesterday. The leaders of Luton's forward line surpassed by one the mark set by R. G. Bell, Tranmere Rovers, December 25, when the northern section club swamped Oldham Athletic 13 to 4.

Early reports yesterday stated Payne had scored but nine goals to equal Bell's record. Late dispatches, however, credited him with an extra tally and a new record.

NEWS IN BRIEF

The Esquimalt Ratepayers' Association will meet tomorrow evening at 8 o'clock in the St. Paul's Parish Hall. All members are requested to attend.

After a tour of inspection of police divisions in the Kootenay area, T. W. S. Parsons, assistant commissioner of B.C. Police, returned to the city over the week-end.

On Wednesday evening at 8 o'clock, Rev. Dr. E. A. Henry will show a fine set of lantern slides in Fairfield Church on "Missions Around the World." It will be the last of a series of lectures presented this winter.

The local council of the Amalgamated Civil Servants of Canada will hold its monthly meeting at 8 o'clock tonight in the clubrooms on Bastion Street. All members are urged to attend.

A special meeting of the Twentieth Century Liberal Club of South Saanich will be held this evening at the Douglas Street headquarters. All members are urged to attend as important business will be discussed.

The meeting of the Ward Four Saanich Ratepayers which was to have been held this evening in the Marigold Hall has been postponed to a later date which will be announced.

The weekly card party of the Victoria West Liberal Social Club will be held this evening in the clubrooms, 414 Skinner Street, at 8 o'clock. Good prizes will be awarded to the winners. At 7 o'clock the executive of the club will meet.

The Hickman-Tye hardware store on Yates Street was entered during the week-end by thieves who made their way into the premises down the elevator shaft, according to a city police report. Nothing was reported missing.

William Ordano will leave Victoria between 4 and 5 o'clock tomorrow morning in an attempt to reach Port Angeles on his "finner," dual-float craft propelled with hand paddles. Mr. Ordano is forced to leave at that hour because of the tides.

On his retirement at the end of April, F. Napier Denison, director of Meteorological Observatory at Gonzales, will receive six months' leave of absence in tribute to this thirty-seven years' service with the government, according to word from the Dominion offices.

An informal meeting of the Victoria branch of the United Empire Loyalists will be held tomorrow evening at 8 o'clock at the home of Dr. W. B. Gunn, the president, on Victoria Avenue. An entertainment programme has been arranged and all members are urged to attend.

A daffodil tea will be held tomorrow afternoon at the Victoria City Temple from 3 till 5 o'clock. There will be home cooking, afternoon tea, and an attractive programme will include dances by Sonia Slavina of the Russian School of the Dance; recitations by Gwen Phillips and vocal solos by Kathleen Clarke.

Any man who served with the Australian, New Zealand or Imperial Armies, of the British Navy at Gallipoli in 1915, is eligible to attend the annual dinner of the Gallipoli veterans which will be held at Douglas Hotel Saturday evening, April 25 at 7.30 o'clock. Tickets must be obtained within the next few days from the secretary, R. A. Clarke, phone G 2216.

Pride of Victoria No. 55, Orange Juvenile Association, held its regular meeting in the Orange Hall on Saturday with Miss E. Rogers presiding. There was a good attendance and it was decided to hold a silver tea after the next meeting which will be held on Saturday, April 25. Members of the adult lodges and juveniles are invited to the meeting.

Brahms's "Requiem" will be performed at Christ Church Cathedral Wednesday, April 22, by the Victoria Choral Union of 150 voices, and an orchestra of sixty players. This performance will be dedicated to the memory of King George V. This work is held by some to have been written in memory of Schumann, by others in memory of the composer's mother. It has nothing in common with the ordinary Requiem Mass. Admission to the Cathedral will be by programme only. Programmes can be obtained at the Memorial Hall, Fletcher Bros., or from any member of the choral union or orchestra.

William Harkness Wins New Honors

With two additional honors, William Harkness, local magician, holds the Hoffman trophy, representing the Pacific Coast championship in sleight of hand tricks, returned from Seattle and Tacoma yesterday.

Mr. Harkness was given honorary memberships in Ring Forty-nine, Seattle, and Ring Sixty-four, Tacoma. The rings are organizations affiliated with an international order of magicians.

Mr. Harkness performed at the annual banquet of Ring Sixty-four at the Winthrop Hotel, Tacoma. On Thursday he will return to Seattle to take part in a performance to raise funds for the annual convention of the Pacific Coast Magicians' Association, to be held in Seattle in July.

Caryl Fleming, president of the association, and Caro ("Gig") Miller, father of the late Marilyn Miller and also a well-known magician, will arrive in Victoria this afternoon for a short visit as guests of Mr. Harkness.

DIES ABOARD SHIP

Vancouver, April 14 (Canadian Press).—Word was received here of the death of Mrs. Carrie Elizabeth Saunders of Vancouver aboard the Canadian National Steamship Company's vessel Prince Rupert yesterday as the ship was en route to Prince Rupert.

Mrs. Saunders came to Vancouver about fourteen years ago from Illinois.

CLUB LUNCHES ON SHIPBOARD

Kiwanians Dine on Ss. Princess Elizabeth and Hear Capt. C. M. C. Fleming

Members of the Kiwanis Club went nautical today when they lunched aboard the Ss. Princess Elizabeth in the Inner Harbor and listened to an interesting talk on cable-laying by Capt. C. M. C. Fleming, master of the Cs. Restorer. W. A. Luney, president of the club, occupied the chair.

The intricacies of cable-laying were described by Capt. Fleming, whose ship has often repaired and laid cable in the Pacific Ocean, between Banfield and Fanning Island.

Before a cable can be laid, the captain said, it was essential that soundings and the nature of he ocean bottom be known. It was necessary to avoid rough spots as far as possible, he said. The Banfield-Fanning Island cable was about 3,500 miles in length and was the longest in the world.

ECONOMICAL WHEN IDLE

A cableship, unlike other ships, was never expected to earn her keep, Capt. Fleming said, but she was one of the most valuable pieces of equipment owned by a cable company. Without her a company would be unable to carry on. Again unlike other ships, a cableship was most economical when idle alongside her dock. Expenses were then at a minimum, he said.

"We do our own calculations on board," Capt. Fleming said. "A great deal depends on the skill of testing for a break by the electricians. The first thing in cable-laying is to get the position of the break. We must have a good position before starting out. All operations are then carried on relative to that point. The cable must always follow the contour of the bottom. You then have no portions suspended in gullies, for instance."

CABLE CHEAP NOW

Capt. Fleming said cable was cheaper at the present time than for many years. It now costs about $750 a mile. The average cableship had over 100 miles of cable in her tanks. The buoys carried varied in size according to the depth. The big ones weighed five tons, and they were used for holding up five tons of cable. Cable was paid out over the bow, Capt. Fleming said. There was more control over it when used this way. If paid out over the stern the ship was inclined to wander, he said.

Capt. Fleming described in some detail the method of laying the cable, the detecting of a break and the method of working. Much depended on the weather, he said, and the skill and experience of the workmen.

Entertainment was provided at the luncheon by Mr. and Mrs. Harold Groves and clever little Joy Groves. Mr. Groves gave a monologue entitled "Water Scenes," with Mrs. Groves at the piano and Miss Groves gave her impressions of "There was an Old Woman," as it would be recited in Canada, London, Paris and United States.

Ralph Mathews thanked Capt. Fleming and also the B.C. Coast Service for providing such an excellent luncheon. R. J. Beattie, chief clerk, took the thanks of the club to his head office.

PLANS RETURN HERE TO SING

His voice still husky from an attack of laryngitis which prevented him from singing at a recital scheduled for last night, Arthur Cranmer, prominent English baritone and adjudicator at the recent Victoria Musical Festival, this morning expressed the hope that he would be back in Victoria to sing some time next month.

Mr. Cranmer will leave Victoria tomorrow for Edmonton. He hopes his voice will be sufficiently restored to permit him to sing there on Friday. The next day he will go on to Winnipeg, where is will adjudicate in the Manitoba Musical Festival.

In Winnipeg Mr. Cranmer will rejoin David T. Yacamini and Harold Samuel, who will also adjudicate at the Manitoba festival.

The Winnipeg contests will give the three adjudicators even more work than they had in Victoria. Some of the classes, according to Mr. Cranmer, include as many as 100 entries.

At the conclusion of the Manitoba festival the trio will come back to the coast to adjudicate at Vancouver. It is at the end of the Vancouver festival that Mr. Cranmer hopes to be able to come over to Victoria to sing.

Mr. Cranmer is staying at the Windermere Hotel.

Bogus Silver In Circulation

A warning to city merchants to be on the lookout for bogus silver coins which are being circulated in the city, was issued today by Police Chief Heatley. Three coins, two nickels and a quarter, were turned over to the chief this morning by B.C. Electric officials who reported the money had been turned in for fares.

There are also spurious fifty cent pieces around and police request that merchants keep a close check on all spurious silver handed in that its origin might be traced.

He is survived by his widow and two daughters, Orma and Margaret, at home; and four sisters, Frances, of Moose Jaw, Sask.; Mrs. R. J. Mumford, Winnipeg; Mrs. B. Atkinson, Portland, Ore., and Mrs. M. Chester of Idaho.

MARKET NOTES

Business suffered the usual post-holiday lapse this morning on wholesale row, though this may have been partly due to the fact that a boat bringing a large quantity of produce to Victoria was not expected in till late this afternoon.

On board this ship is a cargo of two carloads of bananas for the city. Also a car of lettuce from the Salinas Valley, California; a mixed car of carrots, cabbages and cauliflower from California, and a car of celery and asparagus.

The latter is the largest single shipment of asparagus to arrive in Victoria. Prices for this table delicacy are expected to be the lowest this year at the end of the week.

* * *

The orange market is reported firmer with advances of 15 to 25 cents a case on smaller sizes

* * *

The grapefruit market is up with wholesale prices higher by 35 cents a case.

* * *

The first strawberries from California are expected this week

* * *

The butter market is said to be very firm.

* * *

The control board has reduced the prive of local hothouse tomatoes and cucumbers. The latter will retail for 10 cents each, two for 25 cents, 15 and 20 cents each, according to size.

* * *

Tomotoes are quoted at between 35 and 40 cents a pound in local stores.

* * *

The movement in seed potatoes is quickening with the advent of warmer weather.

MOVIE GROUP AT ROYAL OAK

Three More Days' Work Left on "Gunsmoke," Started Early in February

Called from their beds early this morning when the sky showed signs of staying clear, the cast and technical staff of the Central Films' western picture, "Gunsmoke," were putting in a full day's work at Royal Oak today.

Three more days' production will see the last scenes shot and the last cans of film sent down to Hollywood for processing.

After that there will be a couple of days' wait until the company receives the final reports from Hollywood, with instructions for any possible retakes.

STARTED IN FEBRUARY

Work on "Gunsmoke" was started during the first week of February. All indoor scenes were completed in about ten days. Then the weather broke, making outdoor work impossible. After some delay it was decided to shelve the picture and to go ahead with the production of "Secret Patrol," mounted police picture, with the same cast.

"Secret Patrol" also was jinxed by the worst spring weather in Victoria's history. After many days, during which the cast and staff sat about the lobby of the Dominion Hotel doing nothing, the film was finally finished some two weeks ago. Since that time there have been further delays in "Gunsmoke," caused by rain and cloudy skies.

Today the company is looking hopefully at the sky and wondering if the weather is at last going to give it a break.

Today's Baseball

Cincinnati, April 14.—Billy Hafey hit the first home run of the major league season in the first inning of the Pittsburgh-Cincinnati game today. His wallop, together with an error and doubles by Suhr and Lavagetto, gave Pittsburgh a 3 to 1 lead in the first inning.

Chicago, April 14.—St. Louis Browns went on a home-run hitting spree in the fourth inning today to take a 3 to 1 lead over Chicago White Sox in their season's opening game. Roy Bell connected with one of the circuit blows and Ed Coleman followed with another. Both were hit off Johnny Whitehead with the bases empty.

The case was scheduled to proceed today but was again adjourned owing to the illness of Gordon Cameron, defence counsel.

A Small Piano for the Modern Apartment

The large upright piano is out of place in the modern apartment, and so piano manufacturers have produced the small apartment upright, retaining all the beauty of tone of the larger instrument. Today in our window you will see two of these smaller pianos by Canada's leading manufacturers. They are quite inexpensive and can be purchased on the easiest of terms. Come in—let us tell you more about them.

WILSON HAS 201 AVERAGE

Tops Olympic Senior Bowling League With Consistent Rolling

Ron Wilson's sweeping hook ball rolled him into top place in the Olympic Senior Tenpin League for the third time, during the season which closed last week, according to averages released by the secretary today.

Wilson scattered the maples for Macdonald's Consolidated consistently throughout the season, finishing with an average of 201.8 for the full schedule of seventy-five games. In second place, less than half a percentage point behind was Les Fox, Straith's anchor man, who had an average of 201.4 for fifty-four games.

Harold Paulding, lanky Poodle Dog trundler, took third slot with 199.

High three-game for the season was 706, rolled by Fox, and high single 289, posted by Jack McLennan of Straith's.

TO RELEGATE LOW SCORERS

Announcement was made by the secretary that as the result of an agreement with the Olympic Commercial League all senior bowlers who had averages of less than 180 will drop to commercial class next season. All commercial bowlers with averages of 180 or over will be elevated to senior company. Five senior bowlers were below the 180-mark, but probably only four will be relegated, because A. Riddell, with 177, rolled only a few scheduled games before injuries prevented him from playing the rest of the season.

The senior bowlers are now arranging a team to go to the Pacific Northwest International Bowling Congress in Portland next month.

The league averages follow:

Duncan Wins From Nanaimo Eleven

Nanaimo, April 14.—The invading Duncan United football squad, battling here Sunday, secured a 5 to 4 victory over the local Harewood Athletics, in an Up-island Senior Football League match.

Duncan was trailing the Harewood boys 4 to 2 at the interval, but came back strong in the final half to pile up three markers and hold their opponents scoreless.

At South Wellington the home squad had little difficulty in defeating Nanaimo Southend, 4 to 1, in the same series. The wins practically gives the league championship to South Wellington.

WRESTLER BITES REFEREE'S LEG

Phoenix, Arizona, April 14.—Several hours after announcing his return to the boxing wars, Max Baer refereed a wrestling match and demonstrated both his footwork and handwork.

When Jack McArthur, New York, bit him on the leg, the former heavyweight champion nimbly sidestepped to safety, and when Chief Chewaki slugged him he knocked the grappler to the canvas with a hefty right.

A.O.F. Trundlers Win Championship

Arthur Manson skippered his squad of A.O.F. bowlers to victory yesterday evening over the Duncan Elks at Duncan and won the Davis Cup symbolic of the carpet trundling championship of Vancouver Island. The score was 16 to 11.

Play began at 10.30 in the morning, and continued all day. Other members of the A.O.F. group were: W. B. Colvin, J. Townsend and J. Berry.

Following the match the cup was presented to the winning team by C. F. Davis.

Turnips Arrive From Edmonton

It is usually the other way around, but Victoria is importing turnips from Edmonton.

This is the first time in years that the local market has had to go to the prairies for vegetables.

Wholesalers were forced to do this because they could not get turnips from anywhere else.

The Edmonton turnips are reported to be of good quality. They will retail at about seven pounds for twenty-five cents.

They are from pits.

SIGNS WITH LEAFS

Toronto, April 14 (Canadian Press).—Manager Conny Smythe of the Toronto Maple Leafs of the National Hockey League announced today Gordon Drillon of Moncton, N.B., had signed with the Leafs. Drillon played last season with Pittsburgh Yellow Jackets, a United States amateur team.

Drillon, who plays right wing and centre, will join the Leafs on their western Canada exhibition tour with the Chicago Black Hawks. He played with Toronto amateur teams in the 1934-35 season.

WOULD LIMIT WORKING AGE

President Roosevelt Opens Election Campaign With Speech at Baltimore

Associated Press

Baltimore, April 14.—Offering the suggestion that the active working years of every breadwinner in the United States be limited to forty-seven, President Roosevelt has placed before the nation a broad outline of the New Deal's position on the major problem of unemployment.

Amid the cheers of supporters who had gathered for a Democratic rally after an old-time torchlight parade here yesterday evening, Mr. Roosevelt called on youth to be "social pioneers" and help "bring under control the forces of modern society."

Devoting most of his address to a discussion of the continuing large-scale unemployment, the President promised it would be attacked "from every conceivable angle." But it was his suggestion for limits on the wage-earning life span that aroused much discussion and speculation today.

LIMITS AT BOTH ENDS

Raising the question whether it is not "possible and right to limit the active working ages at both ends," Mr. Roosevelt said:

"Work out for yourselves what would happen if all the boys and all the girls of fourteen and fifteen and sixteen and seventeen who are now working in industry, found it possible to stay in school until they were at least eighteen years old. How many jobs would that give to the young people of the nation who have graduated from high school and from college?

"In the same way, ask yourselves how many jobs would be created if the great majority of people who are now over sixty-five—to take a figure at random—were in a position to retire in security for the balance of their days on earth."

Mr. Roosevelt did not indicate whether the administration is planning specific proposals along these lines beyond the social security and other programmes already enacted.

NRA OBJECTIVES

But he did indicate that the New Deal, despite the invalidation of the NRA, still hopes to attain certain of that experiment's objectives. He said the government "must and will give consideration" to shorter hours, stability of employment and "adequate minimum wages."

Again, he called on industry to "undertake reasonable reductions of hours of work per week, while, at the same time, they keep the average individual's pay envelope at least as large as it is today."

In advancing his new suggestion for an age limit on workers, Mr. Roosevelt posed the problem by asserting the total production of the nation was about back to the high point before the depression, but that only 80 per cent as many human beings are engaged in turning out that production.

"We cannot legislate against greater efficiency nor can we legislate against the use of new tools—nor would we if we could," he said.

"We in your government are seeking to extend the school age in every state of the union and to make it easier for boys and girls to stay in school," he continued.

TENDERS FOR DREDGING

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Dredging, Prince Rupert, B.C.," will be received until 12 o'clock noon (daylight saving), Thursday, May 7, 1936.

Tenders will not be considered unless made on the forms supplied by the Department and in accordance with the conditions set forth therein.

Combined specification and form of tender can be obtained on application to the undersigned, also at the office of the district Engineer, Post Office Bldg., New Westminster, B.C.

Tenders must include the towing of the plant to and from the work.

The dredges and other plant which are intended to be employed on this work, shall have been duly registered in Canada on or before the thirty-first day of December, 1929, or shall have been constructed and registered in Canada since the said date.

Each tender must be accompanied by a certified cheque on a chartered bank in Canada, made payable to the order of the Honorable the Minister of Public Works equal to 5 per cent of the amount of the tender, or Bearer Bonds of the Dominion of Canada or of the Canadian National Railway Company and its constituent Companies unconditionally guaranteed as to principal and interest by the Dominion of Canada, or the aforementioned bonds and a certified cheque if required to make up an odd amount. In no case shall the security deposit be less than $500.00.

By order,
J. M. SOMERVILLE,
Secretary.
Department of Public Works,
Ottawa, April 7, 1936.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Floating Breakwaters, Prince Rupert, B.C.," will be received until 12 o'clock noon (daylight saving), Thursday, May 7, 1936, for the construction of floating breakwaters at Fishermen's floats, Prince Rupert, Skeena District, B.C.

Plans, form of contract and specification can be seen and forms of tender obtained at the office of the Chief Engineer, Department of Public Works, Ottawa, at the offices of the District Engineer, Post Office Building, New Westminster, B.C.; Victoria Builders Exchange Ltd., 1712 Douglas Street, Victoria, B.C.; The Building & Construction Industries Exchange, 342 West Pender Street, Vancouver, B.C.; also at the Post Office at Prince Rupert, B.C.

Tenders will not be considered unless made on printed forms supplied by the Department and in accordance with conditions set forth therein.

Each tender must be accompanied by a certified cheque on a chartered bank in Canada, payable to the order of the Honorable the Minister of Public Works, equal to 10 per cent of the amount of the tender, or Bearer Bonds of the Dominion of Canada or of the Canadian National Railway Company and its constituent companies unconditionally guaranteed as to principal and interest by the Dominion of Canada, or certified cheque if required to make up an odd amount.

Note.—The Department will supply blue prints and specification of the work on deposit of a sum of $10.00, in the form of a certified bank cheque payable to the order of the Minister of Public Works. The deposit will be released on return of the blue prints and specification within a month from the date of reception of tenders. If not returned within that period the deposit will be forfeited.

By order,
J. M. SOMERVILLE,
Secretary.
Department of Public Works,
Ottawa, April 7, 1936.

IN PICTURE AT THE DOMINION

James Cagney and Pat O'Brien, with pretty June Travis, are to be seen in "Ceiling Zero," the picture, which is now at the Dominion Theatre.

DOMINION SHOWS "CEILING ZERO"

James Cagney and Pat O'Brien Have Leading Roles in Story

That inimitable film team of James Cagney and Pat O'Brien, who made such outstanding hits in "The Irish In Us," "Devil Dogs of the Air," and other pictures, are again co-starred in the Cosmopolitan production "Ceiling Zero," which will be shown at the Dominion Theatre for a limited engagement beginning today.

The picture, which is based on the successful Broadway stage play by Lieut. Commander Frank Wead, is packed with thrilling action, dynamic drama, comedy and romance.

It is the story of three war buddies who are thrown together in commercial aviation.

Cagney, O'Brien and Stuart Erwin have the roles of the three buddies. O'Brien is superintendent of flyers at a western airport where Erwin is a pilot. Cagney is the most spectacular aviator of them all and Pat gets him to join their forces.

June Travis, a newcomer to the screen, has the leading feminine role, that of an air hostess.

Martha Tibbetts plays the part of O'Brien's wife, with whom Cagney has had an affair in the past.

Isabel Jewell plays the role of the wife of the pilot sent to his death through Cagney's philanderings.

PLUNGES TO DEATH

New York, April 14 (Associated Press).—Mrs. Irma Ferulli, fifty-nine-year-old wife of G. Umberto Ferulli, reputed millionaire, was fatally injured yesterday in a fall from her Fifth floor apartment on West End Avenue. Police said she jumped from a bathroom window.

THELMA JOHNS TO BE HEARD

Thelma Johns is cast as Princess Inez of Toreara in Basil Horsfall's opera, "The Bandit Princess" to be produced at the Royal Victoria Theatre on Thursday, Friday and Saturday of this week. She has a particularly difficult role to handle, but one to which she is peculiarly suited. The music falling to this part will give the artist an opportunity to reveal her voice at its best.

EMPIRE THEATRE

Of the many historical romances which have lately been transferred to the screen, "Nell Gwyn," which is at the Empire Theatre, with the lovely Anna Neagle playing the "pretty, witty Nelly" and Sir Cedric Hardwicke, the bishop of "Les Miserables," as her royal lover Charles I, stands out as the most colorful and entertaining.

Handsomely mounted and superbly directed by the producer, Herbert Wilcox, "Nell Gwyn" lifts the gaudier and gayer incidents of Nell's career bodily from the pages of the matchless diary of that arch-gossip, Samuel Pepys.

PLAYHOUSE THEATRE

The dark Latin good looks of Nino Martini, who in the opinion of opera critics possesses the finest voice of any tenor since Caruso, fit him for the star role of "Here's to Romance," at the Playhouse Theatre.

Martini, who appears with Genevieve Tobin, Anita Louise, Maria Gambarelli and Reginald Denny in this Jesse L. Lasky production, plays the principal role in the picture, the story of an opera star's private life and loves.

COLUMBIA THEATRE

If Irving Berlin thrills to a popular musical number, it must be good.

When "Palooka," Reliance's new comedy starring Jimmie Durante, Lupe Velez and Stuart Erwin, showing today at the Columbia Theatre, was being filmed in Hollywood, Berlin was an interested visitor on the set during the recording of the musical numbers.

CAPITOL THEATRE

"Follow the Fleet's" big musical number "I'd Rather Lead a Band," is regarded as the sensational song and dance number of the new Fred Astaire and Ginger Rogers's new starring comedy opus with music by Irving Berlin. It was photographed on the big battleship set. It is a seven-minute routine performed by Fred Astaire and a chorus of twenty-four sailors and is destined to take its place with "Carioca," "Continental," "I Won't Dance" and "Cheek to Cheek" in the public fancy. "Follow the Fleet" is now at the Capitol Theatre.

BANDITS FREE MISSIONARY

R. A. Bosshardt, Swiss, Held Eighteen Months by Outlaws in China

Associated Press

Yunnanfu, Yunnan Province, China, April 14. — R. A. Bosshardt, Swiss member of the China Inland Mission arrived here today exhausted and emaciated after eighteen months of captivity in the hands of bandits whom he described as communists.

The missionary said he was released in the northeastern section of this province in southwestern China after his captors became tired of his presence. He went to a hospital for treatment.

Bosshardt and a British associate, A. Hayman, were captured during October, 1934, in eastern Kweichow province. Hayman was released last November. Bosshardt's release terminated one of the longest periods of capture of a missionary in China in recent years.

Further Yunnanfu advices said communist campaigners were within twenty miles of that provincial capital, but that the city was defended strongly.

Gun Stolen From Bank Is Found

Canadian Press

Vancouver, April 14.—City police today had in their possession a revolver identified as stolen from the Main and Prior Street branch of the Bank of Montreal on January 13, when three bandits held up the bank and escaped with approximately $2,000.

The revolver was found yesterday in a ditch near the Shaughnessy Golf Club and given to Royal Canadian Mounted Police officers, who turned it over to the city police.

Rev. Alan Gardiner will preside over the Extramural examinations of Queen's University on April 15 and 17, at the rectory on Grafton Street.

Selling Depresses Stock Leaders On New York Exchange

Associated Press

New York, April 14.—Selling concentrated in industrial specialties, motors and rails sent leading shares to around four points lower in today's stock market.

The closing tone was weak. Sales approximated 2,200,000 shares.

An active period of selling during the forenoon was followed by a lull that carried through to the fourth hour when some rather large-sized blocks of stocks were offered at further concessions which carried prices to about the lowest of the day just before the close. There was a slight rebound in the final minutes.

Shares ending in a 1 to 4 point lower range included Columbian Carbon, J. I. Case, DuPont, U.S. Steel, Bethlehem, General Motors, Chrysler, Douglas Aircraft, Union Carbide, Westinghouse, Montgomery Ward, Standard Oil of New Jersey, U.S. Industrial Alcohol, American Telephone, North American, New York Central, Delaware and Hudson, Sante Fe and Union Pacific.

A few issues in the metal group displayed resistance and ended unchanged or a shade higher. Corn products also was supported.

There was no late news to lighten the air of pessimism that pervaded board rooms during the forenoon, accentuated somewhat by selling orders from Europe, following reopening of the markets abroad after the Easter holidays.

Corporation bonds were generally to the offside. There was some improvement in foreign currencies. Cotton was lower.

A late rally in wheat and other grains featured commodity markets. Wheat advanced ⅞ to 2 cents a bushel and corn was ⅜ to ¾ of a cent higher on news that crops in some states had suffered severely from drought conditions.

BRISK SELLING AT MONTREAL

Canadian Press

Montreal, April 14.—General lack of interest led to brisk selling that depressed prices as much as two points on the Montreal Stock Exchange today.

Noranda, a feature, moved up to 55½ before dipping to lose ⅜ at 54⅝. Smelters eased two and Nickel ½. Liquors and papers were quiet and slightly lower.

STEEL PRODUCTION

New York, April 14 (Associated Press).—The American Iron and Steel Institute today estimated steel production during the current year at 67.9 per cent of capacity, the highest since the summer of 1930, and compared with 64.5 in the preceding week and 60.0 a month ago. A year ago production was at the rate of 44.0 per cent of capacity.

The advance in the current week is 3.4 points, or 5.3 per cent over the preceding week.

Crop-damage News Brings Sharp Rise In Chicago Wheat

Associated Press

Chicago, April 14.—In abrupt right-about-face action, wheat jumped more than 2 cents late today, influenced by reports southwest Kansas crops are practically a complete loss.

An official statement said the last three months in Kansas have been the driest in fifty-five years. Other advices said that owing to heat and drought much wheat in southwestern states is near to the wilting stage.

Wheat closed strong, ⅞ to 2 cents above yesterday's finish, May 96¾ to 96⅞, July 87¼ to 87⅜; corn ⅜ to ¾ up, May 60⅝ to 60¾; oats ¼ to ⅜ advanced, and provisions unchanged to a rise of 20 cents.

Winnipeg, April 14.—Crop-damage reports from the United States southwest brought a measure of recovery on the Winnipeg Grain Exchange today. Wheat prices closed unchanged to ¼ cent higher, May at 81⅛, July 82⅛ and October 83 cents.

Bullish advices from the winter wheat belt offset the continued lack of demand abroad for Canadian wheat, enabling values to recover from early session weakness.

Prices at Chicago finished above the previous close, Liverpool's trend was irregular, coincident with trade reports France may soon export further quantities of wheat. Prices there closed ¼d lower to ⅛d higher.

Small sales of No. 4 northern wheat for shipment at the opening of navigation on the Great Lakes was the only interest shown in the cash grains market. Coarse grains prices, weak at the start, firmed in the market's late stages.

Reliance Feature Trader of Steady Vancouver Market

Canadian Press

Vancouver, April 14.—Only narrow price changes occurred with the resumption of trading in the morning session of the Vancouver Stock Exchange today after the four-day Easter holiday.

Trading volume was a little larger than that of the morning session of last Thursday, sales totalling 595,000 shares against 426,000 shares.

The market generally had a firm tone.

Bralorne firmed 5 cents to $7.90, while Pioneer, neighboring mine in the Bridge River district, lost 5 at $10.30.

Minto closed lower on the session with a loss of 1 cent at .87 cents. It was high at 90 cents. Sales totalled 50,000 shares.

Reliance was the heaviest trader on the board with 154,000 shares, closing 1½ cents higher at 8 cents, and Quesnelle Quartz turned over 30,000 shares at 13 cents.

Nicola turned more active and gained 1 cent at 12 cents, and B.C. Nickel eased ½ cent to close at 32 cents.

Congress gained ½ cent at 23½ cents, Premier brought $2.34, Hedley Amalgamated 28, Gold Belt 19½, Cariboo Gold $1.42 and Dentonia 19½ cents.

In the oils, C. & E. lost 3 cents at $1.27, Nordon climbed 1½ cents at 22 and Mercury held unchanged at 15½ cents.

Tarzan And the Fire Gods

As the safari mounted higher into the Ghenzi Mountains, the American geologist became interested in the curious rock formations that surrounded them. He said to Tommy: "I think I perceive in this moun ain range some interesting evidences of upthrust by compression."

"Whatever that means, it's jake with me," Tommy shrugged; "but what do we do about it?" "Let's camp here for the day, and I'll have a look around," Dr. Jones smiled. "That's also jake," his companion responded cheerfully; "I'm fed up on this climbing anyway."

As Dr. Jones started on his survey, Tommy stopped him. "Say, ain't you going to take one of these boys along? And you'd better take this big gat, too." "Oh, I'll be all right," the other replied. "I won't go far, and this will be plenty of protection." He tapped his tiny .32.

Jauntily, enthusiastically, the geologist swung away northward toward an intriguing canyon. He planned only a miniature exploration of the immediate vicinity, but his scholarly journey was destined to be transformed into the most momentous adventure of his life!

The Gumps

Dorothy Dix's Letter Box

DEAR MISS DIX—I am a young man about to be married to a very fine girl, but the trouble is that my mother insists on living with us because she does not want to be separated from me, and my future wife is unwilling to have her. She says she could not be happy living with my mother; that my mother is too persistent and bossy and, besides, she wants us to start off alone. My mother is financially independent, so it is not a question of my having to take care of her. Do you think my financee is selfish in asking me to put my mother out to live alone, and if she refuses to have my mother in our home, should I give her up or give my mother up? PUZZLED MAN.

Answer: I think your financee is a level-headed, far-seeing young woman and that she is saving you, your mother and herself a lot of grief by settling the mother-in-law problem before marriage, instead of letting it make all three of you miserable after marriage. Not once in a thousand times can a man's wife and his mother live together in peace and harmony and she has sense enough not to take any chance on the miracle happening to her household.

There is no use in saying that both your mother and your prospective wife are good women and that because they both love you and desire your happiness they should love each other. The things that good in-laws can do to each other are beyond belief, and love for the same man doesn't automatically draw two women together. It fills them with jealousy and causes them to tear to tatters the unfortunate man over whom they fight.

Of course, this should not be the case. It just happens that it is, and you will save yourself a lot of trouble if you do not insist upon your wife and mother living together. Believe me, no man in the world is placed in such a cruel position as the one who sees the two women he loves stabbing each other with poisoned daggers, with mean little speeches, with subtle insults, with all the little acts with which women know so well how to torture each other, and who has to arbitrate their quarrels and listen to their complaints against each other.

Consider the situation dispassionately and you will see how little chance there is of a mother-in-law and daughter-in-law living happily together. To begin with, there is you, which each of them will feel she has a right to monopolize. No woman short of a saint can see her son absorbed in his wife and giving her his kisses, his little attentions, his first consideration, without a pang of jealousy. Nor can any woman who is not an angel view her husband turning to his mother for counsel, for help, for understanding, without getting green-eyed.

Then there is the constant conflict over running the home. The older woman feels that she should be the authority because of her years of experience and her knoweldege and skill. The younger woman feels that it is her home and she has the right to run it as she pleases, and she resents the suggestions and advice and the meddling of mother-in-law, who cannot keep her fingers out of the pie to save her life.

The chances for unhappiness for both the mother-in-law and the daughter-in-law are so great if they attempt to live together that the risky adventure should never be tried except in cases of dire necessity. Certainly no woman who is financially able to have her own home should ever force herself upon her children, because she is not only bringing trouble down on her own head, she is jeopardizing their marriages.

Family quarrels are ugly things. They always leave wounds that never heal. Avoid this tragedy by telling your mother that you believe every young couple should start out housekeeping by themselves, but that you will live near her where you can see her every day. In that way you will preserve the peace and your mother will be far happier, because she will have her own home that she can run as she pleases, and she and your wife will become friends, as they would never be if they lived together and were continually on each other's nerves.

• • • • • •

DEAR MISS DIX—How can I decently end an engagement with a young lady? I have deliberately and politely asked for my liberty but to no avail and have done my best to get her to tell me to go to the "Vale of Gehenna," but without results. I have rushed other girls she disliked, but it did no good. I have done everything I know how to make her angry so I could make my getaway, but she doesn't get visibly angry, just hurt and sad. The situation is one that calls for drastic measures and I am at my wits' end to know what to do. Can you suggest a decent and honorable way out? FRED.

Answer: I should think that the thing to do would be to just come out flat-footed and tell the girl in plain and unmistakable language that you do not love her, and that you do not intend to marry her now or ever, that the whole affair is washed up. Finished. Done.

Inasmuch as it is difficult to tell the brutal truth in a convincing fashion to one who professes to love you, I would further suggest that you put your ultimatum in writing rather than deliver it by word of mouth. On such occasions women have a way of casting themselves on a man's breast and bursting into sobs, declaring they will die if he leaves them, and as it takes a strong character to resist being wept for, many a man gives in and lets himself be washed on a flood of tears to the altar with a woman of whom he is sick and tired even before marriage.

If you lack the backbone to act the part of a man, emulate the tactics of a balky mule. Refuse to budge an inch nearer the church. Make no more dates with the young lady. Don't answer her telephone calls Use passive resistance. After all, no woman, no matter how determined she is, can force a man to marry her if he puts his back up and refuses to do so. Anyway, I urge you to stand firm and not let any designing female marry you against your will. For the girl's sake as well as your own. There are no more unhappy marriages than those entered into by men who make a little near-love that they never intend her to take seriously to a girl and who find that they have tied a knot with their tongues that they can't untie with their teeth, as our colored friends say.

UNCLE WIGGILY'S FLOWER GARDEN

By HOWARD R. GARIS

Now that Easter had passed, Uncle Wiggily began to think of making his garden. The jolly old rabbit gentleman always had a garden back of his hollow stump bungalow. In fact, he had two gardens, one for flowers and the other for vegetables.

I suppose you all know the difference between flowers and vegetables. Roses are flowers and carrots are vegetables. But there is a vegetable which is called cauliflower, which may seem funny to you, for though it looks like a white flower, it tastes like cabbage.

"I think I shall plant my garden today," said Uncle Wiggily.

"Which one?" asked his wife, "the vegetable garden or the flower garden?"

"Flowers today," said Uncle Wiggily. "I'll plant my vegetable garden tomorrow."

"I think that will be lovely," said Mrs. Longears. "This is the month of April, and you know it is an old saying, 'April showers bring May flowers.' I hope there will soon be flowers to pick."

"First I must plant the seeds," said Uncle Wiggily.

With a shovel Uncle Wiggily turned up the moist brown earth at the end of his yard back of the bungalow. He smoothed the earth with the rake. The sun beamed down and warmed the earth. To make the seeds grow, after they have been planted in the earth two things are needed, warmth from the sun and water from the rain.

"But we always have plenty of rain in April," said the rabbit gentleman.

When the ground was smooth he made little holes in it and in the holes he planted seeds. Then he covered the seeds with soil.

Putting flower seeds in the ground in spring, you know, is like wrapping little babies in warm beds where they can snuggle down and grow or it is like putting eggs under the warm feathers of a hen who cuddles them until little chickens grow inside the eggs and pick their way out with their little bills.

Uncle Wiggily planted his flower seeds, raked the warm brown earth over them, as mothers pull the warm woolen blankets over their babies in cribs, and then he hopped into his bungalow.

"How long before there will be flowers in your garden, Unkie Wig?" asked Baby Bunty, the orphan rabbit.

"Oh, in a few weeks," answered Mr. Longears.

"That's a good while," said Bunty. "Don't you wish they would be flowers sooner, Unkie Wig?"

"Well, all flowers take time to grow," said Mr. Longears. "We must be patient, Bunty."

"Yes, I suppose so," said the orphan rabbit.

But a little while after that Baby Bunty came hopping fast to Uncle Wiggily and, very much excited, she called to him:

"Oh, Unkie Wig! Unkie Wig! Come quick! There are flowers in your garden already. Beautiful flowers with sweet perfume!"

"No Bunty. It can't be," said the rabbit gentleman.

"But come and look!" said Bunty.

Uncle Wiggily hopped out in the yards. Surely enough, there were some red, blue, yellow and pink flowers coming out of the brown earth.

"How in the world did my flowers grow so quickly?" cried Mr. Longears.

"I'l tell you how," said Nurse Jane, as she ran out and gathered the flowers. "Baby Bunty pulled a lot of artificial cloth flowers off my hats and off your wife's hats and stuck them in the ground. She even sprayed perfume on them from your wife's atomizer."

"Ha! Ha!" laughed Uncle Wiggily. "So that's how my garden blossomed so quickly "Well, the real flowers will grow soon." He took up the hat flowers, gave them back to his wife and Nurse Jane and didn't scold Baby Bunty. And if the rye bread will stop making funny faces at the Swiss cheese, I'll tell you next about Uncle Wiggily's vegetable garden.

HOROSCOPE

"The stars incline, but do not compel"

WEDNESDAY, APRIL 15, 1936

Although adverse signs contend with benefic influences today, according to astrology, good fortune appears to be widely and generally distributed under this planetary government.

In the morning hours the stock market may be uncertain due to legislation that affects agriculture and adds anxiety to taxpayers.

Industry will be affected all through the summer by unrest among workers and stubborn strikes. Dissension in labor organizations may be far-reaching.

Women come under stimulating planetary influences that presage prominence in public affairs. They are to apply their housekeeping experience to civic reforms, it is prophesied.

This should be a happy wedding day, although the stars do not promise wealth. Long partnership is foretold. The children will prove their ability to gain success.

Theatres should profit today. Motion pictures are to gain through remarkable inventions and wise selection of scenarios. Again the stage is to be popular.

Persons whose birthdate it is have the augury of a year of business and financial success, but there may be numerous perplexities and disappointments. Both men and women should choose new friends carefully.

Children born on this day probably will be exceedingly individual and independent. Subjects of this sign may be gifted writers.

Henry James, novelist, was born on this day, 1843. Others who have celebrated it as a birthday include Bliss Carman, Canadian poet and journalist, 1861, and John Lothrop Motley, historian, 1814.

CAPTAIN GETS TWO TROPHIES

Traditional Gold - headed Cane Goes to Master of Ss. West Wales at Montreal

Montreal, April 14.—The Ss. West Wales, British tramp freighter from the Argentine, steamed into port late yesterday, her freshly painted sides cutting a neat figure as she nosed into pier 3, the first sea-going vessel to reach Montreal this season.

Her blasting whistle heralded the earliest ocean arrival since 1902. Capt. F. C. Nicholls will receive the traditional gold-headed cane, presented each year by the Port Authority to the deep-sea skipper who opens navigation. With it will go a silver cup, gift of James Wilson and Company Limited, a new award this season.

The freighter was preceded by two hours by the Rosecastle, collier from Sydney, N.S. The collier arrived bedecked with bunting, her whistles echoing across Montreal. She was the first big ship to enter the harbor. In the St. Lawrence coal trade under charter, she is not eligible for the deep-sea honors.

No ice breakers preceded the ships on their voyage through the Gulf and up the St. Lawrence. The West Wales steamed from Louisburg, where she coaled, through clear water, stopping only at Grondiness where she anchored Sunday night.

Harbor officials met the freighter and greeted her forty-one-year-old skipper, who was making his first visit to Montreal since 1918. Capt. Nicholls has been with West Wales since she was launched, seven years ago. With him on his voyage from the Argentine was his ten-month-old Irish setter, Peter, who took the honors far more excitedly than his master.

The trip from the Argentine was without incident, the captain said. West Wales left La Plata, South America, March 16, with a cargo of linseed, and except for rough weather off Louisburg, conditions were ideal.

Vessel Sank In Twelve Minutes

Port Dover, Ont., April 14.—A gaping seam in the bottom of the steam fishing tug Wilma sent her to the bottom of Long Point Bay on Lake Erie today, but Captain Duncan McLeod and his crew of five escaped.

The Wilma, owned by the Wilma Fish Company of Port Dover, had been out in the bay an hour and twenty minutes when a seam began to open. The crew attempted to stop the leak by stuffing quilts in the hole, but the boat filled with water and sank in twelve minutes.

GULF ISLANDS FERRY CO. LIMITED

Will Air-condition C.N.R. Trains Soon

Plans Now Being Made to Bring National System Thoroughly Up-to-date; First New Cars For Western Service

Montreal, April 14.—Good progress is being made with the air conditioning of equipment for use on the lines of the Canadian National Railways, according to C. W. Johnston, general passenger traffic manager of the system. Work is being rushed on a number of air-conditioned sleeping cars for use on the transcontinental route to Vancouver, Mr. Johnston said today, and it is anticipated air-conditioned service will be available on this route before the hot summer weather commences. These cars are being converted in the company's shops. In addition to air-conditioned service between Vancouver and points in eastern Canada, air-conditioned cars will be available for the Canadian National Chicago connection via St. Paul.

ON WESTERN ROUTES

"Our plans for rushing air-conditioned equipment on the main services of the Canadian National as soon as it is feasible to do so are in line with the companys' policy of furnishing the latest in travel comfort and service to the public" said Mr. Johnston. "The first sleepers to be air conditioned in our shops will be used on the western service. Air conditioned cars will be available from Vancouver to points in eastern Canada and also in our Chicago connection via Winnipeg and St. Paul. On our international services in the east we have been able to secure air conditioned Pullman equipment and some of this is already in service on the International Limited route between Chicago and Montreal as well as the Washingtonian and the Montreal. Our trains connecting Montreal with the American capital via New York, Philadelphia and Baltimore. The Pullman Company is supplying additional air conditioned sleepers for the Montreal-Chicago service at the rate of five per week. "After making a very careful study of the various types of air conditioned cars in use on other railways our mechanical officers have selected an air conditioning system which will afford the taveling public the maximum of comfort and at the same time can be installed and operated economically and is particularly suited to Canadian climatic conditions.

SEALED WINDOWS AND DOORS

"The cars have sealed windows and doors which are practically air tight when closed. The air is drawn into the car through special intakes and passes through a clensing apparatus which removes all dust in the summertime, then passes over pipes containing ice water by which it is cooled to the desired temperature. The cleansed air is released into the car through special ducts which obviate the possibility of drafts and ventilators pass out the used air. In wintertime a heating system replaces the ice water coils, bringing the cold air taken in from outside the car to comfortable degree of warmth after it has passed through the clensing unit. The fact that windows and doors are air tight eliminates dust and greatly reduces noise and thus adds to the comfort of travel. There has been avery noticable increase in the use of the railways for travel in Canada in the last several years and it is anticipated the installation of this air conditioned equipment will serve still further to emphasize to the public the advantage of the railways over other forms of transportation. This has been the experience of the United States railways whose trains have been extensively air conditioned to compete with other forms of transportation."

SHIPBUILDING BOOM

Montreal, April 14.—Shipbuilding depression on the Clyde is at an end, Capt. R. C. Brown, port warden at Montreal, said on his return from a visit to Scotland. In March Scottish shipbuilders launched more than 42,000 tons of shipping, one of the highest monthly outputs for several years, he said.

Newsy Briefs of Land Sea and Air

LONGSHOREMAN DIES

Vancouver, April 14. — W. Lunt, longshoreman, collapsed and died almost immediately as he was working on the Kingsley dock here yesterday. It is believed a sister resides in Seattle, Wash.

FLEET GOES HOME

Gibraltar, April 14. — The second flotilla of destroyers of the Home Fleet left yesterday for England. The flotilla, which arrived here two days ago from Malta, comprises the leader Kempenfelt and the destroyers Comet, Cygnet, Crusader and Crescent.

TOWED TO PORT

Boston, April 14.—The freighter Comerio, which broke her propeller shaft last week 500 miles off the North Carolina coast, arrived here yesterday at the end of a commercial tug towline. The tug picked up the disabled vessel Thursday. The Comerio was out of Guanica, Puerto Rico, with sugar.

"BICYCLE SPECIAL"

New York, April 14. — Even the gentle sport of cycling has its complications in New York City.

Latest "accessory" is a special railroad train which will haul bicycle riders into Connecticut once a week and let them have a few hours of freedom from the big city's traffic.

PIONEER SHIPBUILDER DEAD

North Bend, Ore., April 14.—K. V. Kruse, pioneer west coast ship builder, died yesterday from a heart ailment. He founded the Kruse and Banks shipyard here in 1900, but retired five years ago.

Born at Korser, Denmark, he was educated in Germany. He arrived at San Francisco in 1874, and was ship's carpenter several years before coming to Coos Bay.

HAD NARROW ESCAPE

Hamilton, Ont., April 14.—A Toronto man and his wife and daughter narrowly escaped death yesterday when their car was struck by a Canadian National special train at the Beach Road crossing.

James Weaver, Toronto, and his wife and daughter, Betty, stopped right on the tracks as the train approached the crossing. Weaver tried to back his car, but the locomotive struck the left front of the light coach and caved it right in. But the three occupants escaped with a bad shaking up.

GRAIN CARGOES BIG

Vancouver, April 14.—Exports of grain out of the port of Vancouver to date this season show an increase of almost 2,500,000 bushels over the figures for the corresponding period last year.

Figures of wheat exported to date are 38,173,154 bushels since August 1, 1935, while to the same date last year the figures were 35,866,931 bushels.

Sales during last week totaled approximately 700,000 bushels, and six ships are now in port to load 689,333 bushels.

RETURNS TO PORT

North Sydney, N.S., April 14.—With all her canvas spread before a spanking breeze, the Gloucester racing schooner Gertrude L. Thebaud sped into port yesterday to land a seaman believed to be seriously ill. Doctors found the invalid to be suffering from nothing more than a heavy cold, and Capt. Archie McLeod prepared to return to the fishing banks without delay.

The weather on the banks had been stormy, and good fishing days had been few, the veteran skipper said. He had about 40,000 pounds of fresh fish on board, taken in three weeks

AVOIDS FRANCE

Berlin, April 14.—The German Air Ministry said today permission for the Graf Zeppelin, making another flight from Friedrichshafen to South America, to fly over France was refused by the French government.

The Graf, commanded by Hans von Schiller, left Friedrichshafen at 7.10 p.m. yesterday, bearing sixteen passengers, mails and freight on the voyage over the South Atlantic.

The Zeppelin's route lay by way of the Netherlands, making the trip ten hours longer.

BRIDGE CARRIED AWAY

Red Deer, Alta., April 14.—Ice floes yesterday carried out 120 feet of the Canadian National Railway bridge crossing the Red Deer River in the town of Red Deer, and officials expected still more of it would be carried away.

The portion washed out was a temporary section constructed after the permanent spans were dismantled for the winter. Officials had expected the temporary section would go and have had equipment and men ready on either side of the break ready to make repairs as soon as conditions will permit.

SPECIAL CRUISES

Halifax, April 14.—Unconfimed reports here today said the Canadian National steamships Prince Henry and Prince David may be brought back into service for cruises out of New York. The reports said the Prince David, laid up in Bermuda several months, would be used on a fifty-eight-day cruise early in July to Honolulu and other islands of the Pacific. Her sister ship, the Prince Henry, now idle here, was said to be slated for several cruises from New York to the West Indies and the Caribbean.

This strangle-looking picture is really not strange at all. It shows George Henry up the main mast of the Ss. Princess Marguerite doing some repairs the other day. He had a fine view from his perch.

PARTY SAFE AT GABRIOLA

Silver Wave Reaches Port After Fears Felt for Her Safety

Canadian Press

Vancouver, April 14.—The thirty-four-foot fishing boat Silver Wave with five persons aboard has arrived safely at Gabriola Island, according to information received by the British Columbia Provincial Police here today from A. C. Crocker, owner and operator of the vessel.

A. C. Crocker, owner and operator of the Silver Wave, his wife and three sons, Roy, twenty-one; Ernest, seventeen; and Lester, twelve, left here late Sunday afternoon, bound for their home on the south end of Gabriola Island, a short distance from Nanaimo.

Captain J. N. Sterner of the Ss. Princess Elaine sighted the smaller vessel in difficulties four miles off Point Atkinson, late Sunday night and notified the Point Grey wireless station here.

A police cutter was despatched to the scene and conducted a search te eutt re'eree o bystyngfkdqwkfgk there yest day but no trace of the missing ve sel could be found.

A daughter, Laura, staying in Vancouver, was informed yesterday evening that no news had been received at Gabriola Island and fears were felt for the safety of the party until the message was received here from Crocker. He did not give any details of the trouble.

DOWN THE GANGWAY

Ixion Comes in With New Skipper — Victoria Captain Takes Pleasure Jaunt on Whaler — Reservation Made Year in Advance—Two Liners Bringing Many Passengers

By JIM NESBITT

The Blue Funnel liner Ixion came in from the Orient this morning with a new master on the bridge. He was Capt. W. A. Turner who relieved Capt. James Nelson four weeks ago in Hongkong. Capt. Nelson has gone to England on furlough before being appointed to some other ship of the Blue Funnel Line in world-wide service.

The Ixion had no cabin passengers, but what she lacked in this respect she made up for in cargo. She also had a large group of Chinese steerage passengers and some mail.

The gangway to the whaling ships is only a small one, but climbing up to the W. Grant this morning was Capt. D. J. Butler, one of Victoria's best-known pioneer seafaring men.

"Have you decided to go back to sea?" someone shouted to Capt. Dan as he went aboard with his kit.

The captain then explained he was merely off on a little holiday jaunt and would be the guest of his old friend, Capt. "Bill" Heater on the Grant as far as Alert Bay, where he will visit friends for the next two months.

The Grant will call at Comox tomorrow for coal and on Thursday will pull in at the Alert Bay wharf to permit Capt. Butler to go ashore.

The most unusual steamship reservation to reach the Vancouver offices of the Canadian National in some time came this week from Prince Rupert. E. F. Read of the northern city has booked space on the new giant of the seas, the Queen Mary for May 1937.

He explained it like this. He said he was going to London next year for the coronation of King Edward VIII. He will then have seen three monarchs crowned. As a young man he saw the coronation of Edward VII and made his first visit to his old home in England, from Canada, in time for the coronation of George V. He said he must go over for next year's ancient ceremony in Westminister Abbey. He will probably not be the only visitor there, for steamship reservations are pouring by the hundred into Canadian booking offices.

Missionaries, business men, students and pleasure travelers—such is the passenger list of the American Mail liner President Jackson, due here tomorrow morning from China, Japan and the Philippine Islands. And a similar sort of passenger list will be aboard the Ss. Niagara when she arrives the next day from Australia and New Zealand, via Suva and Honolulu.

Local customs and immigration are in for a busy week, as both the President Jackson and the Niagara are bringing good lists of travelers. And Saturday, to top off the week in suitable fashion, the Ss. Empress of Asia will be here on her way to China and Japan.

TREASURE SHIP RUNS AGROUND

Ss. Ranpura, With Chinese Art Exhibits, Runs Ashore in Harbor at Gibraltar

Gibraltar, April 14.—The Ss. Ranpura, carrying priceless Chinese art treasures recently exhibited in London back to China, went aground northwest of the harbor today in a rough sea.

So valuable are the several thousand objects—some of them older than Christianity itself—that British destroyers are convoying the Ranpura

Two Admiralty tugs went to the assistance of the Ranpura. Authorities said they did not believe she was in immediate danger.

WHALERS ON ANNUAL HUNT

Great Activity on Inner Harbor Docks As Four of Them Prepare for Voyage

The whalers are off! Four of them, the W. Grant, the Brown, the Blue and the White were ready today to cast off from their dock in the Upper Inner Harbor and proceed to the Queen Charlotte Islands where they will operate during the summer months.

These four ships will go to Rose Harbor, which will be their base while in the north. They will return there every week or ten days with their catches and then return to sea, sometimes going several hundred miles out into the Pacific Ocean.

The two remaining whalers, the Green and the Black will leave port shortly. It is probable they will go to Naden Harbor.

There was great activity and excitement on the whaling docks this morning as the captains and crews of the four departing vessels arrived. There was their baggage to be stored away in rather cramped quarters; supplies had to be taken aboard and gear and equipment.

Mothers and fathers, wives, sweethearts and children paid visits to the wharf to wish their men bon voyage and a good season.

Another few weeks now and the old familar cry "Thar she blows" will be heard in the North Pacific as the staunch little whalers battle the Pacific's big combers in search of the ocean's greatest mammal. The lookout in the barrel will be the first to sight the rolling monsters and at his cry every man on the ship will spring to attention.

Capt. William Heater is again master of the W. Grant. On the Brown is Capt. John Fransen; Capt. Andy Anderson has the Blue and Capt. Harry Anderson is master of the White.

BIG CARGOES LANDED HERE

Ixion and Gracia in Port Today and President Jackson Due Tomorrow Morning

Several big cargoes are being handled at the Ocean Docks this week, with ships arriving from foreign countries with good freight parcels and others loading island lumber.

The Ixion, which arrived this morning at 10.30 o'clock from the Orient, brought in 300 tons of general freight. She remained at the Rithet docks until 4 o'clock this afternoon before proceeding to Vancouver. This was one of the largest cargoes brought to Victoria in some months aboard a ship of this fleet.

The British freighter Harmonic cleared Ogden Point at 7.40 o'clock this morning for London. She had a capacity cargo of lumber, including 1,100,000 feet of lumber and 5,250 doors loaded at Victoria.

The Gracia, of the Donaldson Line, due this evening from the United Kingdom, is also bringing a cargo a little larger than usual. She will discharge about 150 tons here before proceeding to Vancouver about midnight. She has bananas, citrus fruits and fresh vegetables for this port.

Tomorrow morning King Brothers expect the freighter Brynje off Victoria on her way to James Island to discharge 1,500 tons of nitrates from the Atlantic coast. This ship will later return to Victoria to load lumber for the United States.

Another big cargo from the Orient will be discharged at the Rithet docks tomorrow morning when the Ss. President Jackson arrives with approximately 300 tons. This ship will be in port about three hours.
